

## **TAMU Project**

**Energy Consumption Data Quality Assurance/Quality  
Control Assessment Report for the  
Month of August 2017**

**Prepared for**

**Utility & Energy Services  
Division of Administration  
Texas A&M University**

**September 2017**

## **Acknowledgements**

The TAMU energy consumption and data analysis report for the month of August 2017 is a collaborative effort from the personnel of the Utilities & Energy Services, Texas A&M University and the Energy Systems Laboratory, Texas A&M Engineering Experiment Station.

The authors of this report would like to thank Ms. Yasuko Sakurai, Mr. Alec Pointer at the Utilities & Energy Services for providing energy consumption data and valuable information related to the building operation. Ms. Xiaoli Li, Ms. Kimberly Jones and Mr. Hongxiang Fu members of the Building Performance Analytics group in Energy Systems Laboratory contributed to this month report of consumption analysis for TAMU buildings. For information regarding to the TAMU Data Analysis project please contact the Building Performance Analytics Group Leader Dr. Juan-Carlos Baltazar.

## **Executive Summary**

This report analyzes the energy use data collected from 595 meters in 206 buildings and complexes (approximately 20,468,000 GSF) on the campus of Texas A&M University in College Station, Texas. The report consists of five sections: 1) The summary of the monthly energy consumption per meter ID, 2) The quality control and assurance analysis of incorrect or incomplete energy use patterns, 3) Energy consumption time series plots, 4) Energy Balance plots, and 5) Energy Balance plots with filled-in consumption data. Section one contains the summary of monthly energy consumption for each of the TAMU buildings. Section two includes the reviews on each of those building energy use patterns that presented problems in the metered data. Section three and four are a collection of the plots generated for the energy use analysis, as reference to indicate and validate the quality of the metered energy data. The Section five includes the energy balance plots with filled-in energy data.

Figure III-112 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Zachry Engineering Education Complex during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	207
Figure III-113 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Beutel Health Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	208
Figure III-114 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Heldenfels Hall during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	208
Figure III-115 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Blocker building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	209
Figure III-116 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Clements Residence Hall during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	209
Figure III-117 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Haas Residence Hall during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	210
Figure III-118 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for McFadden Residence Hall during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	210
Figure III-119 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Neeley Residence Hall during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	211
Figure III-120 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Hobby Residence Hall during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	211
Figure III-121 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Wisenbaker Engineering Research Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	212
Figure III-122 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for McNew Laboratory during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	212

Figure III-123 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Soil Testing Labs during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	213
Figure III-124 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Entomology Research Lab during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX.....	213
Figure III-125 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for TVMC-Small Animal Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	214
Figure III-126 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Dollar Data Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	214
Figure III-127 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Laboratory Animal Care Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	215
Figure III-128 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Vivarium III during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	215
Figure III-129 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Veterinary Medicine Administration during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	216
Figure III-130 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Texas Vet Med Diagnostic Lab during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	216
Figure III-131 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Forest Science Laboratory Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	217
Figure III-132 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Veterinary Small Animal Hospital during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	217
Figure III-133 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Utilities Energy Office Annex during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	218
Figure III-134 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Biological Control Facility during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX.....	218

Figure III-135 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Physical Plant Administration & Shops during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	219
Figure III-136 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Veterinary Anatomic Pathology during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	219
Figure III-137 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Veterinary Large Animal Hospital during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	220
Figure III-138 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Veterinary Research Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	220
Figure III-139 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Buzbee Leadership Learning Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	221
Figure III-140 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for H. Grady Ash, Jr. '58 Leadership Learning Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	221
Figure III-141 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Plank LLC during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	222
Figure III-142 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Ash II LLC during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	222
Figure III-143 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Hullabaloo Residence Hall during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX.....	223
Figure III-144 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - Laundry at the Gardens during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	223
Figure III-145 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens J during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	224
Figure III-146 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens K during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	224

Figure III-147 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens L during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	225
Figure III-148 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens F during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	225
Figure III-149 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens G during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	226
Figure III-150 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens H during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	226
Figure III-151 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens M during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	227
Figure III-152 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens N during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	227
Figure III-153 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens P during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	228
Figure III-154 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens Q during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	228
Figure III-155 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Utilities & Energy Services Business Office during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX.....	229
Figure III-156 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Kleberg Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	229
Figure III-157 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Heep Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	230
Figure III-158 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Cater-Mattil Hall during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	230

Figure III-159 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Reynolds Medical Sciences Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	231
Figure III-160 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Rosenthal Meat Science & Technology Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	231
Figure III-161 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Horticulture-Forest Science Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	232
Figure III-162 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Biochemistry-Biophysics Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	232
Figure III-163 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Price Hobgood Ag. Engineering Research Lab during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	233
Figure III-164 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Medical Sciences Library during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX.....	233
Figure III-165 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Wehner Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	234
Figure III-166 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for West Campus Library Facility during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	234
Figure III-167 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Southern Crop Improvement Greenhouse during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	235
Figure III-168 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Borlaug Center for Southern Crop Improvement during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	235
Figure III-169 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for TX School of Rural Public Health during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	236
Figure III-170 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Nuclear Magnetic Resonance Facility during the Month of	

August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	236
Figure III-171 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Interdisciplinary Life Sciences Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	237
Figure III-172 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Agriculture and Life Sciences Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	237
Figure III-173 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for AgriLife Services Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX.....	238
Figure III-174 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Wildlife Fisheries & Ecological Sciences Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	238
Figure III-175 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Agriculture Program Visitors Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	239
Figure III-176 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Physical Education Activity Program Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	239
Figure III-177 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Human Clinical Research Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	240
Figure III-178 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Cain Garage during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	240
Figure III-179 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Olsen Field at Bluebell Park during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	241
Figure III-180 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Reed Arena and Cox-McFerrin Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	241
Figure III-181 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Cox-McFerrin Center for Aggie Basketball during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX.....	242

Figure III-182 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for West Campus Parking Garage during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	242
Figure III-183 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Student Recreation Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX.....	243
Figure III-184 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for White Creek Apartment 1 and White Creek Apts Activity Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, T .....	243
Figure III-185 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for White Creek Apartment 2 during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX.....	244
Figure III-186 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for White Creek Apartment 3 during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX.....	244
Figure III-187 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Gilchrist TTI Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX.....	245
Figure III-188 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for International Ocean Discovery Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	245
Figure III-189 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Offshore Technology Research Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	246
Figure III-190 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for George Bush Presidential Library & Museum during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	246
Figure III-191 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Allen Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	247
Figure III-192 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Annenberg Presidential Conference Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX.....	247
Figure III-193 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for TTI Headquarters during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	248

Figure III-194 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Engineering Research Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	248
Figure III-195 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for General Services Complex during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX.....	249
Figure III-196 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for New TVMDL during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	249
Figure III-197 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Office of the State Chemist Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	250
Figure III-198 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Vet Med Research Bldg Addition during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	250
Figure III-199 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Veterinary Medicine Building 1, 2, and 3 during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	251
Figure III-200 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Texas Institute for Genomic Medicine during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	251
Figure III-201 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Texas A&M Institute for Preclinical Studies A during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	252
Figure III-202 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for National Center for Therapeutics Manufacturing during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	252
Figure III-203 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Multi-Species Research Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	253
Figure III-204 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for NCTM Manufacturing Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX .....	253

NA: Not available  
 Monthly consumption in blue: modified values

\*: Missing data

#: Questionable data

(1): Consumption estimated and documented in the report *Part II - Data Analysis: Energy Use Estimation and Observations Section 2*

(2): Observation(s) documented in the report *Part II - Data Analysis: Energy Use Estimation and Observations Section 3*

(3): Missing data or changed consumption levels due to construction

## **II. Data Analysis: Energy Use Estimation and Observation**

## II-1 Meters with Missing Energy Consumption Data

During the month of August 2017, 58 meters in 33 buildings and complexes have missing daily data. The missing data have been filled in using consumption models based on the past data if available or using linear interpolation or some sort of average, and the monthly consumption has been estimated with the filled-in daily consumption. Table II-1 is the list of meters with missing data.

## **II-2 Meters with Estimated Consumption for Problematic Data**

During the month of August 2017, 50 meters in 37 buildings have estimated daily consumption because the recorded consumption is found to be problematic or questionable. For each of these meters, alternative consumption has been estimated using the best possible method. Table II-2 lists these meters with indications of the days with estimated data. Detailed descriptions for individual cases follow.

Table II-2 Meters with problematic data during August 2017

NA: Not available

\*\* See Table II-1 for the original consumption.

Notes: The colored cells means the consumption for the day appears to be problematic. The letter in the colored cell indicates the method for estimation. M: model, F: multiplication factor, L: linear interpolation, A: average, and C: correction of the reset cumulative reading

## Eppright Residence Hall (TAMU Bldg #292)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
HHW	002266	31	8/1/2017 – 8/31/2017	Model

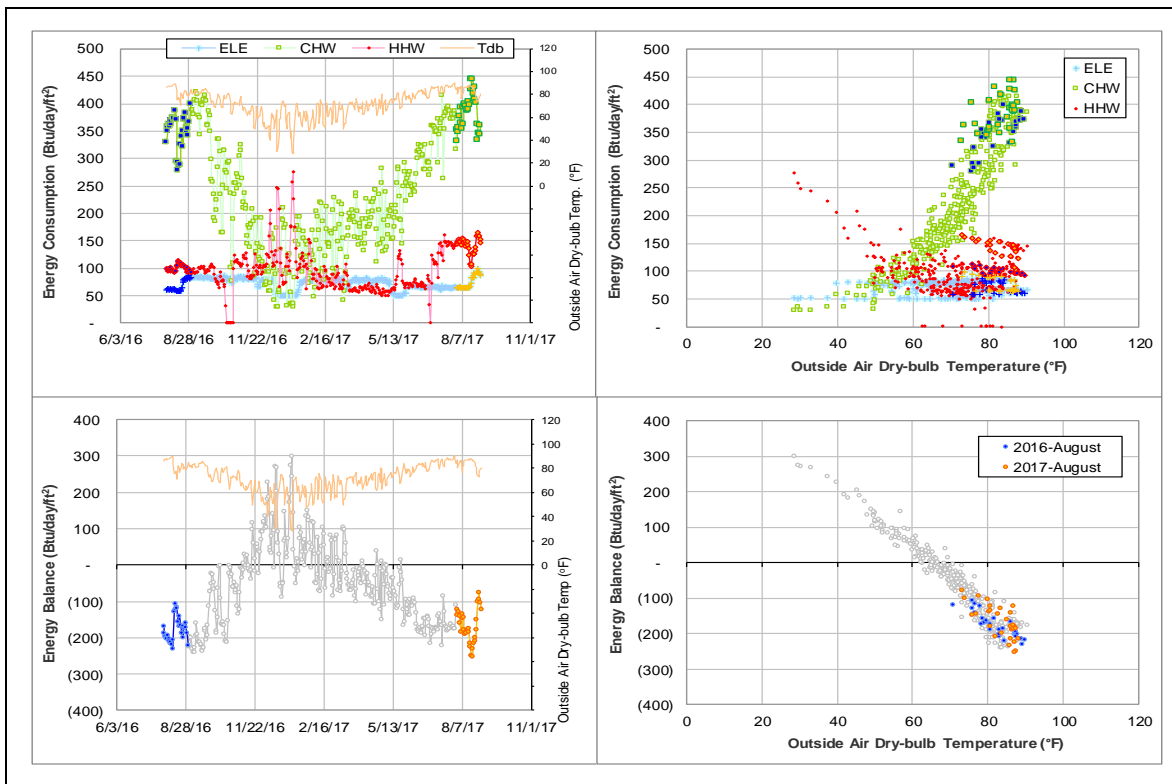

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
HHW	The consumption level is higher than the level during the past year.	7/15/2017– ongoing

### Quantitative descriptions and comments

The HHW consumption was about 60 Btu/day/ft<sup>2</sup> higher than the previous year starting around 7/15/2017. The consumption was estimated by a model.

### Explanatory Figure: 13 months energy balance plot with original data.

*Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (HHW during August 2017)*

*Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any.*

*Energy balance plot using the estimated data for the month of analysis.*

## Lechner Residence Hall (TAMU Bldg #294)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
HHW	002289	31	8/14/2017 – 8/18/2017	Model

### Detected issues in the energy balance and/or the consumption data

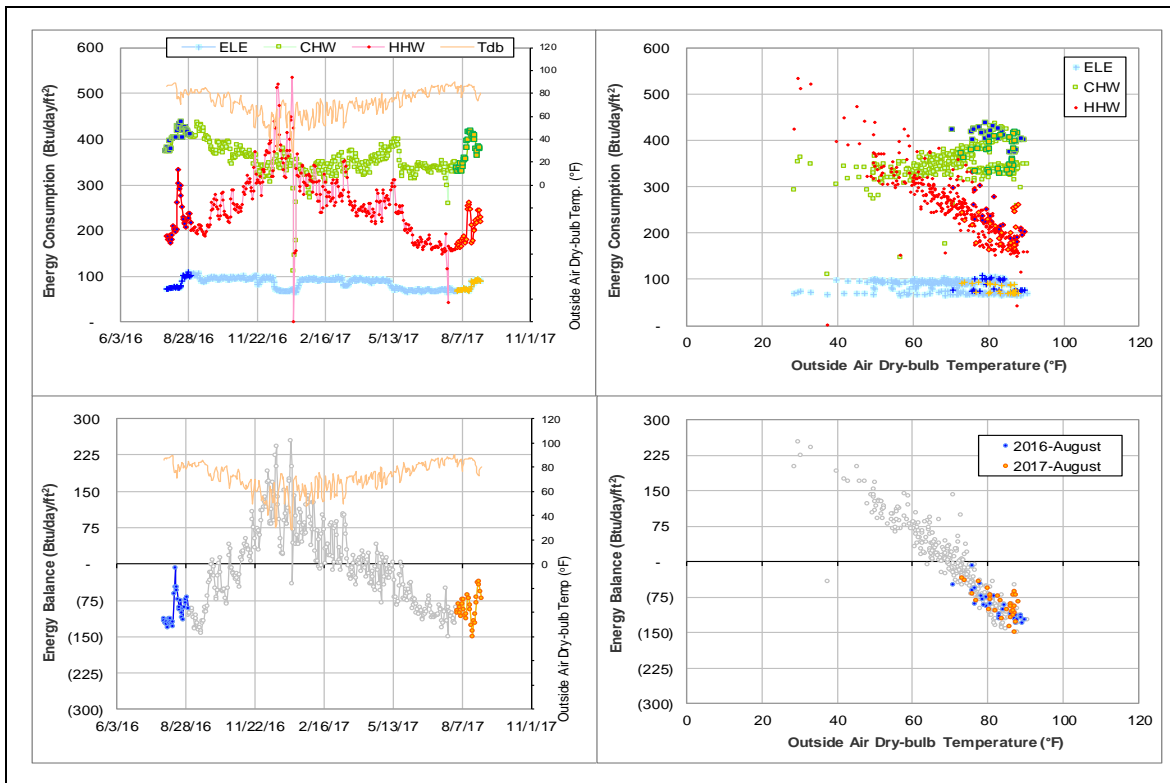

Data Type	Description of data behaviors	Period
HHW	The consumption increased for a short period.	8/14/2017 – 8/18/2017

### Quantitative descriptions and comments

The HHW increased by 50 Btu/day/ft<sup>2</sup> for a short period during 8/14/2017 – 8/18/2017. The consumption was estimated by a model.

CHW consumption seemed have a different pattern during summer.

### Explanatory Figure: 13 months energy balance plot with original data.

*Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any.*

*Energy balance plot using the estimated data for the month of analysis.*

## Koldus Building (TAMU Bldg #383)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
HHW	002874	31	7/1/2017 – 7/31/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
HHW	The metered values appear to be faulty.	3/12/2017 – ongoing

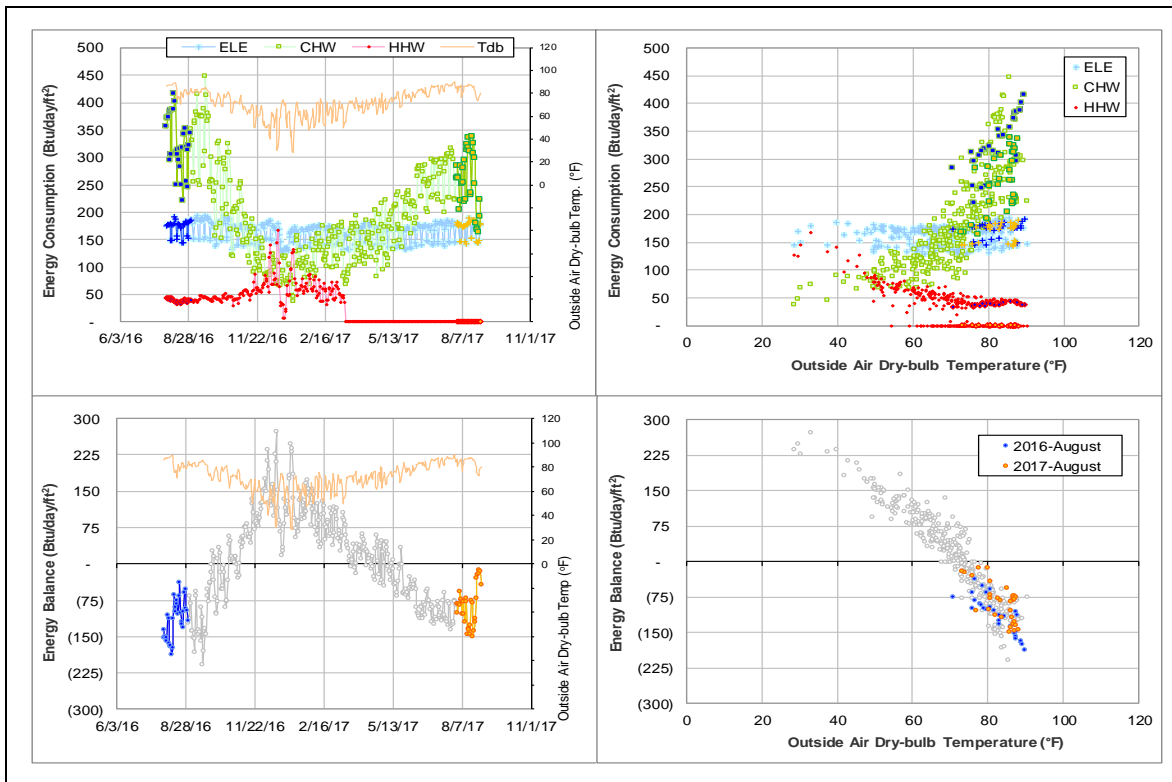

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
HHW	002874	3/12/2017 - ongoing	Flow rate	Near zero

### Quantitative descriptions and comments

The HHW consumption dropped to zero since 3/12/2017 due to a flow rate near zero. The consumption was estimated by a model.

### Explanatory Figure: 13 months energy balance plot with original data.

*Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (HHW during August 2017)*

*Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any.*

*Energy balance plot using the estimated data for the month of analysis.*

## Richardson Petroleum Engineering Building (TAMU Bldg #387)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
HHW	005809	23	8/3/2017 – 8/25/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
HHW	The metered values appear to be faulty.	8/3/2017 – 8/25/2017

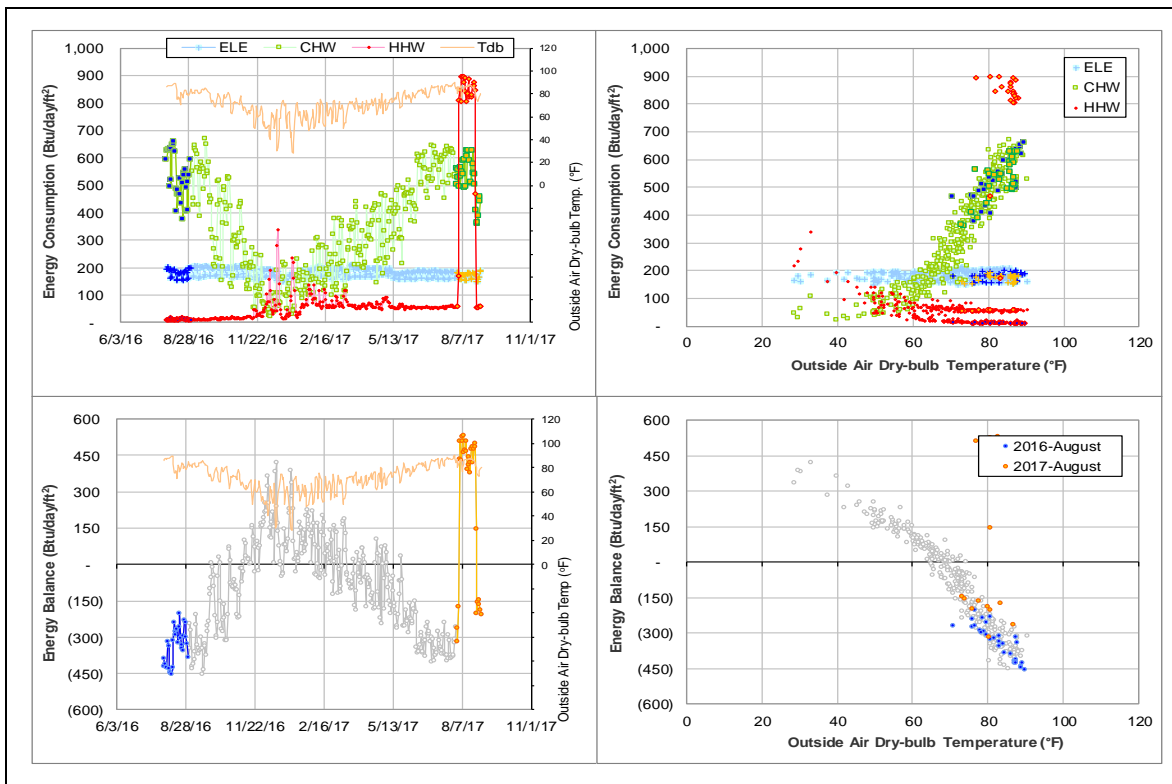

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
HHW	005809	8/3/2017 – 8/25/2017	Flow rate	Faulty, maintained at a constant value

### Quantitative descriptions and comments

The HHW consumption increased to extremely high and metered values were faulty during 8/3/2017 – 8/25/2017. The consumption was estimated by a model.

### Explanatory Figure: 13 months energy balance plot with original data.

***Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (HHW during August 2017)***

*Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any.*

*Energy balance plot using the estimated data for the month of analysis.*

## Whitely Hall – Dorm 9 (TAMU Bldg #408)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
CHW	010035	12	8/1/2017 – 8/12/2017	Model
HHW	010036	14	8/1/2017 – 8/14/2017	Average

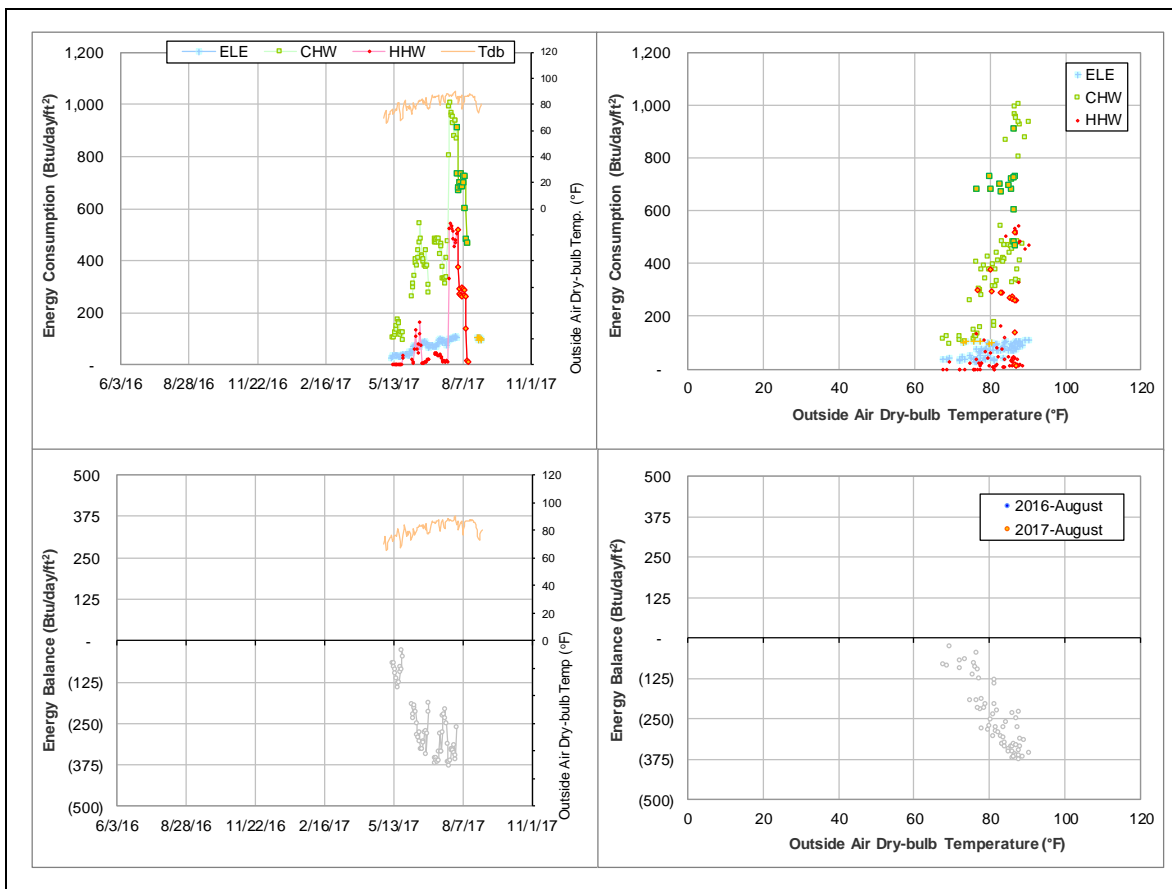

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
CHW	Abnormal patterns are observed.	7/21/2017 – 8/12/2017
HHW	Abnormal patterns are observed.	7/21/2017 – 8/14/2017

### Quantitative descriptions and comments

The CHW and HHW consumption was abnormally high since 7/21/2017. The consumption decreased back to a normal range on 8/12/2017 and the data after 8/14/2017 was missing. These days are estimated by a model for CHW and an average for HHW.

### Explanatory Figure: 13 months energy balance plot with original data.

*Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any.*

*Energy balance plot using the estimated data for the month of analysis.*

## Legett Residence Hall (TAMU Bldg #419)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
HHW	002222	14	8/10/2017 – 8/23/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
HHW	Abnormal patterns are observed.	8/10/2017 – 8/23/2017

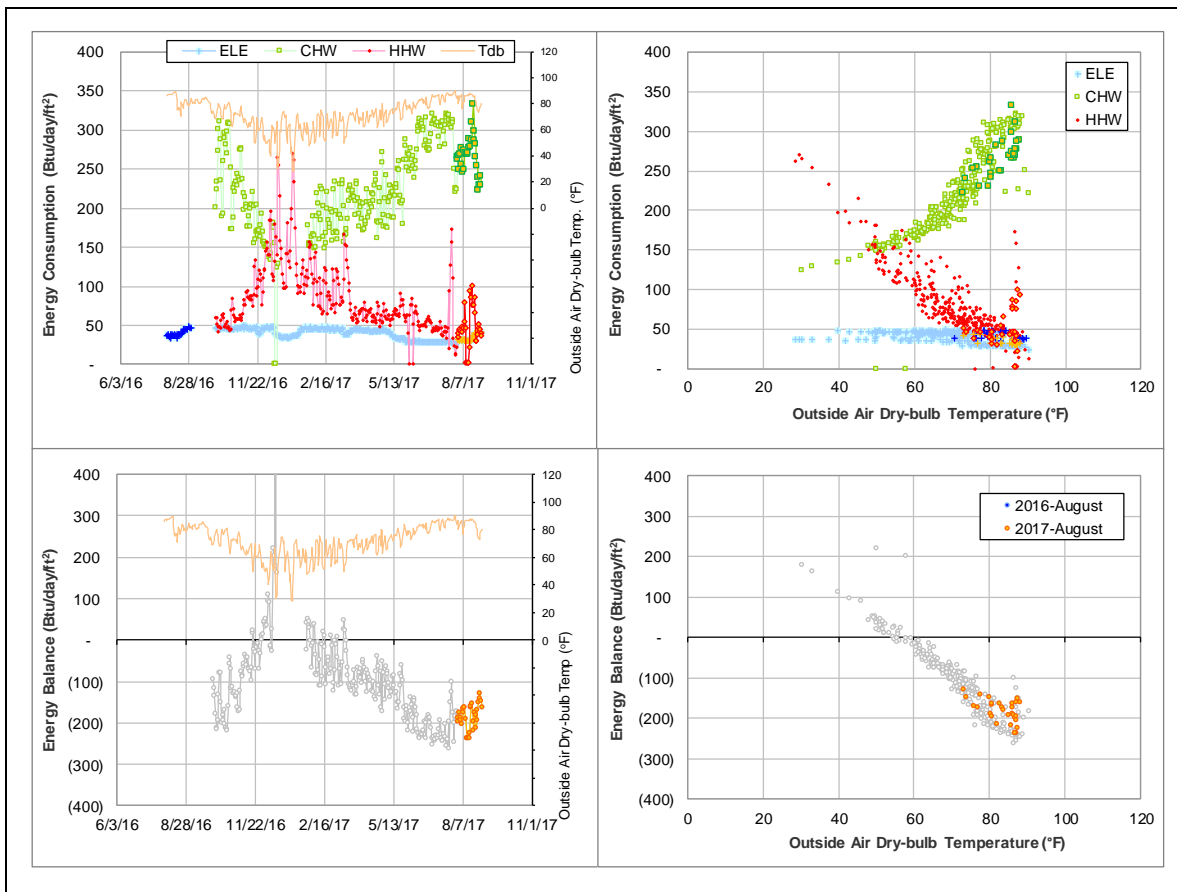

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
HHW	002222	8/10/2017 – 8/23/2017	Flow rate	Fluctuate widely

### Quantitative descriptions and comments

The HHW consumption fluctuate widely during 8/10/2017 – 8/23/2017 majorly caused by the change of the flow rate. These days are estimated using a model.

**Explanatory Figure: 13 months energy balance plot with original data. (The plot is rescaled to remove the spikes.)**

*Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any.*

*Energy balance plot using the estimated data for the month of analysis.*

## Commons Hall (TAMU Bldg #440)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
CHW	009237	28	8/4/2017 – 8/31/2017	Model
HHW	009238	28	8/4/2017 – 8/31/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
CHW	The consumption level is higher than the level during the past year.	8/4/2017 – Ongoing
HHW	The consumption level is higher than the level during the past year.	8/4/2017 – Ongoing

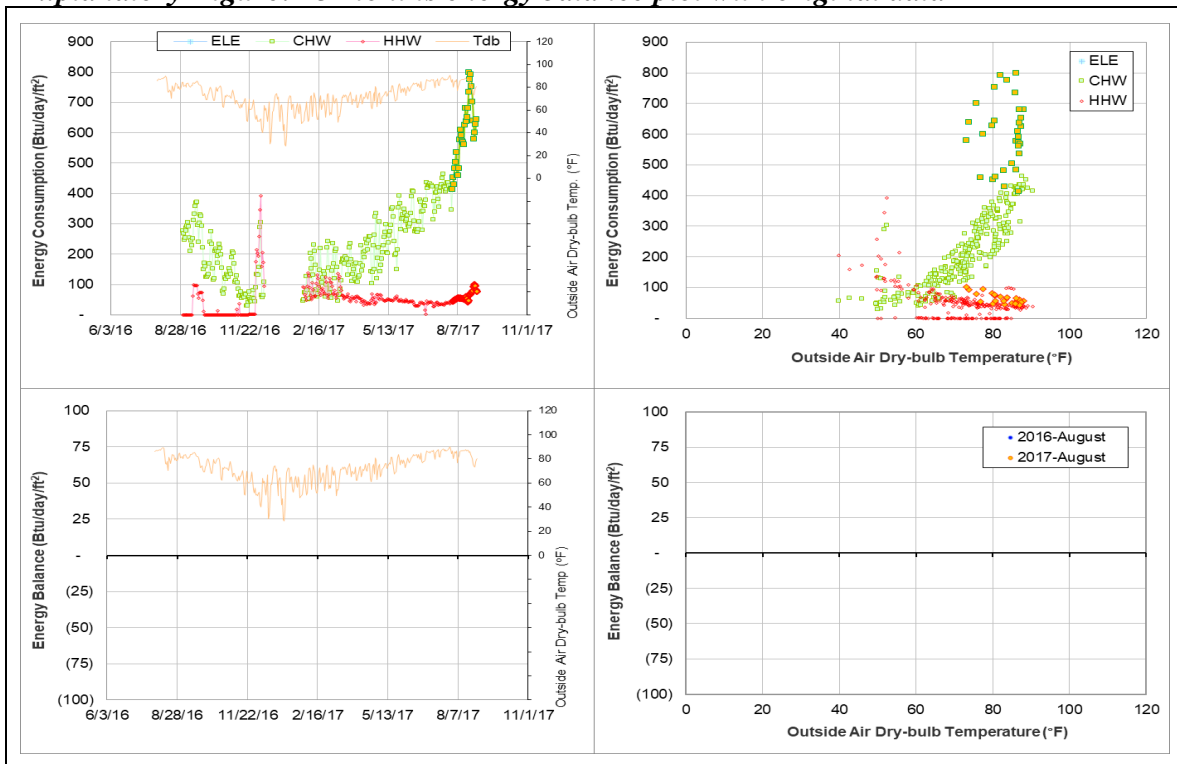

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
CHW	009237	8/4/2017 – Ongoing	Flow rate	Increased
HHW	009238	8/4/2017 – Ongoing	Flow rate	Increased

### Quantitative descriptions and comments

The CHW consumption pattern is higher than the past year by up to 50% (approx. 360 Btu/day/ft<sup>2</sup> increase). This increase seems related to an increase in CHW flow rate. The consumption for this period was estimated by model. Similar to CHW, HHW consumption pattern is higher than the past year by 10 - 45 Btu/day/ft<sup>2</sup> with the greater increase during the cooler outside temperatures. This increase seems related to an increase in HHW flow rate. The consumption for this period was estimated by model.

### Explanatory Figure: 13 months energy balance plot with original data

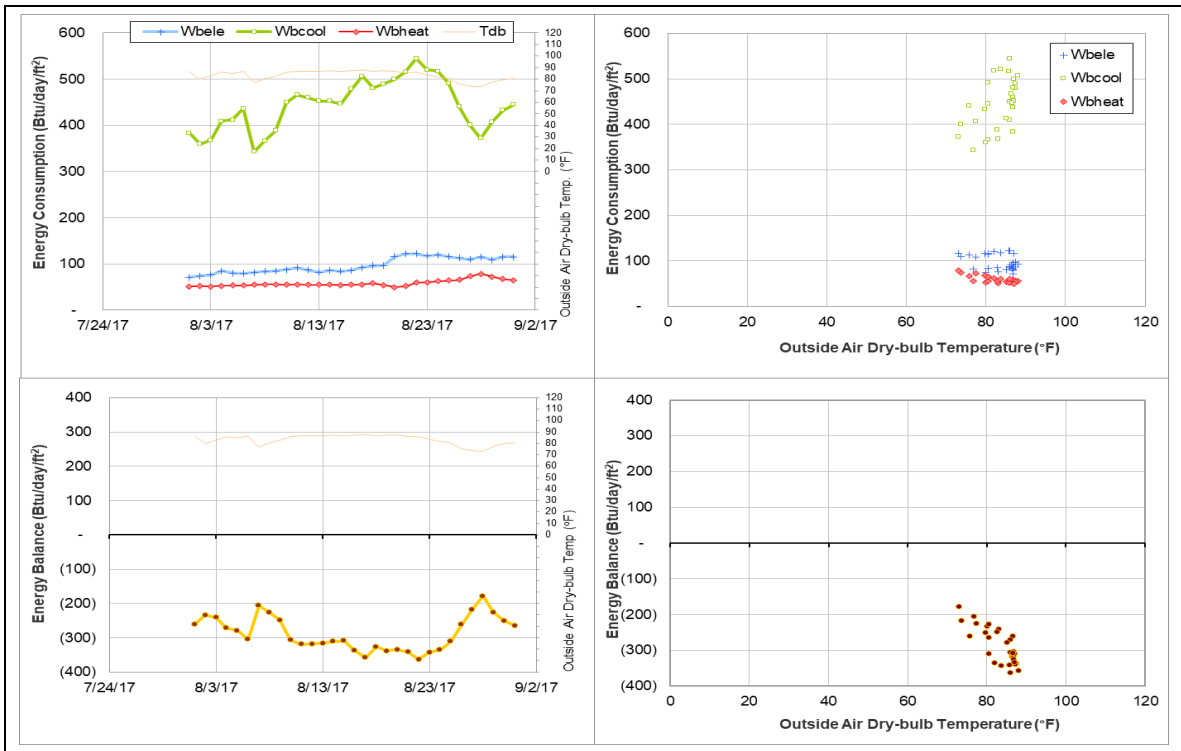

**Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any. (TAMU Commons Hall Bldg. #440)**

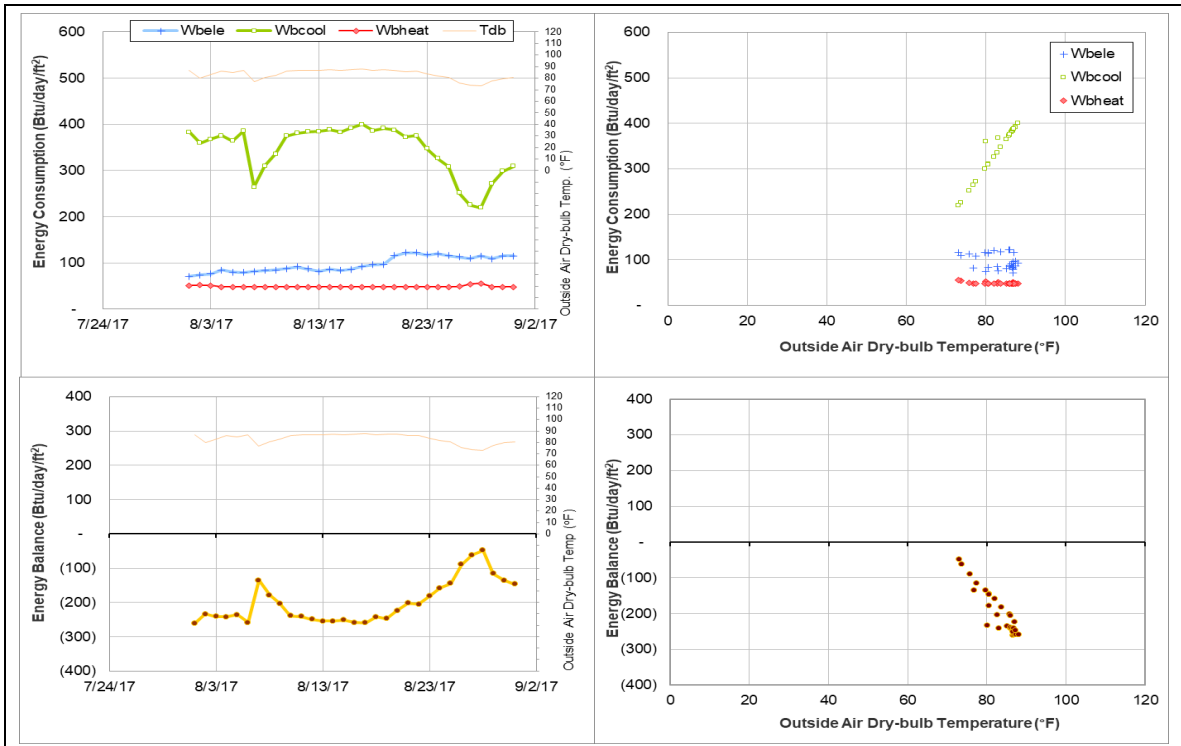

**Energy balance plot using the estimated data for the month of analysis (TAMU Commons Hall Bldg. #440)**

**Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any. (TAMU Commons Hall Bldg. #440 & Krueger Residence Hall #441)**

**Energy balance plot using the estimated data for the month of analysis (TAMU Commons Hall Bldg. #440 & Krueger Residence Hall #441)**

## Rudder Theatre Complex (TAMU Bldg # 446)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
ELE	002977	31	8/1/2017 – 8/31/2017	Model
ELE	002980	31	8/1/2017 – 8/31/2017v	Model
CHW	004297	31	8/1/2017 – 8/31/2017	Model
HHW	004309	31	8/1/2017 – 8/31/2017	Model

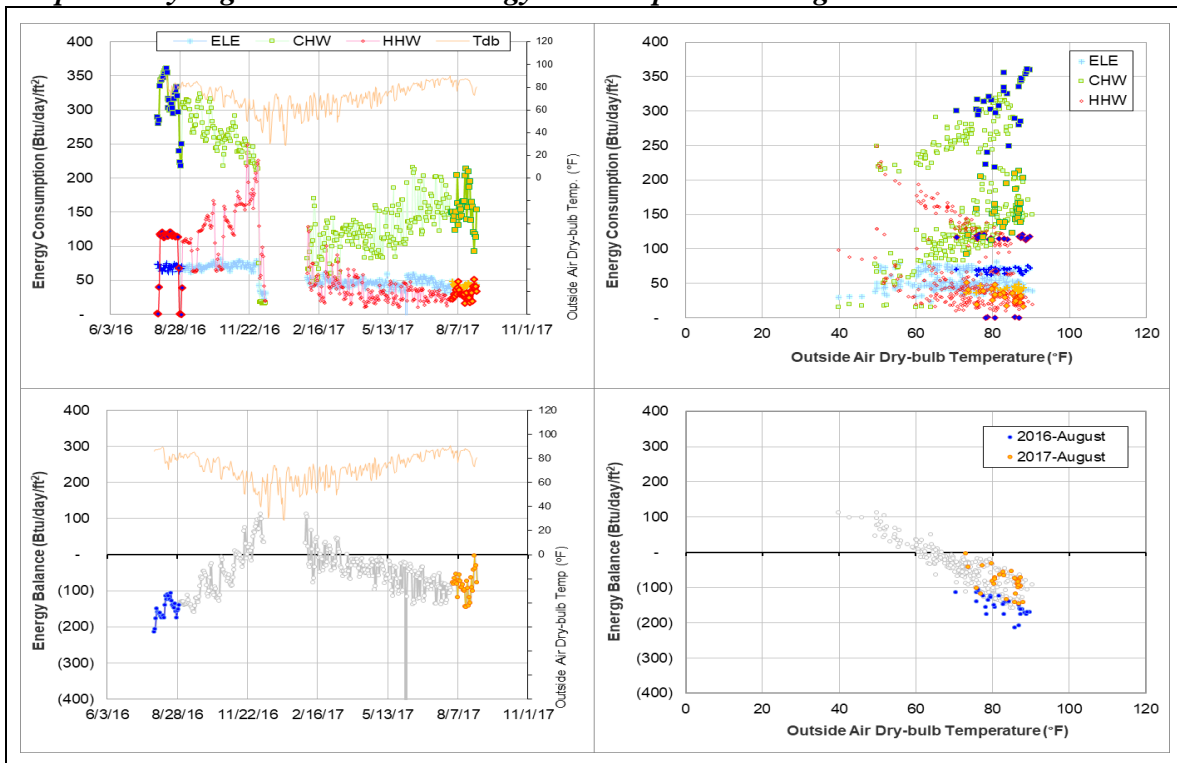

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
ELE	The consumption level has decreased suddenly.	2/1/2017 – Ongoing
ELE	The consumption level has decreased suddenly.	2/1/2017 – Ongoing
CHW	The consumption level has decreased suddenly.	2/1/2017 – Ongoing
HHW	The consumption level has decreased suddenly.	2/1/2017 – Ongoing

### Quantitative descriptions and comments

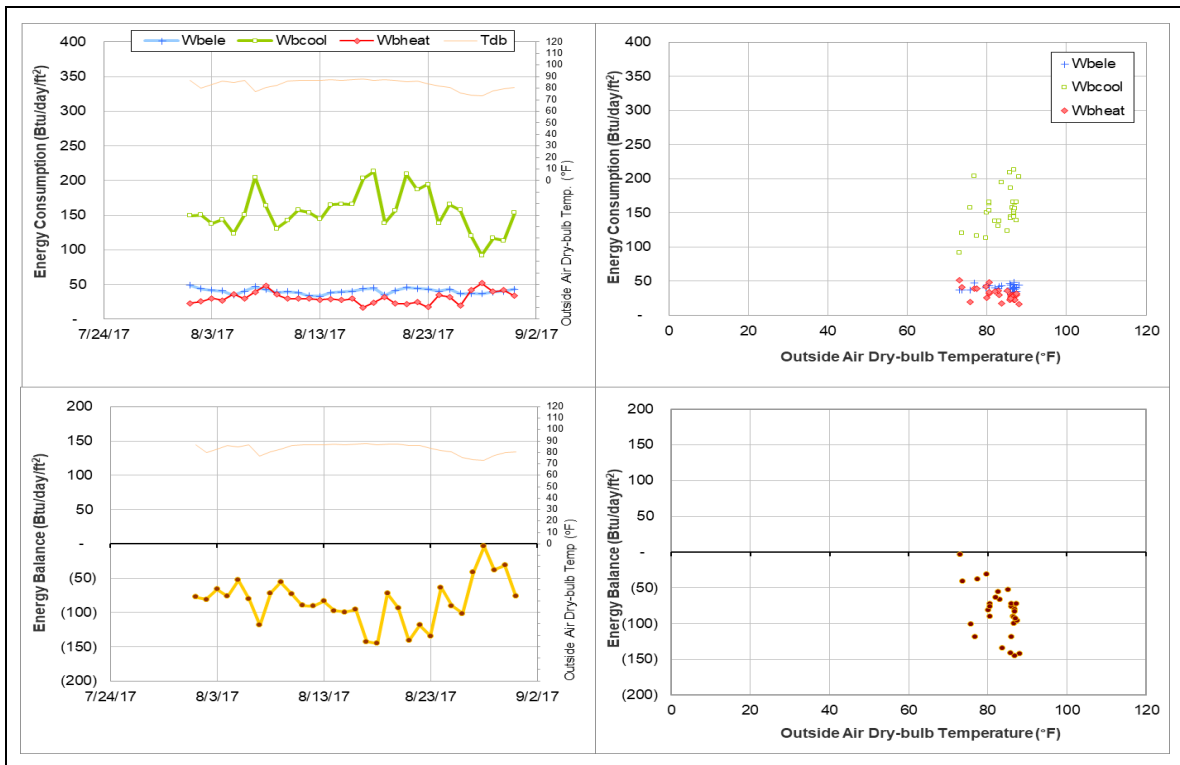

ELE, CHW, and HHW consumption dropped during the winter break of last year (2016-2017) and again during the winter break in 2015-2016. This drop is not suspected to be a meter malfunction since a decrease would be expected during break periods and that the data from 2015-2016 winter suggests that the consumption went back to the normal level around 1/25/2016. However, the data following 2016-2017 winter has not yet returned to the normal level. The energy balance of this building does not show separate patterns for these two levels. The whole month is estimated using a model for ELE, CHW, and HHW.

### Explanatory Figure: 13 months energy balance plot with original data

*Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any.*

*Energy balance plot using the estimated data for the month of analysis*

## Adams Band Hall (TAMU Bldg #448)

### *Estimated data*

Energy Type	Meter ID	Number of Days	Period	Estimation Method
CHW	002555	31	8/1/2017 – 8/31/2017	Model
HHW	002566	31	8/1/2017 – 8/31/2017	Model

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
CHW	The consumption level is lower than the level during the past year.	7/24/2017 – Ongoing
HHW	The consumption level has decreased suddenly.	7/24/2017 – Ongoing

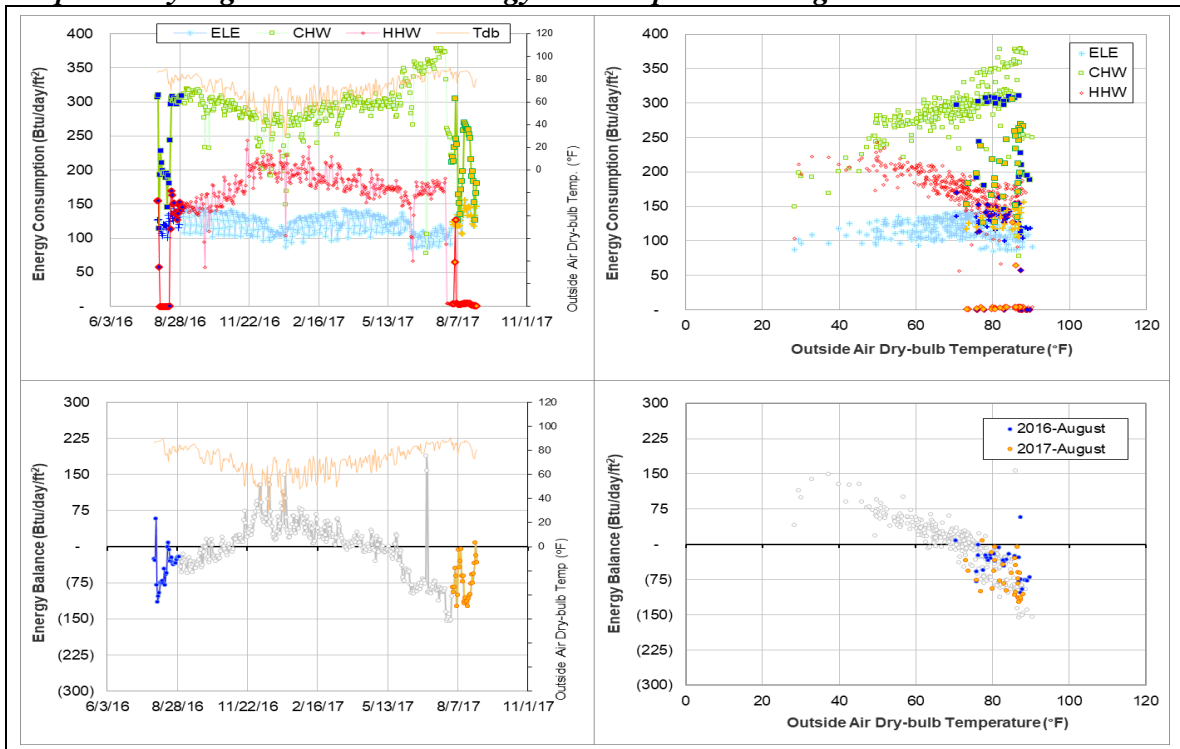

### *Changes in sensor readings related to the detected issues*

Energy Type	Meter ID	Period	Type	Description
CHW	002555	7/24/2017 – Ongoing	Delta-T	Decreased
HHW	002566	7/24/2017 – Ongoing	Flow rate	Decreased to zero

### *Quantitative descriptions and comments*

The CHW consumption pattern for June 2017 is 50 Btu/day/ft<sup>2</sup> higher than June 2016. The CHW flow rate appears to be at a consistent level in June 2017 where in the previous year, the flow rate varied throughout the day. For a short period during 6/30/2017-7/1/2017, the flow rate decreased to near zero value. Starting on 7/24/2017, the return temperature decreased resulting in a consumption level 60 Btu/day/ft<sup>2</sup> lower than July 2016. The CHW consumption was estimated by model. The HHW consumption decreased starting 7/24/2017 and continues. During this period the HHW flow rate appears to decrease to zero or near zero values. The HHW consumption was estimated by model for this period.

***Explanatory Figure: 13 months energy balance plot with original data***

*Energy balance plot using the estimated data for the month of analysis*

## Biological Sciences Building - West (TAMU Bldg #449)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
CHW	003981	6	8/2/2017 – 8/7/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
CHW	The consumption level is higher than the level during the past year.	8/2/2017 – 8/7/2017

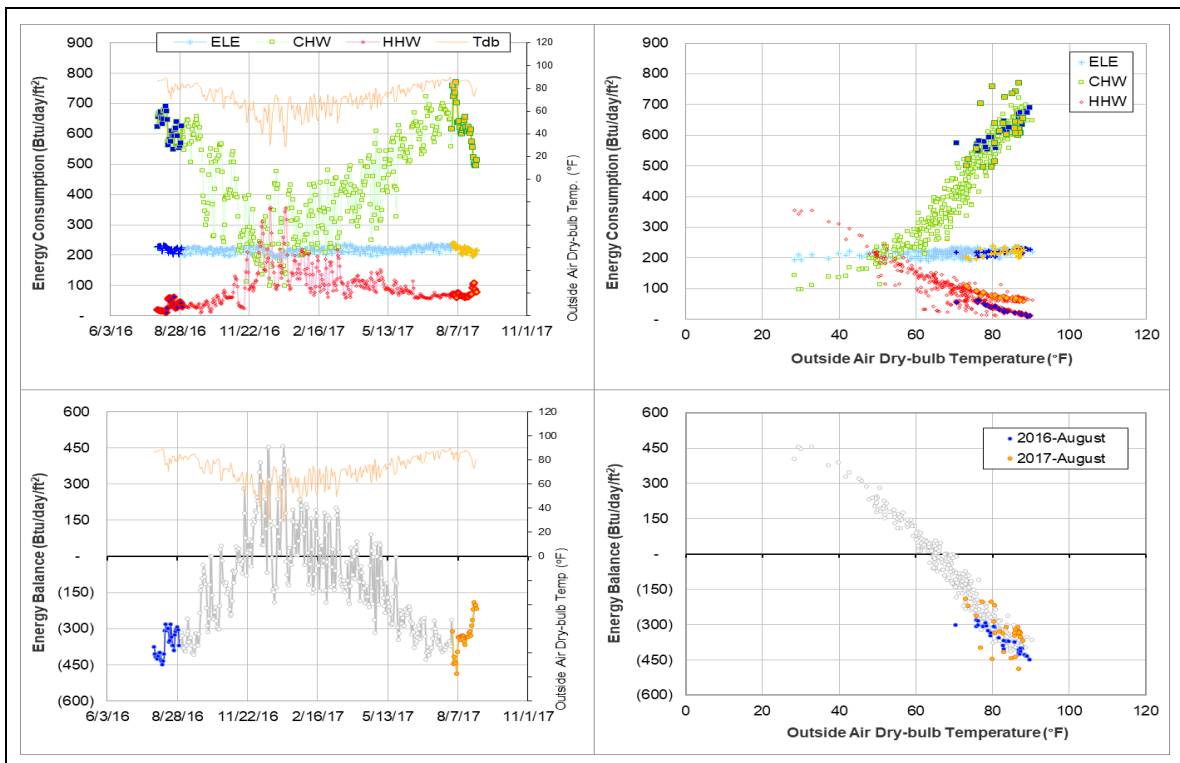

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
CHW	003981	8/2/2017 – 8/7/2017	Flow rate	Decreased to near zero

### Quantitative descriptions and comments

The CHW pattern is higher than the level of the past year by approx. 100 Btu/day/ft<sup>2</sup> (14%). The increase in consumption appears related to an increase in CHW flow rate. The CHW consumption for this period was estimated by model.

### Explanatory Figure: 13 months energy balance plot with original data

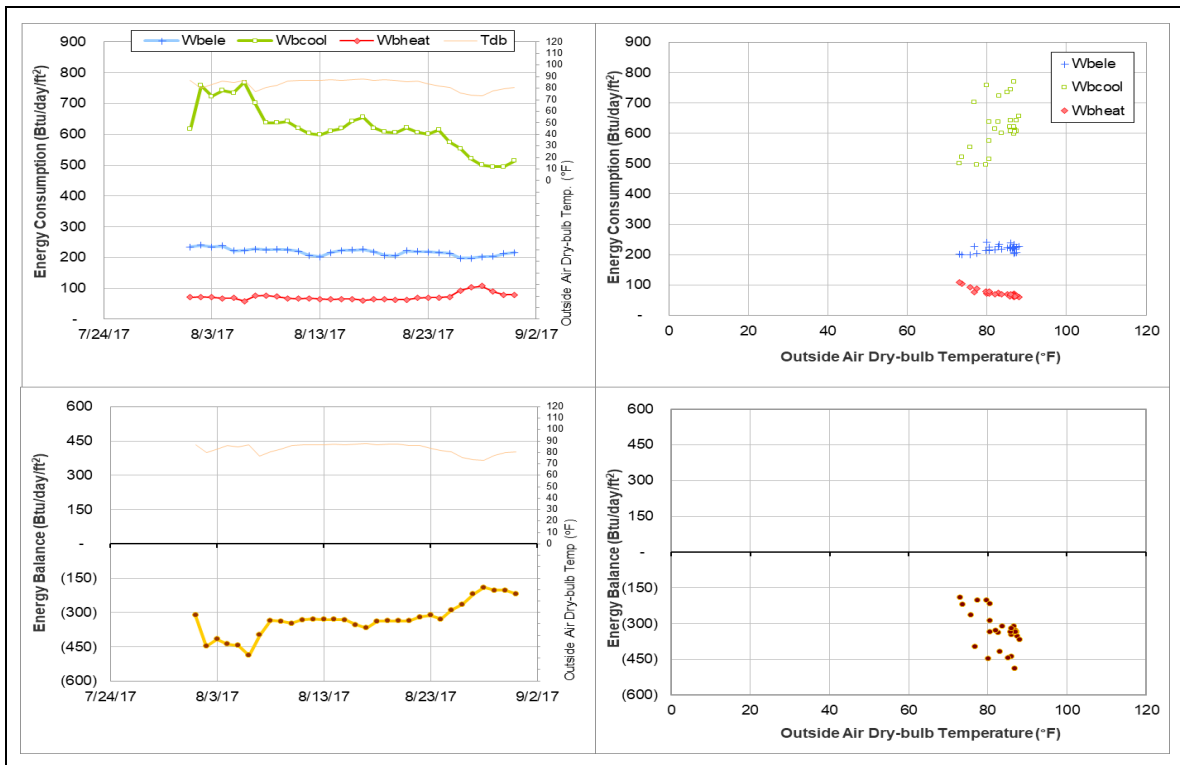

***Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office (CHW meter during August 2017)***

## Biological Sciences Building - East (TAMU Bldg #467)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
CHW	003851	31	8/1/2017 – 8/31/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
CHW	The metered values appear to be faulty.	8/6/2016 – Ongoing

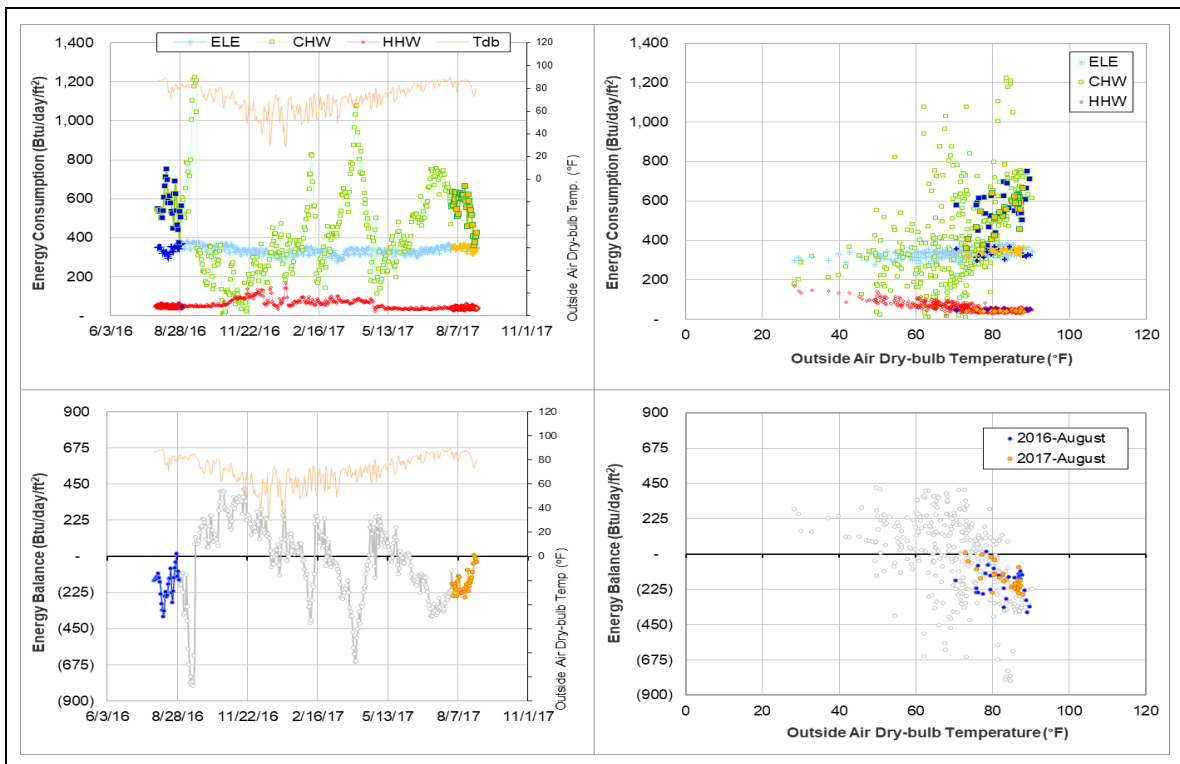

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
CHW	003851	8/6/2016 – Ongoing	Supply Temperature	Faulty

### Quantitative descriptions and comments

The CHW supply temp readings for this building started to decrease on 8/6/2016 while all adjacent buildings have stable supply temperature at around 42°F. The supply temperature had a period of obviously erroneous values of 20°F during 9/10 – 9/20/2016, and then increased to 45°F range. The explanatory figure below shows the supply temperature for Bldg. #467 and the surrounding Bldgs. #462, #449, and #463. The temperature sensor for Bldg. #467 shows to be almost two degrees higher than its neighboring buildings. The CHW consumption was estimated for this period by model.

### Explanatory Figure: 13 months energy balance plot with original data

## Evans Library (TAMU Bldg #468)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
HHW	005303	31	8/1/2017 – 8/31/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
HHW	The consumption level is lower than the level during the past year.	7/15/2017 – 8/7/2017
HHW	The consumption level has increased suddenly.	8/8/2017 – Ongoing

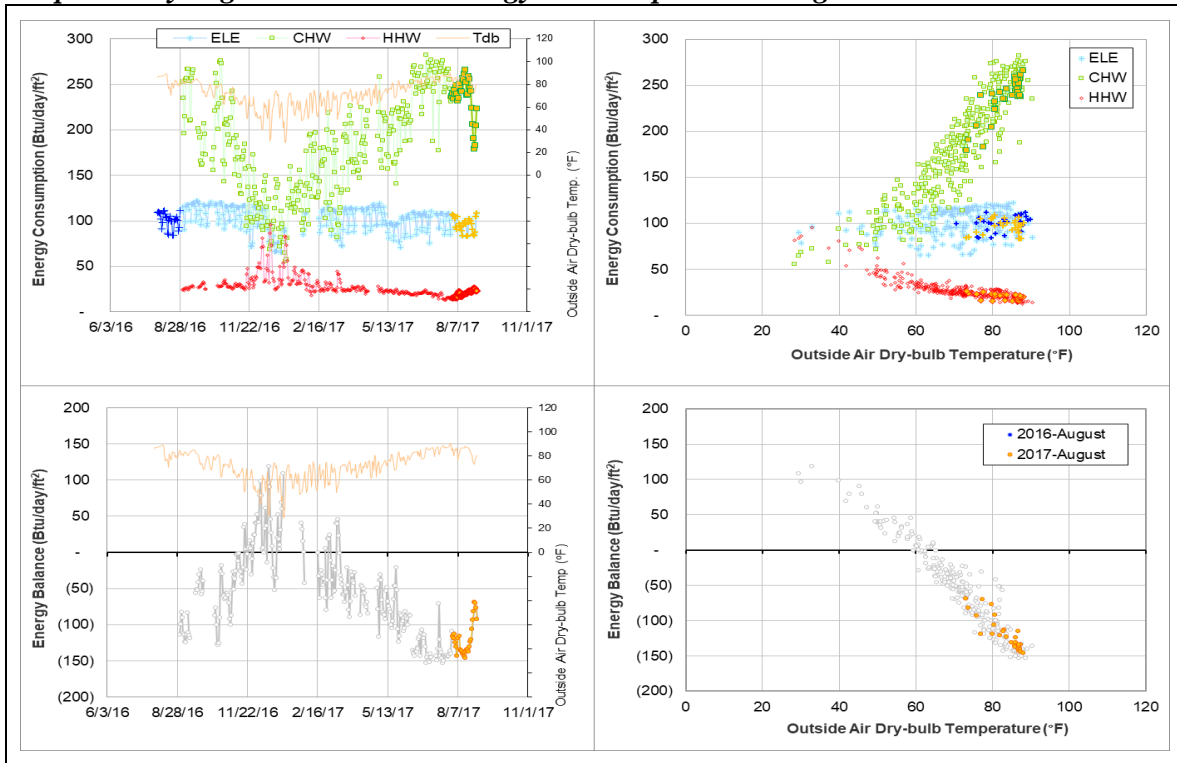

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
HHW	005303	7/15/2017 – 8/7/2017	Flow rate	Decreased to zero
		7/15/2017 – 8/7/2017	Delta-T	Decreased to zero
		8/8/2017 – Ongoing	Flow rate	Increased

### Quantitative descriptions and comments

Evans Library has five HHW meters. HHW meter #005303 experienced a decrease in flow rate and Delta-T from 7/15/2017 – 8/7/2017. On 8/8/2017, the flow rate and Delta-T returned, however the flow rate is at an increased level causing the consumed energy to be up to four times larger than the normal pattern (an overall increase of 3-4 mmBtu/day/ft<sup>2</sup>). The HHW consumption for this meter was estimated by model for these periods.

### Explanatory Figure: 13 months energy balance plot with original data

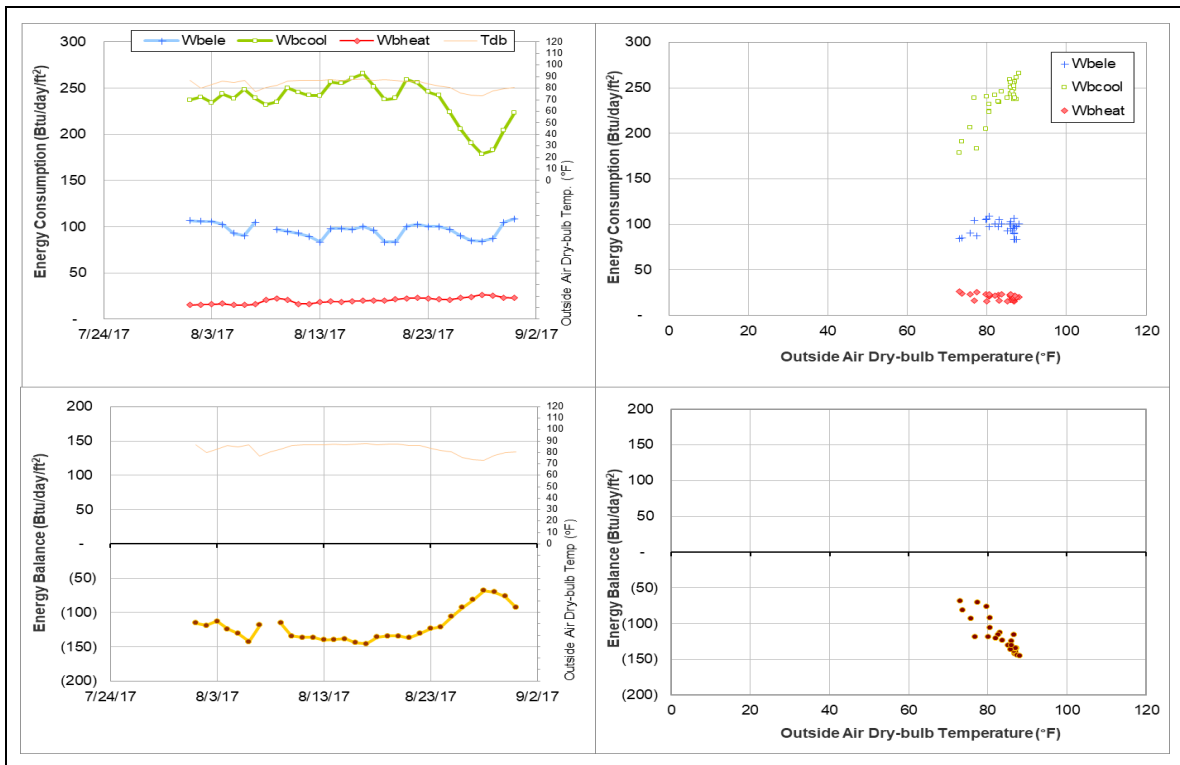

**Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office (HHW meter during August 2017)**

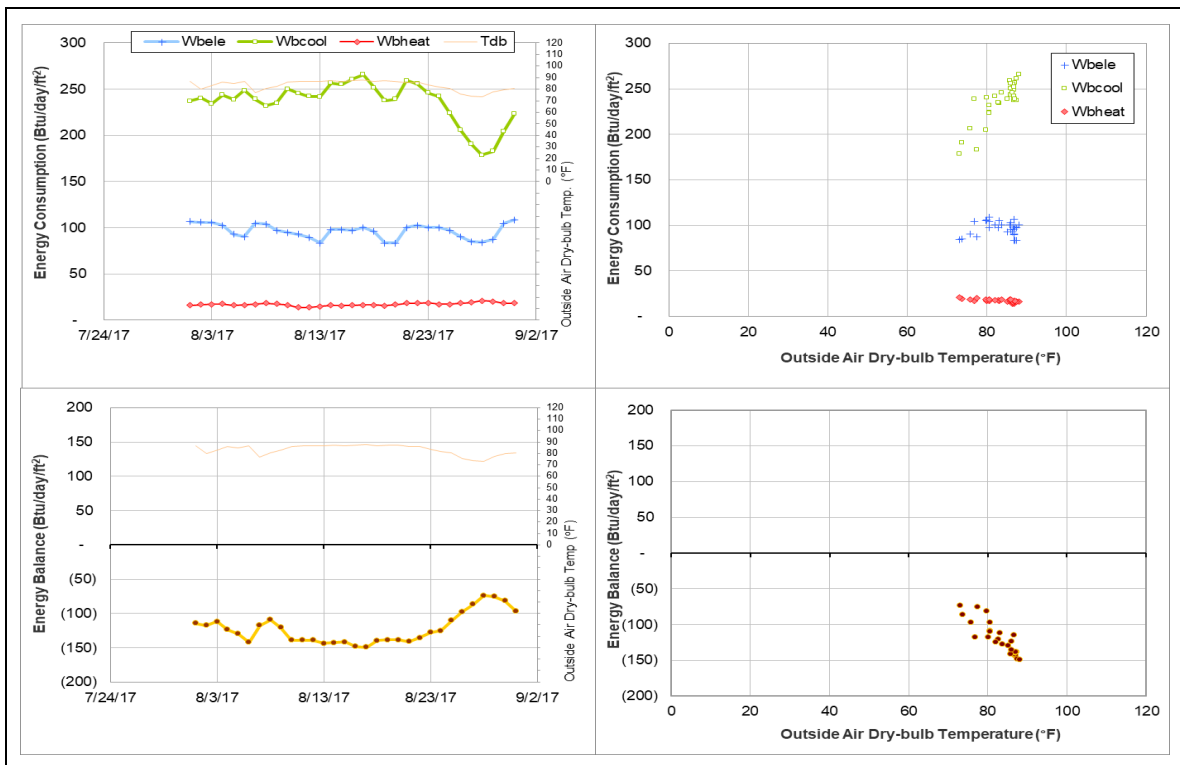

**Explanatory Figure: Scatter plot of HHW meter #005303 mmBtu/day versus outside air temperature.**

*Energy balance plot using the estimated data for the month of analysis*

## YMCA Building - West (TAMU Bldg #474)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
HHW	007526	31	8/1/2017 – 8/31/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
HHW	The consumption level has decreased suddenly.	7/26/2017 – Ongoing

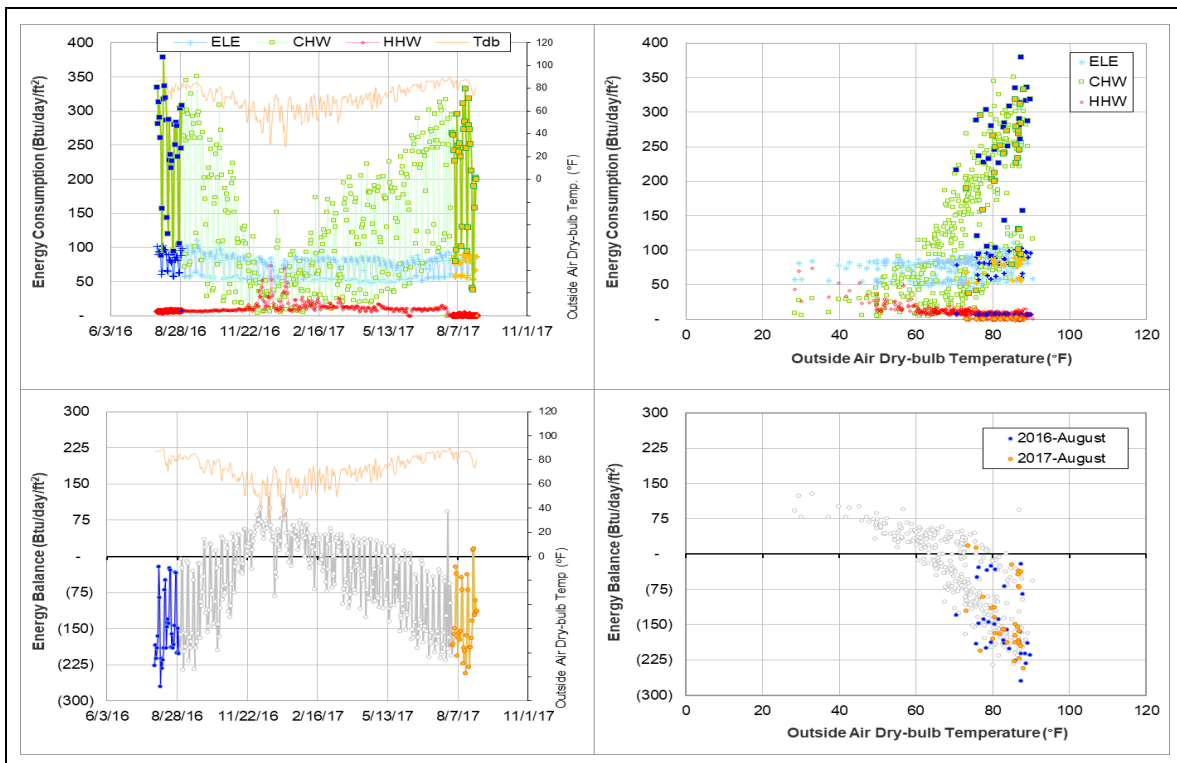

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
HHW	007526	7/27/2017 – Ongoing	Delta-T	Decreased to near zero and negative

### Quantitative descriptions and comments

The HHW consumption pattern is zero or near zero for the month. The flow rate is at a similar range as previous months, but the Delta-T appears to be zero or near zero with occasionally turning negative since end of July 2017. The HHW consumption for the month was estimated by model.

### Explanatory Figure: 13 months energy balance plot with original data

***Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office (HHW meter during August 2017)***

*Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any.*

## Halbouty Geosciences Building (TAMU Bldg # 490)

### *Estimated data*

Energy Type	Meter ID	Number of Days	Period	Estimation Method
CHW	006896	28	8/1/2017 – 8/28/2017	Model
HHW	006917	10	8/1/2017 – 8/10/2017	Model

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
CHW	The consumption level has increased suddenly.	7/14/2017 – 8/28/2017
HHW	The consumption level has decreased suddenly.	5/27/2017 – 8/10/2017

### *Changes in sensor readings related to the detected issues*

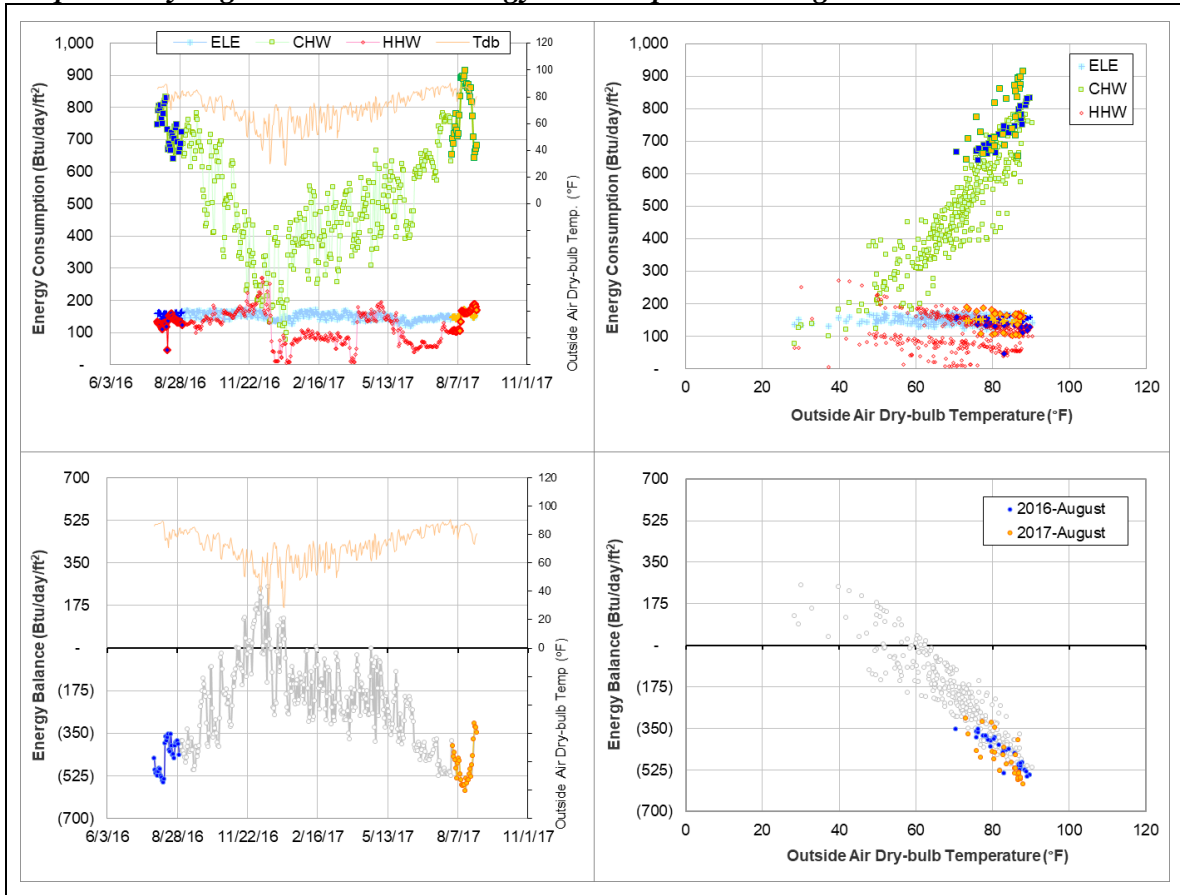

Energy Type	Meter ID	Period	Type	Description
CHW	006896	7/14/2017 – 8/28/2017	Flow rate	Increased
HHW	006917	6/15/2017 – 8/10/2017	Flow rate	Decreased to zero

### *Quantitative descriptions and comments*

The CHW consumption pattern increased by 100 Btu/day/ft<sup>2</sup> starting 7/14/2017. The flow rate increased from 400 - 480 gpm to 500 - 600 gpm around this time as well. On 8/28/2017, the flow rate decreased. The CHW consumption was estimated for this meter by model.

There are two HHW meters for this building. HHW meter #006917 experienced a decrease to near zero Delta-T for the period 5/30/2017 – 6/15/2017 and then a decrease in flow rate to zero or near zero for the period 6/15/2017 – 7/31/2017. On 8/11/2017, the flow rate returned. The HHW consumption was estimated for this meter by model.

**Explanatory Figure: 13 months energy balance plot with original data**

***Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office (CHW meter #006896 during August 2017)***

*Energy balance plot using the estimated data for the month of analysis*

## Nagle Hall (TAMU Bldg #506)

### *Estimated data*

Energy Type	Meter ID	Number of Days	Period	Estimation Method
ELE	001484	31	8/1/2017 – 8/31/2017	Model
CHW	003619	16	8/2/2017 – 8/17/2017	Model
HHW	003623	16	8/2/2017 – 8/17/2017	Model

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
ELE	The consumption level is decreasing gradually.	6/18/2017 – Ongoing
CHW	The consumption dropped for a short period.	8/2/2017 – 8/17/2017
HHW	The consumption dropped for a short period.	8/2/2017 – 8/17/2017

### *Changes in sensor readings related to the detected issues*

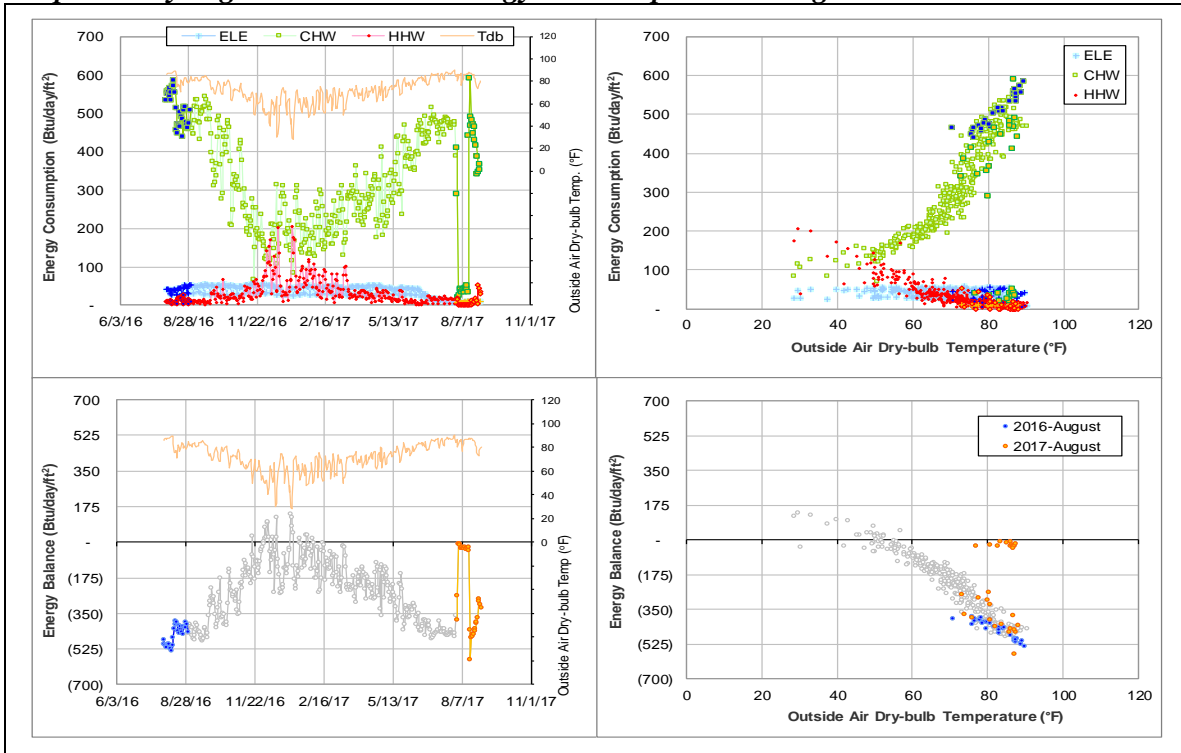

Energy Type	Meter ID	Period	Type	Description
CHW	003619	8/2/2017 – 8/17/2017	Flow Rate	Low
			Return Temp	Low
HHW	003623	8/2/2017 – 8/17/2017	Flow Rate	Zero
			Supply Temp, Return Temp	Approaching room temp

### *Quantitative descriptions and comments*

ELE consumption of this building has been as low as 50 Btu/day/ft<sup>2</sup> and decreased to an even lower level near 15 Btu/day/ft<sup>2</sup> in June 2017 and remained low. Consumption of the whole month is estimated by model.

CHW and HHW of this buildings seem to have been closed during 8/2/2017 – 8/17/2017. CHW had very low flow rate and small Delta-T during this period. HHW had zero flow rate and both temperatures approached room temperature. This is not suspected to be a metering problem. This period is estimated by model.

**Explanatory Figure: 13 months energy balance plot with original data.**

**Explanatory Figure: Time series plots of hourly energy consumption. (ELE during June 2017)**

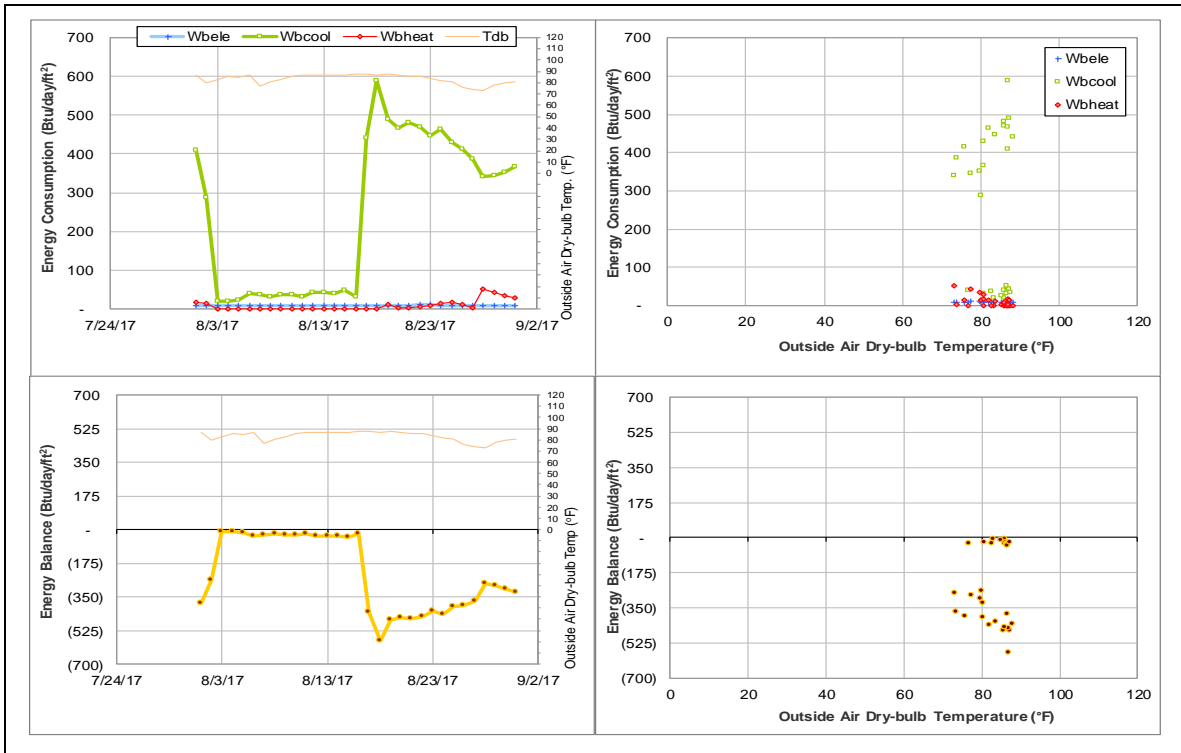

*Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (CHW during August 2017)*

*Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (HHW during August 2017)*

*Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any.*

*Energy balance plot using the estimated data for the month of analysis*

## Heep Laboratory Building (TAMU Bldg #511)

### *Estimated data*

Energy Type	Meter ID	Number of Days	Period	Estimation Method
CHW	005821	31	8/1/2017 – 8/31/2017	Model
HHW	005825	31	8/1/2017 – 8/31/2017	Model

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
CHW	The metered values appear to be faulty.	4/1/2017 – Ongoing
HHW	The consumption level has decreased suddenly.	5/8/2017 – Ongoing

### *Changes in sensor readings related to the detected issues*

Energy Type	Meter ID	Period	Type	Description
CHW	005821	4/1/2017 – Ongoing	Supply Temp	Faulty – drifted
HHW	005825	5/8/2017 – Ongoing	Flow rate	Fluctuates
			Return temp	High
		7/19/2017 – Ongoing	Supply temp	High

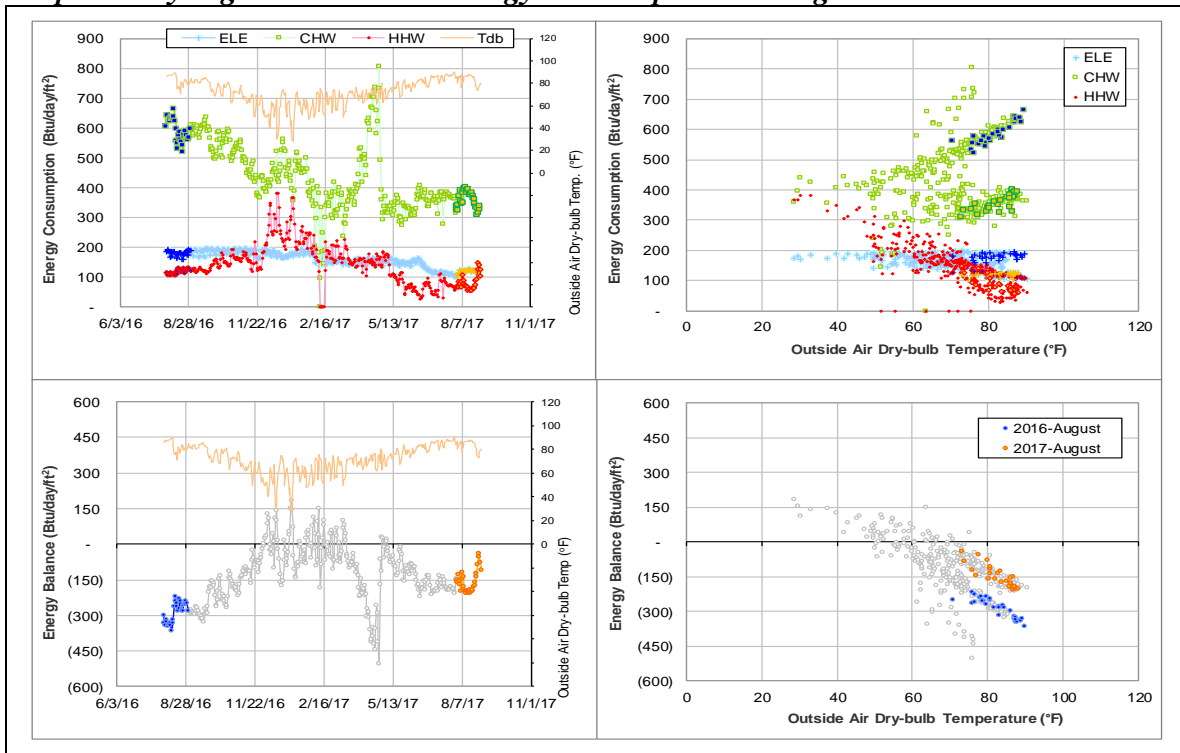

### *Quantitative descriptions and comments*

The CHW supply temp sensor appears to be faulty. The supply temp readings started to drift in the end of March 2017 and decreased to 35°F during April 2017. On 4/27/2017, the supply temp value jumped to 44°F. By comparing this value with the two hydrologically closest buildings #0471 Pavilion and #0444 Peterson, it is suspected that this meter is still under-calibrated (See the explanatory figure). This is also supported by the fact that CHW consumption decreased by 250 Btu/day/ft<sup>2</sup> (40%) compared to the level of the last year. The CHW of the whole month is estimated by model.

The HHW flow sharply dropped on 5/8/2017 from 20 – 25 gpm to 10 – 15 gpm, resulting in a significant decrease in HHW consumption. This decrease did not occur in the previous year but is suspected to be a plant setback. The meter readings started to fluctuate since 7/10/2017. The flow reading had a sudden increase and Delta-T decreased as the return temperature became higher. The combined effect is a slight increase in consumption, but the level is still lower than the level before 5/8/2017. There is also an increase in supply temperature which is suspected to be due to the plant operation. The HHW of this month is estimated by model.

See also II-3.

## Doherty Building (TAMU Bldg #513)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
CHW	002898	31	8/1/2017 – 8/31/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
CHW	The consumption level is lower than the level during the past year.	7/1/2017 – Ongoing

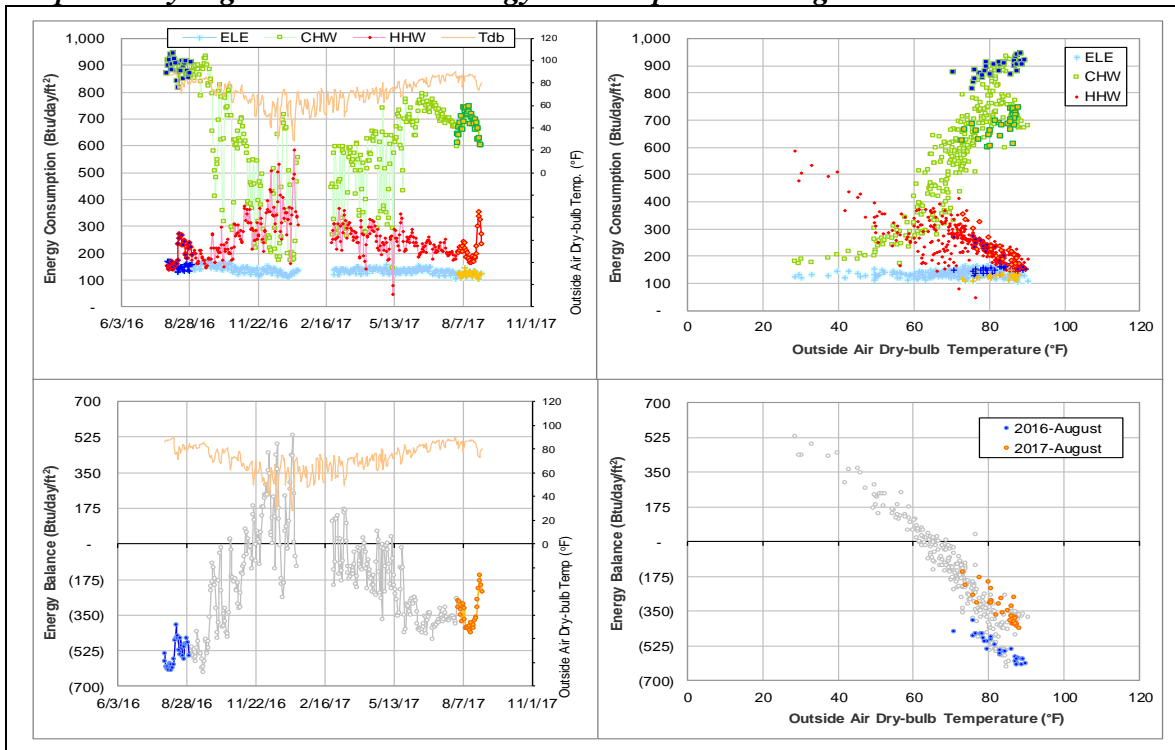

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
CHW	002898	7/1/2017 – Ongoing	Flow rate	Decreasing gradually

### Quantitative descriptions and comments

CHW flow rate started to slide down slowly since 7/1/2017 from 300 – 340 gpm at the beginning of the July 2017 to 240 – 280 gpm at the end of August 2017. The consumption level is seen about 200 Btu/day-ft<sup>2</sup> lower than the previous year. The whole month is estimated by model.

### Explanatory Figure: 13 months energy balance plot with original data.

*Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (CHW during July 2017)*

*Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (CHW during August 2017)*

## Computing Services Center (TAMU Bldg #516)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
CHW	003959	31	8/1/2017 – 8/31/2017	Average

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
CHW	The consumption level has increased suddenly.	6/19/2017 – Ongoing

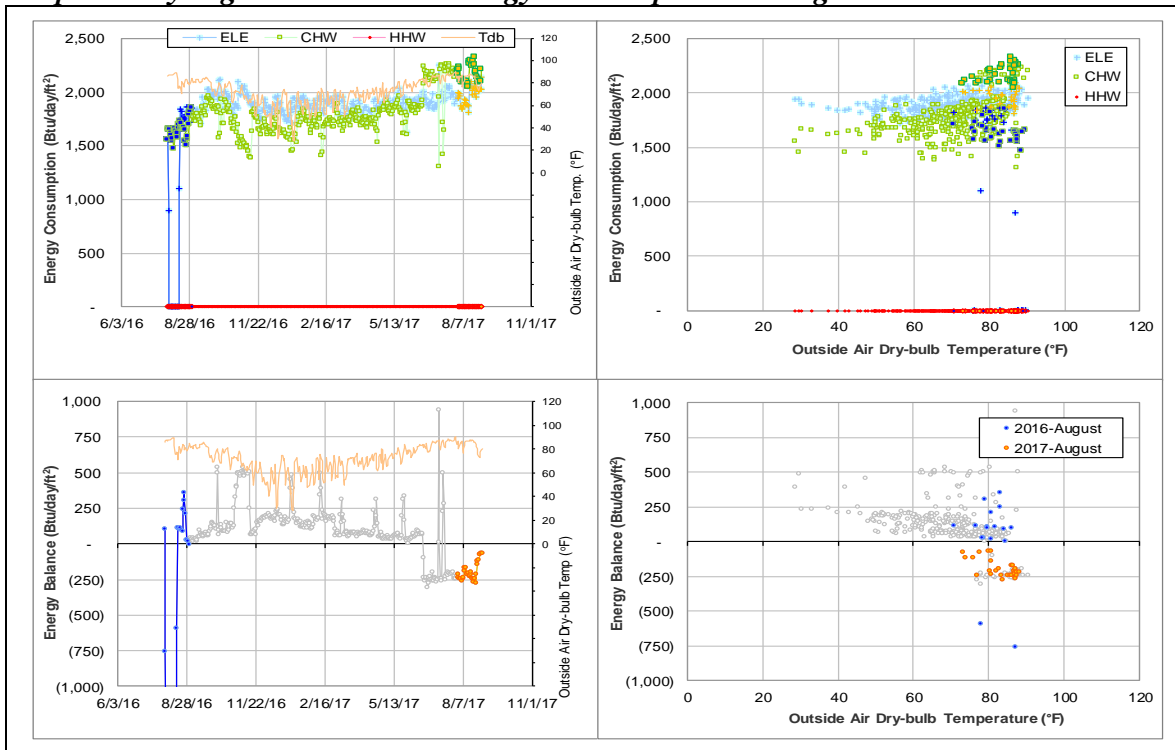

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
CHW	003959	6/19/2017 – Ongoing	Flow rate	High

### Quantitative descriptions and comments

CHW flow rate increased from the range of 400 – 520 gpm to 480 – 560 gpm since 6/19/2017 resulting in a significant increase in CHW consumption. As CHW consumption of this building has only weak dependence on temperature, the estimation is made by taking average over the 6/1/2016 – 5/31/2017 when the consumption was stable and mostly independent of outdoor air temperature.

### Explanatory Figure: 13 months energy balance plot with original data.

*Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (CHW during June 2017)*

*Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (CHW during August 2017)*

*Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any.*

*Energy balance plot using the estimated data for the month of analysis*

## Beutel Health Center (TAMU Bldg #520)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
CHW	003933	31	8/1/2017 – 8/31/2017	Model

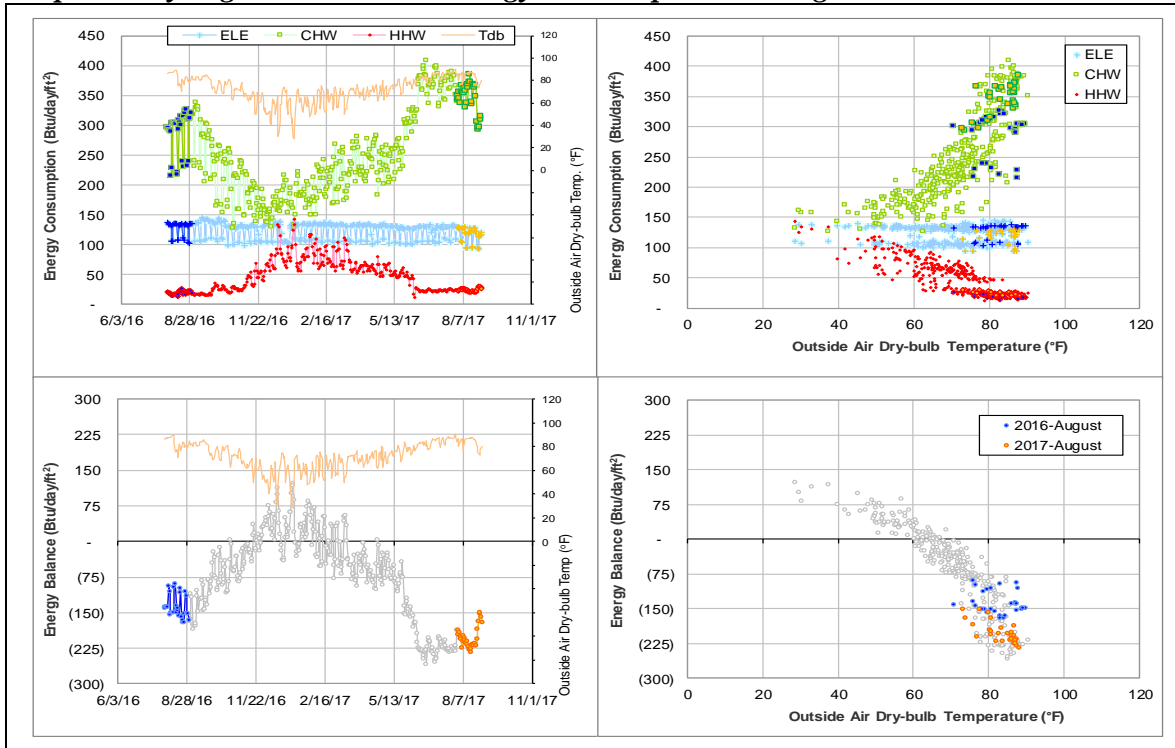

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
CHW	The consumption level is higher than the level during the past year.	6/1/2017 – Ongoing

### Quantitative descriptions and comments

CHW consumption increased to 50 – 100 Btu/day-ft<sup>2</sup> higher than the previous year in June 2017 and stayed high. The consumption pattern of CHW no longer has a weekday/weekend difference. There is no obvious meter reading anomaly observed. The consumption of this month is estimated by model.

### Explanatory Figure: 13 months energy balance plot with original data.

*Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any.*

*Energy balance plot using the estimated data for the month of analysis*

## Haas Residence Hall (TAMU Bldg #549)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
CHW	002983	31	8/1/2017 – 8/31/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
CHW	The consumption level is higher than the level during the past year. Scattering data are observed.	7/22/2017 – Ongoing

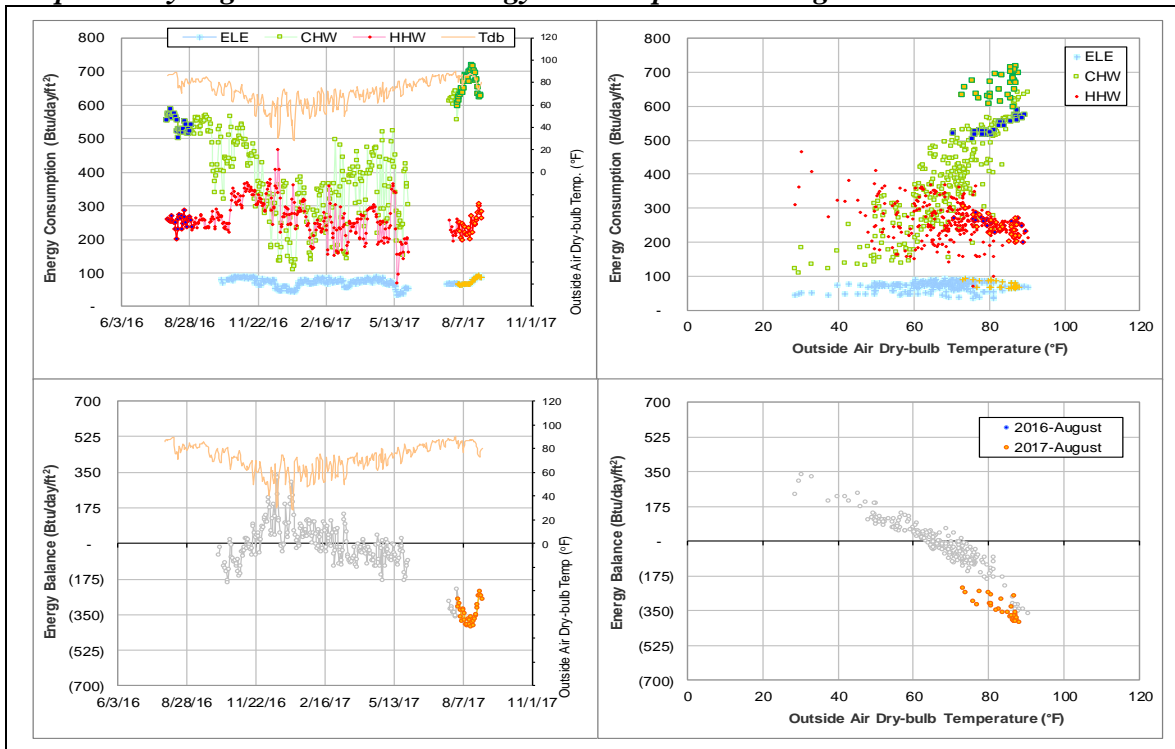

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
CHW	002983	7/22/2017 – Ongoing	Delta-T	Higher

### Quantitative descriptions and comments

The data of this building were missing during 6/1/2017 – 7/21/2017. After the missing period, Delta-T of CHW became larger and the CHW seems to scatter in the recent period. However, the flow rate becomes more stable compared. This consumption of this month is estimated by model.

### Explanatory Figure: 13 months energy balance plot with original data.

*Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (CHW during May 2017)*

*Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (CHW during August 2017)*

*Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any.*

*Energy balance plot using the estimated data for the month of analysis*

## McFadden Residence Hall (TAMU Bldg #550)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
CHW	002188	4	8/1/2017 – 8/4/2017	Model
HHW	002192	4	8/1/2017 – 8/4/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
CHW	The consumption dropped for a short period.	7/31/2017 – 8/4/2017
HHW	The consumption dropped for a short period.	7/31/2017 – 8/4/2017

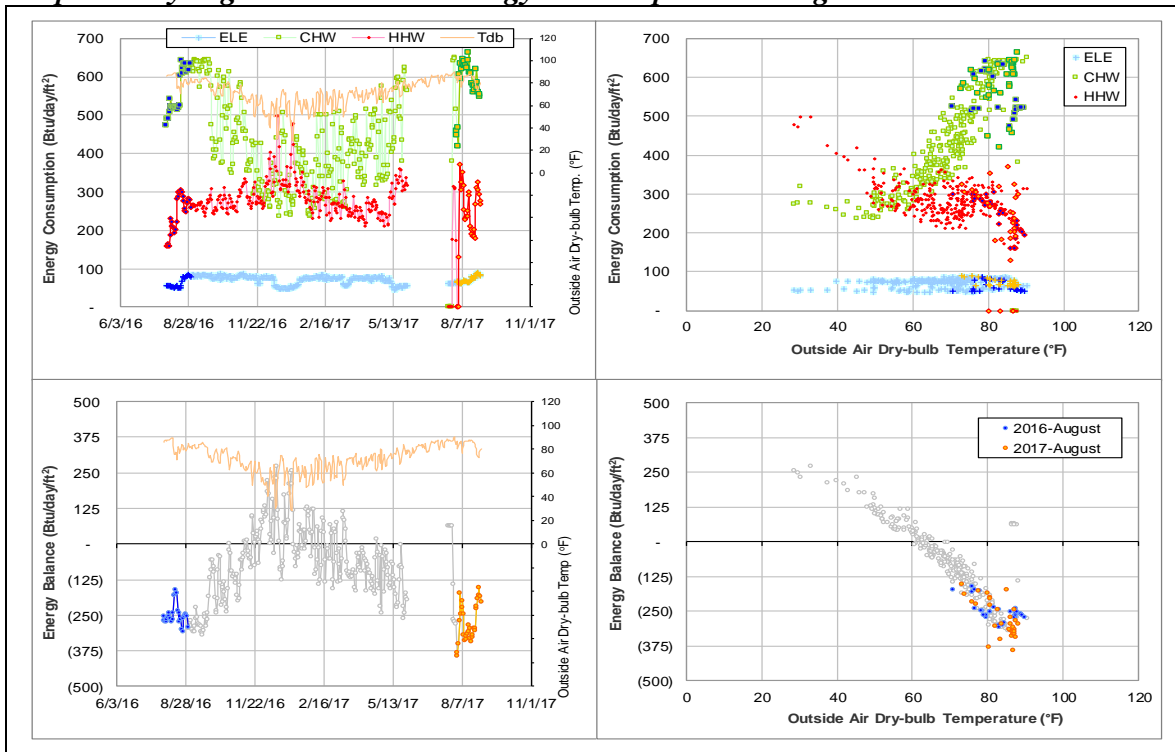

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
CHW	002188	7/31/2017 – 8/4/2017	Return temp	Low
HHW	002192	7/31/2017 – 8/4/2017	Flow rate	Zero

### Quantitative descriptions and comments

CHW return temperature dropped slightly during 7/31/2017 – 8/4/2017 resulting in a decrease of CHW consumption. HHW flow rate dropped to zero during 7/31/2017 – 8/4/2017. This period is estimated by model.

### Explanatory Figure: 13 months energy balance plot with original data.

## Neeley Residence Hall (TAMU Bldg #652)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
CHW	002147	3	8/1/2017 – 8/3/2017	Model
HHW	002151	15	8/1/2017 – 8/3/2017 8/20/2017 – 8/31/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
CHW	The consumption dropped for a short period.	7/29/2017 – 8/3/2017
HHW	The consumption dropped for a short period.	7/29/2017 – 8/3/2017

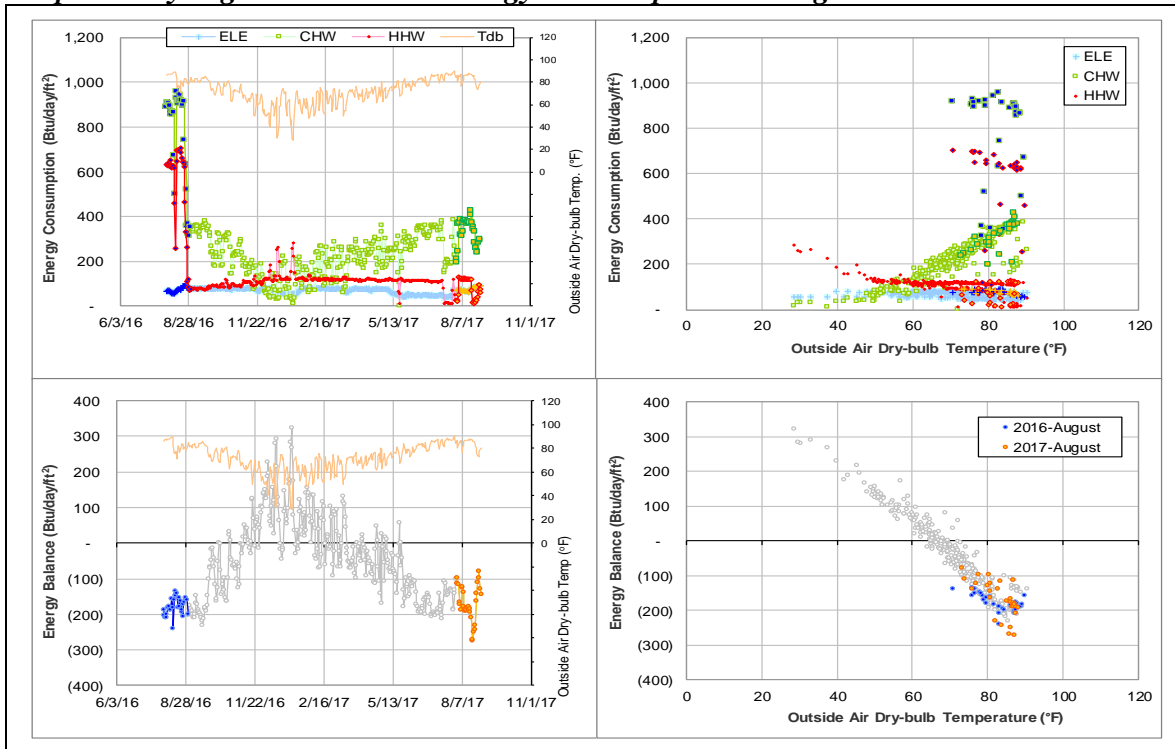

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
CHW	002147	7/29/2017 – 8/3/2017	Flow rate	Low
HHW	002151	7/29/2017 – 8/3/2017 8/20/2017 – Ongoing	Flow rate	Low

### Quantitative descriptions and comments

CHW flow rate dropped from its normal rate of 100 – 130 gpm to 50 – 80 gpm during 7/29/2017 – 8/3/2017. HHW flow rate dropped from its normal rate of 22 – 27 gpm to 2 – 8 gpm during 7/29/2017 – 8/3/2017 and since 8/20/2017. These days are estimated by model.

## Physical Plant Administration & Shops (TAMU Bldg #1156)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
HHW	007683	7	8/1/2017 – 8/4/2017 8/13/2017 – 8/15/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
HHW	The consumption dropped for a short period.	7/30/2017 – 8/4/2017 8/13/2017 – 8/15/2017

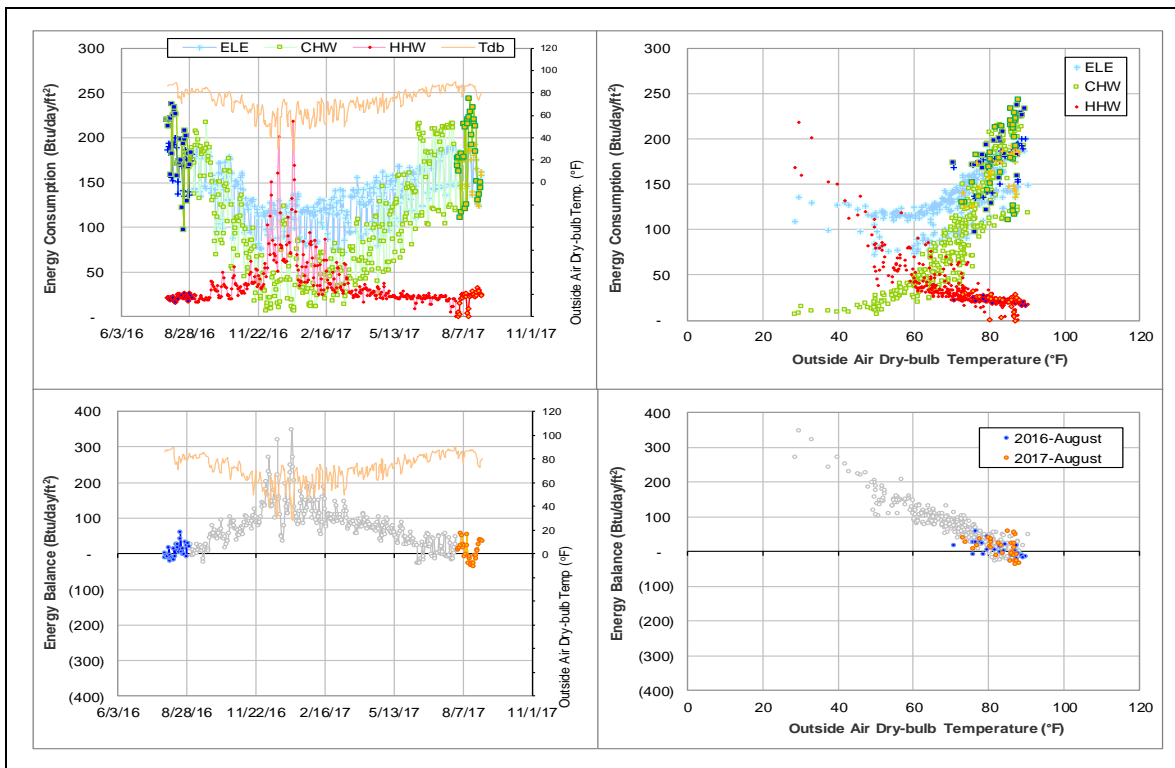

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
HHW	007683	7/30/2017 – 8/4/2017 8/13/2017 – 8/15/2017	Flow rate	Low

### Quantitative descriptions and comments

HHW flow rate decreased suddenly to near zero during 7/31/2017 – 8/4/2017 and during 8/13/2017 – 8/15/2017. These periods are estimated by model.

### Explanatory Figure: 13 months energy balance plot with original data

## Kleberg Center (TAMU Bldg #1501)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
HHW	002628	31	8/1/2017 – 8/31/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
HHW	The consumption level is decreasing gradually. The consumption level is lower than the level during the past year.	7/12/2017 – Ongoing

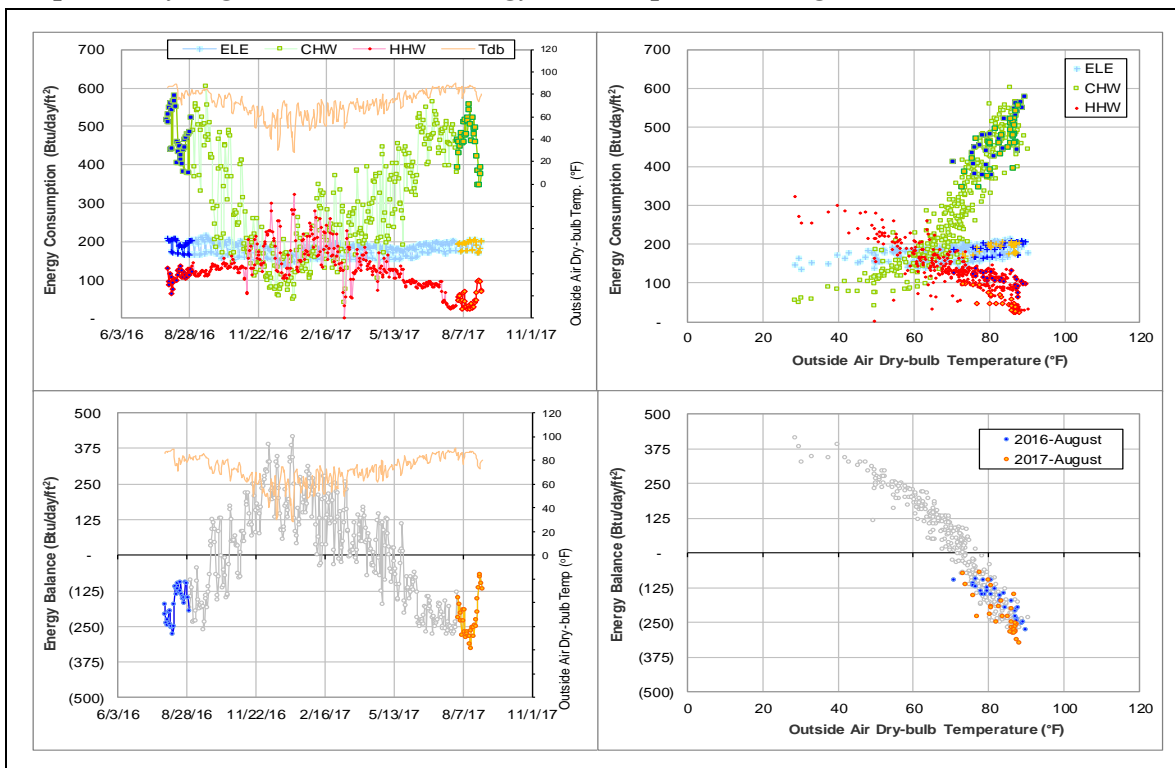

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
HHW	002628	7/12/2017 – Ongoing	Flow rate	Low

### Quantitative descriptions and comments

HHW flow rate decreased from about 80 gpm to 60 – 80 gpm since 7/12/2017. This period is estimated by model.

### Explanatory Figure: 13 months energy balance plot with original data

***Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (HHW during July 2017)***

## Horticulture-Forest Science Building (TAMU Bldg #1506)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
CHW	003967	31	8/1/2017 – 8/31/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
CHW	The consumption level has decreased suddenly.	7/12/2017 – Ongoing

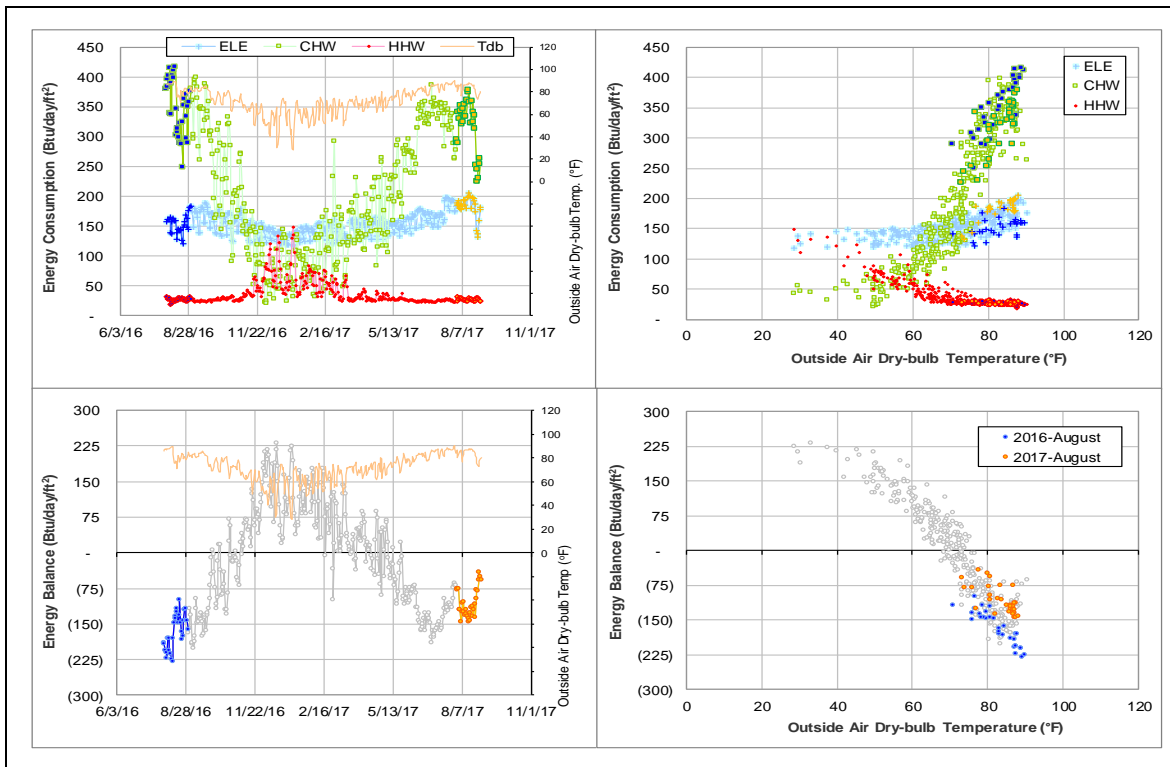

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
CHW	003967	7/12/2017 – Ongoing	Flow rate	Low

### Quantitative descriptions and comments

CHW flow rate dropped from 450 – 500 gpm to 350 – 450 gpm since 7/12/2017, resulting in the consumption falling out of the main pattern. This period is estimated by model.

### Explanatory Figure: 13 months energy balance plot with original data.

***Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (CHW during July 2017)***

## Southern Crop Improvement Greenhouse (TAMU Bldg #1512)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
ELE	005931	31	8/1/2017 – 8/31/2017	Model

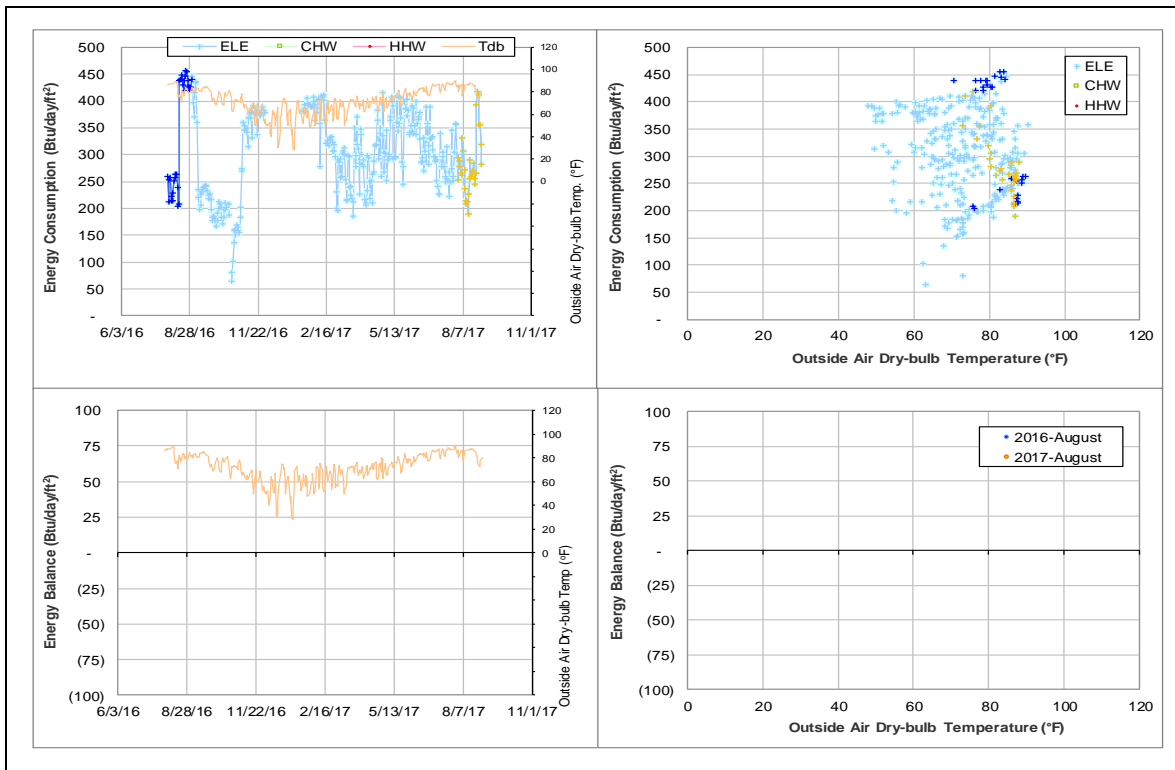

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
ELE	The ELE consumption increased.	1/19/2017 – Ongoing

### Quantitative descriptions and comments

The ELE consumption level has changed frequently since July 2015 as shown in the time series. During the period of 1/22/2017 – 2/15/2017 it increased to the higher consumption pattern but then dropped again. The ELE consumption is estimated using a model based on data during 7/1/2014 – 6/30/2015 when the consumption was stable.

### Explanatory Figure: 13 months energy balance plot with original data

*Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any.*

*Energy balance plot using the estimated data for the month of analysis.*

## TX School of Rural Public Health (TAMU Bldg # 1518, 1519, 1520)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
ELE	005274	31	8/1/2017 – 8/31/2017	Switch with 005275
ELE	005275	31	8/1/2017 – 8/31/2017	Switch with 005274

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
ELE (005274)	The consumption level increased largely.	8/14/2015 - ongoing
ELE (005275)	The consumption level decreased largely.	8/14/2015 - ongoing

### Comments

ELE meter ID# 005274 serves TX School of Rural Public Health B and ELE meter ID# 005275 is for TX School of Rural Public Health C.

The ELE consumption levels for these two meters had a sudden change on 8/14/2015. The consumption level for meter ID# 005274 increased by approximate 80 kWh/h (~ 100%) and the consumption level for meter ID# 005275 decreased by around 80 kWh/h (~50%). The change observed on 8/14/2015 12:00 AM (see below explanatory figure) suggests that the two meters were switched and may need to be investigated.

### Explanatory Figure: The time series plot of hourly electricity consumption for two ELE meters #005274 and# 005275

## AgriLife Services Building (TAMU Bldg #1536)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
HHW	007573	31	8/1/2017 – 8/31/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
HHW	The consumption level has increased suddenly.	7/17/2017 – Ongoing

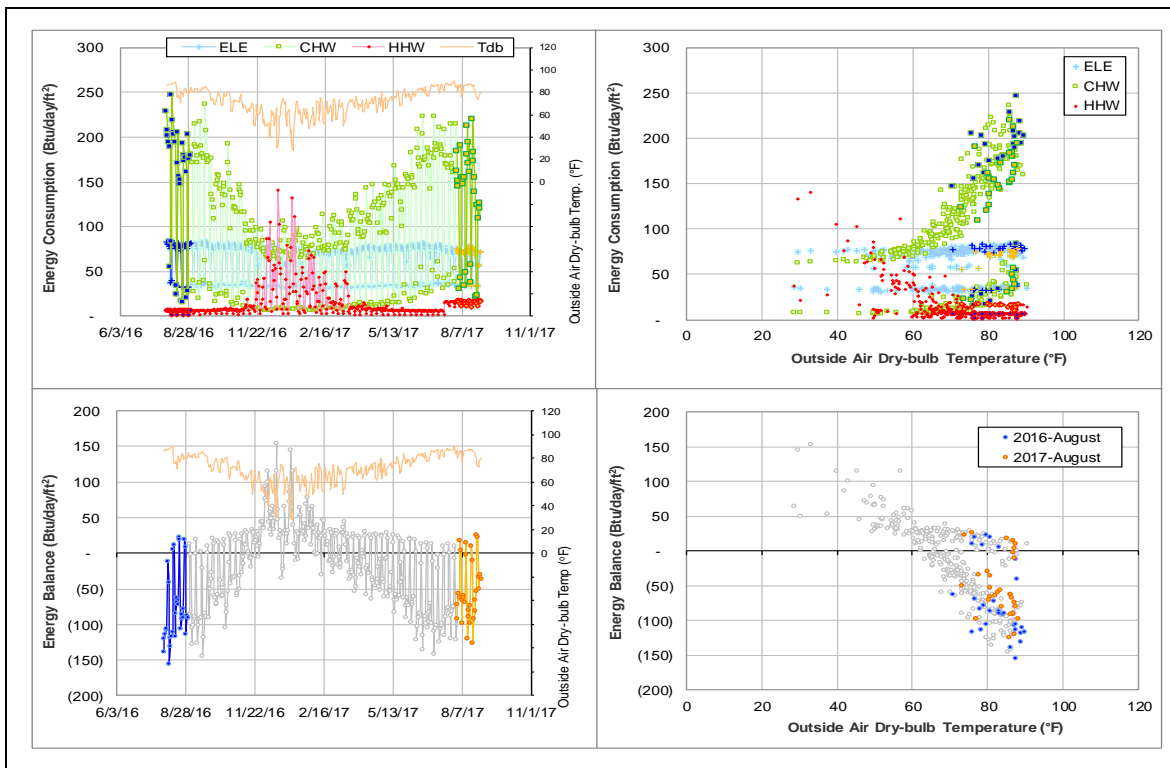

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
HHW	007573	7/17/2017 – Ongoing	Flow rate	Increase
			Delta-T	Decrease

### Quantitative descriptions and comments

On 7/17/2017, The flow of HHW suddenly increased from a near zero level to slightly higher than 40 gpm. Delta-T significantly decreased at the same time. The combined effect is a sudden increase of HHW consumption. These days are estimated by model.

### Explanatory Figure: 13 months energy balance plot with original data.

## West Campus Parking Garage (TAMU Bldg #1559)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
HHW	004327	6	8/1/2017 – 8/6/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
HHW	The consumption level is increasing gradually.	6/30/2017 – 8/6/2017

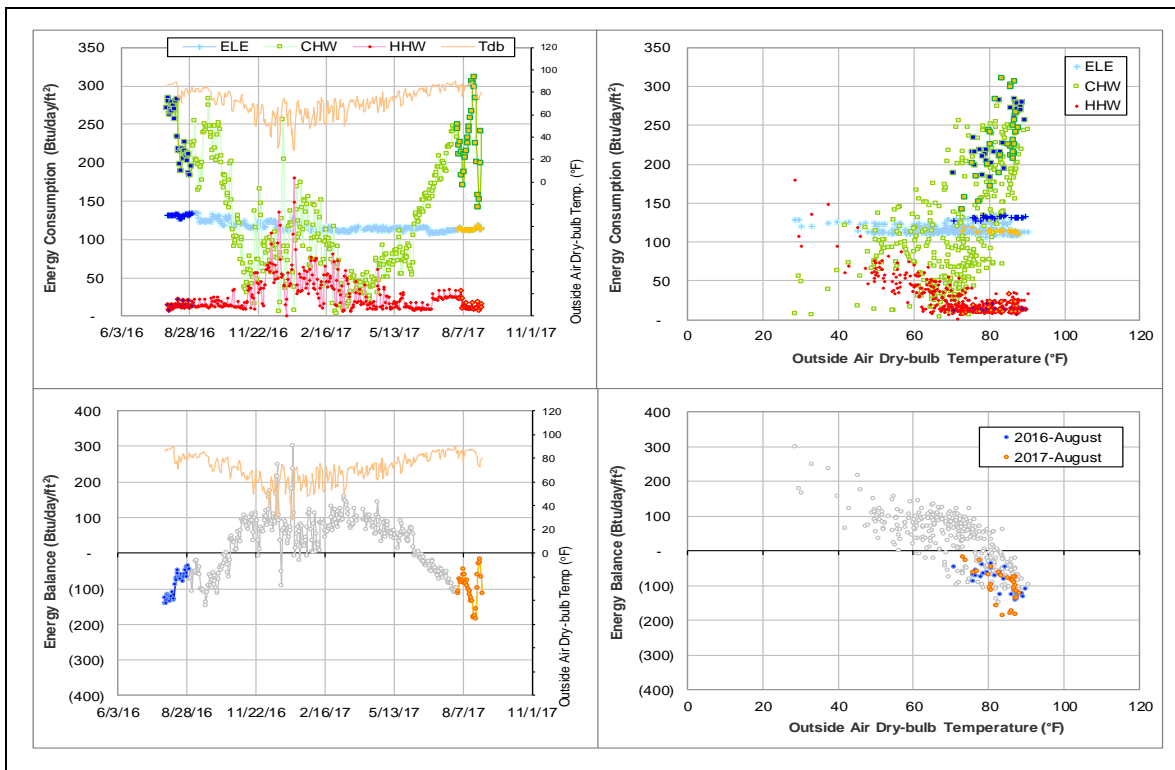

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
HHW	004327	6/30/2017 – 8/6/2017	Flow rate	high

### Quantitative descriptions and comments

HHW flow rate significantly increased from 2 – 6 gpm to about 18 gpm during 6/30/2017 – 8/6/2017. The consumption of this month is estimated using a model based on the data of 6/1/2015 – 5/31/2016.

### Explanatory Figure: 13 months energy balance plot with original data

***Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (HHW during June 2017)***

***Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (HHW during August 2017)***

## George Bush Presidential Library & Museum (TAMU Bldg #1606)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
HHW	002812	31	8/1/2017 – 8/31/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
HHW	The consumption level has increased suddenly.	6/8/2017 – Ongoing

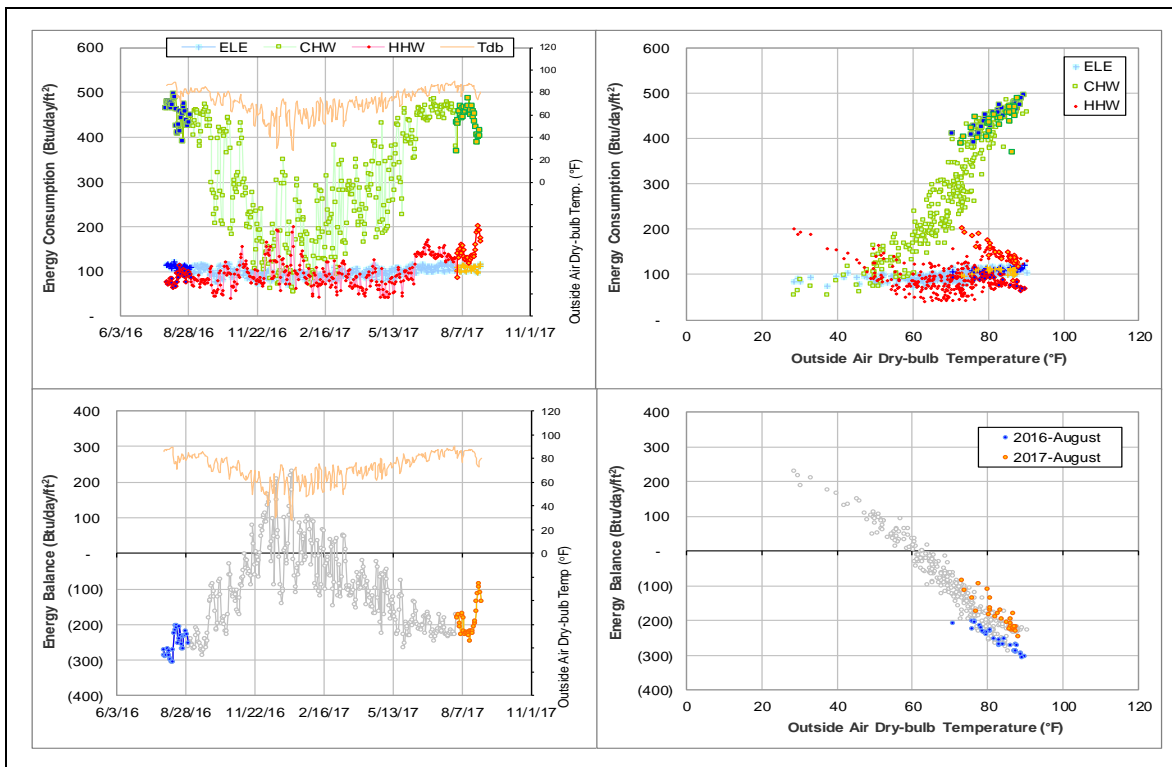

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
HHW	002812	6/8/2017 – Ongoing	Return temp	Low

### Quantitative descriptions and comments

Return temperature of HHW dropped on 6/8/2017. Delta-T thus increased from about 30°F to 40 – 50°F. As there is no significant change in flow rate, HHW consumption increased significantly. The whole month is estimated by model.

### Explanatory Figure: 13 months energy balance plot with original data.

*Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (HHW during June 2017)*

*Explanatory Figure: Time series plots of hourly energy consumption, flow rate, and supply and return temperatures from the utilities office. (HHW during August 2017)*

*Energy balance plot using the estimated data for the month of analysis.*

## New TVMDL (TAMU Bldg #1809)

### *Estimated data*

Energy Type	Meter ID	Number of Days	Period	Estimation Method
ELE	009652	31	8/1/2017 – 8/31/2017	Factor
ELE	009653	31	8/1/2017 – 8/31/2017	Factor

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
ELE	The metered values appear to be faulty.	8/1/2017 – 8/31/2017

### *Quantitative descriptions and comments*

The received ELE data have unnaturally large values. They fall back to a reasonable level when divided by 1,000.

*Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any.*

*Energy balance plot using the estimated data for the month of analysis.*

## Veterinary Medicine Building 1, 2, and 3 (TAMU Bldg #1812-1813-1814)

### *Estimated data*

Energy Type	Meter ID	Number of Days	Period	Estimation Method
ELE	009418	10	8/1/2017 – 8/10/2017	Model

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
ELE	The metered values appear to be faulty.	10/1/2016 – Ongoing

### *Quantitative descriptions and comments*

The electricity reading of MID 009418 for #1813 has been very low since the data became available in October 2016. The new data are at a much higher level this month after the reported fix to a wire problem. A weekday/weekend variation can be seen during this short period of data. However, as MID 009418 only makes up to 8.2% of the total ELE consumption for building group 1812-1813-1814, the total energy balance for the group does not show a significant difference. The data before 8/10/2017 is estimated.

### *Explanatory Figure*

*Energy balance plot using the original data for the month of analysis. Missing data have been filled in, if any.*

*Energy balance plot using the estimated data for the month of analysis.*

## Multi-Species Research Building (TAMU Bldg #1911)

### Estimated data

Energy Type	Meter ID	Number of Days	Period	Estimation Method
HHW	009133	31	8/1/2017 – 8/31/2017	Model

### Detected issues in the energy balance and/or the consumption data

Data Type	Description of data behaviors	Period
HHW	The consumption level has decreased suddenly.	7/13/2017 – Ongoing

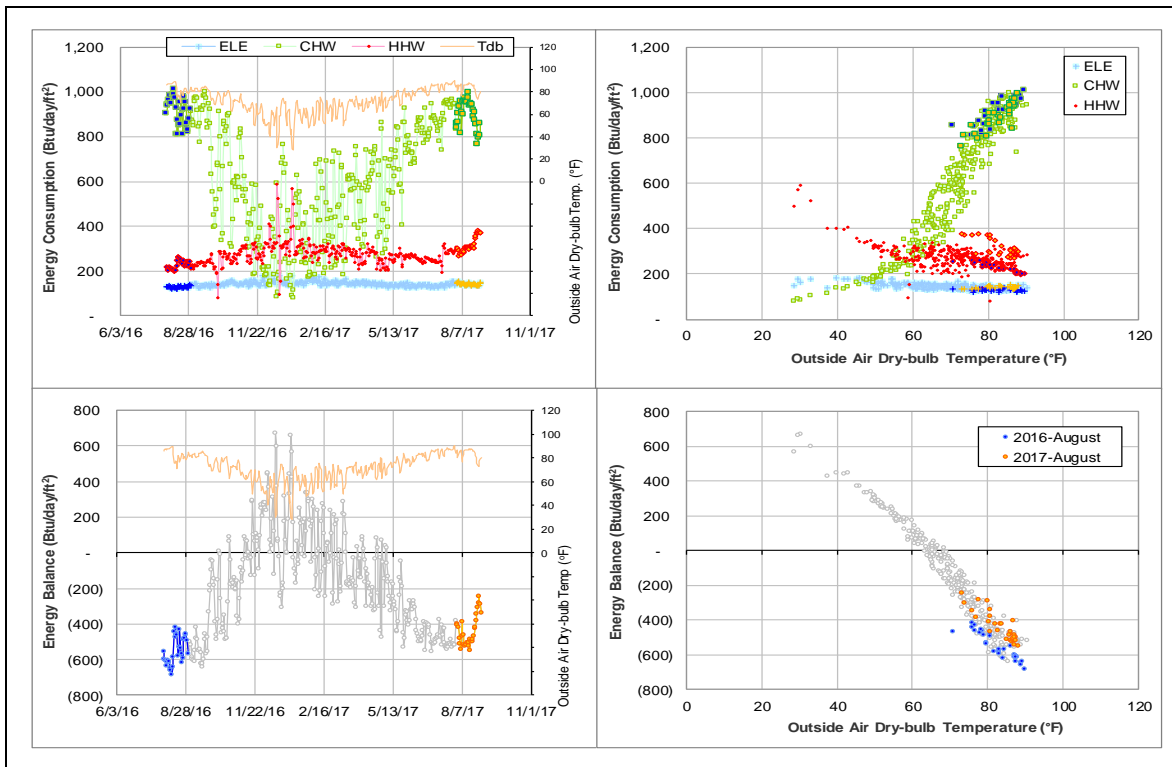

### Changes in sensor readings related to the detected issues

Energy Type	Meter ID	Period	Type	Description
HHW	009133	7/13/2017 – Ongoing	Return temp	Low

### Quantitative descriptions and comments

Return temperature of HHW decreased on 7/13/2017, resulting in a larger Delta-T and hence higher HHW consumption. The consumption is going further up in August 2017. This period is estimated by model.

### Explanatory Figure: 13 months energy balance plot with original data.

## II-3 Meters with Significant Issues in Energy Consumption Data

In this section, significant issues in the data behavior are described. On the contrary to the section II–2, alternative consumption is not estimated for some reasons: presence of continuous problems since the beginning of the data acquisition, unbalanced energy uses in the past data, changes in the consumption patterns without evidence of data problems, etc. Table II–3 gives a list of meters included in this section.

Table II-3 Meters with significant issues in the consumption data during August 2017

## Appelt Residence Hall (TAMU Bldg #293)

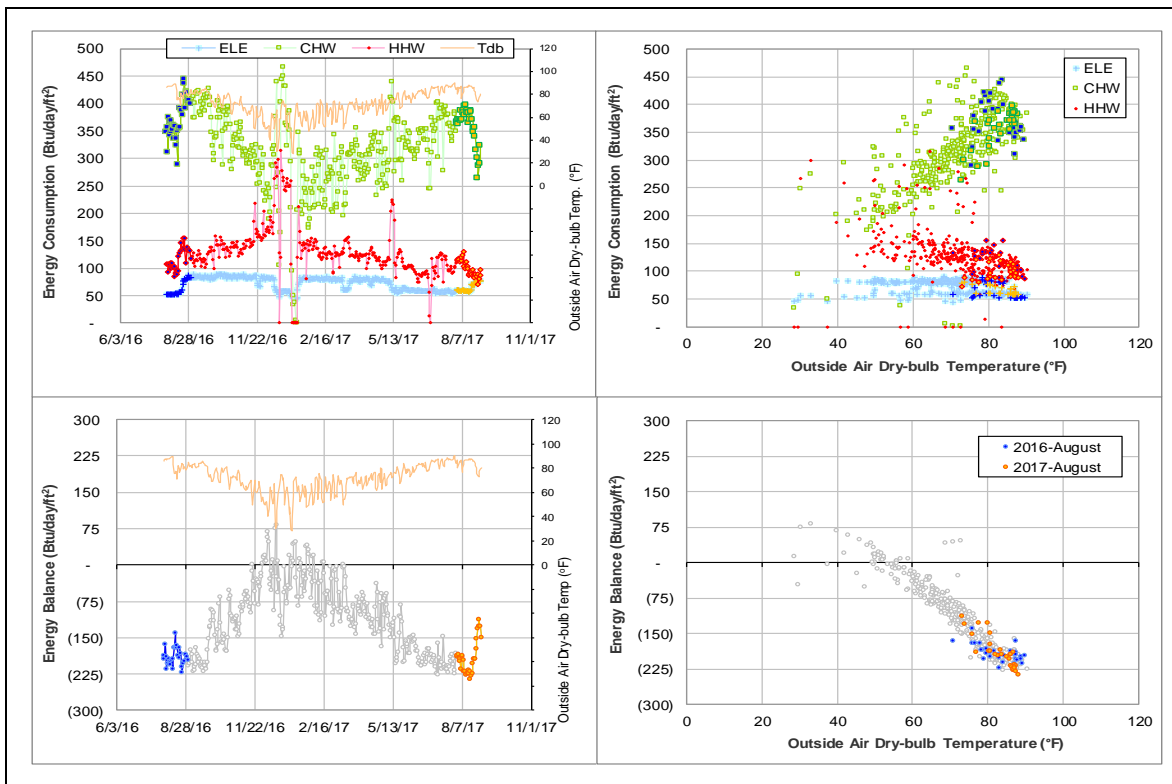

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
CHW and HHW	The consumption level changes frequently	Since December 2014
Energy Balance	The energy balance decreased and the cross-point temperature is around 55°F.	Since January 2015

### *Comments*

Both the CHW and HHW consumption levels have been unstable and changing frequently. The energy balance load was low with the cross-point temperature around 55°F. The low  $E_{BL}$  level suggests an imbalance of metered energy use in the building, but we are not able to determine the cause.

### *Explanatory Figure: 13 months energy balance plot with original data*

## CE TTI Office & Lab Building (TAMU Bldg #325-385)

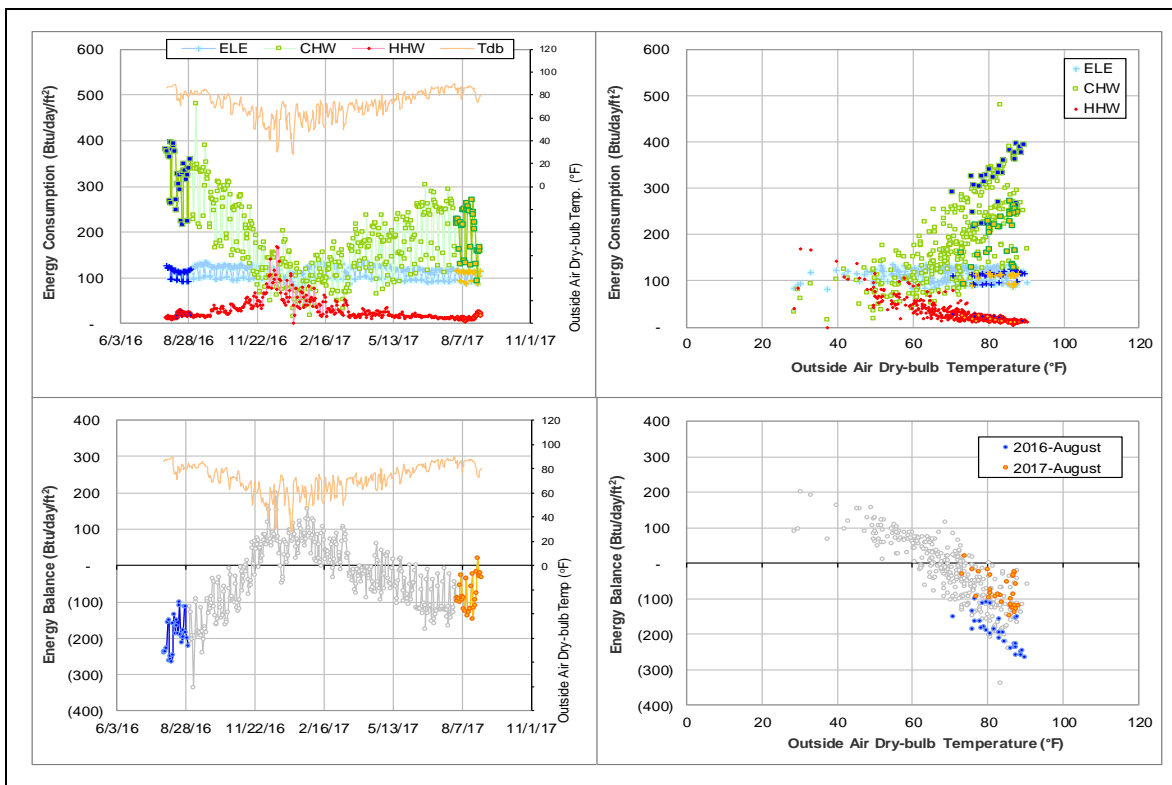

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
CHW	The consumption level decreased.	Since July 2016

### *Comments*

CHW consumption gradually dropped to a level that is lower than the past year by 50 – 100 Btu/day/ft<sup>2</sup>. No obvious sensor reading behavior anomaly is observed. More data is needed to see how the pattern develops.

### *Explanatory Figure: 13 months energy balance plot with original data.*

## Bright Building (TAMU Bldg #353)

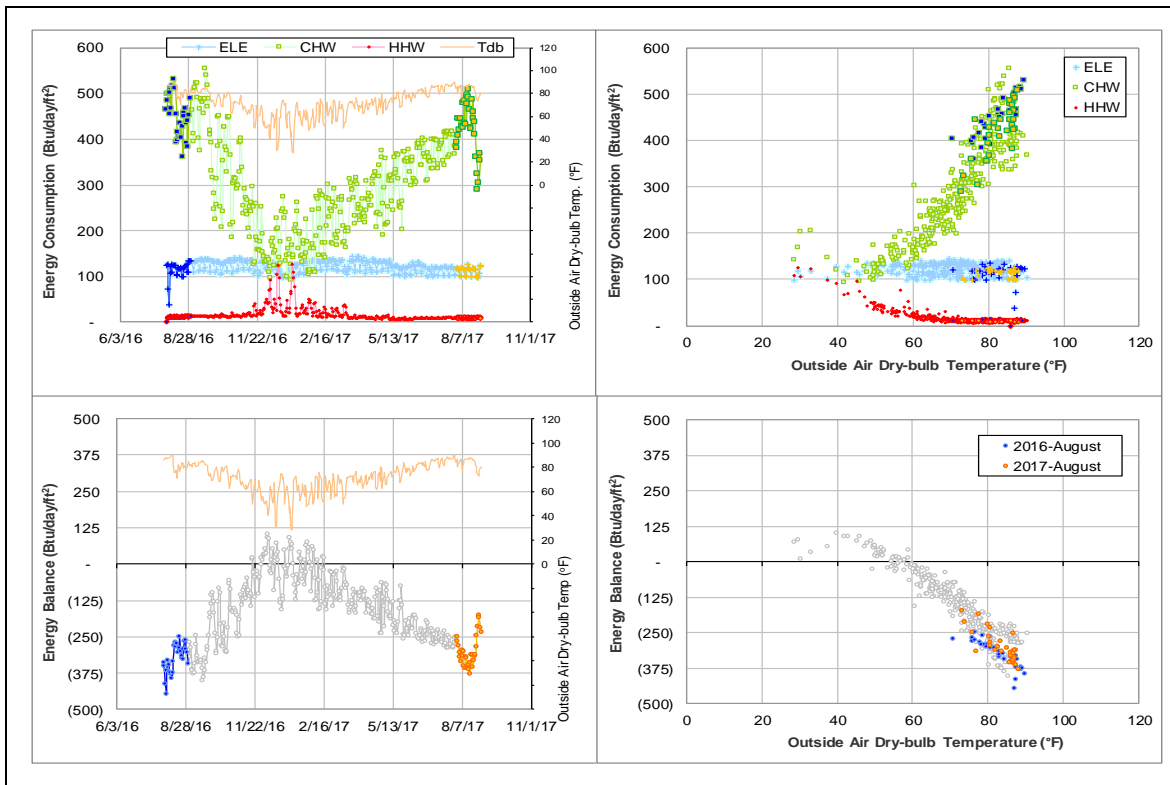

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
Energy Balance	The energy balance level has been low for years. The cross-point temperature was in the range of 40 - 70 °F.	For several years
CHW	The consumption pattern changed.	Since July 2016

### *Comments*

The energy balance load ( $E_{BL}$ ) of this building has varied but always been low (the cross-point temperature was between 40°F and 70°F) for years. CHW consumption increased greatly on 7/21/2016 and switched to a new pattern with a steeper slope. The cross-point temperature is around 55°F which has been stable for one year but it is still a little low.

### *Explanatory Figure: 13 months energy balance plot with original data*

## Underwood Residence Hall (TAMU Bldg #394)

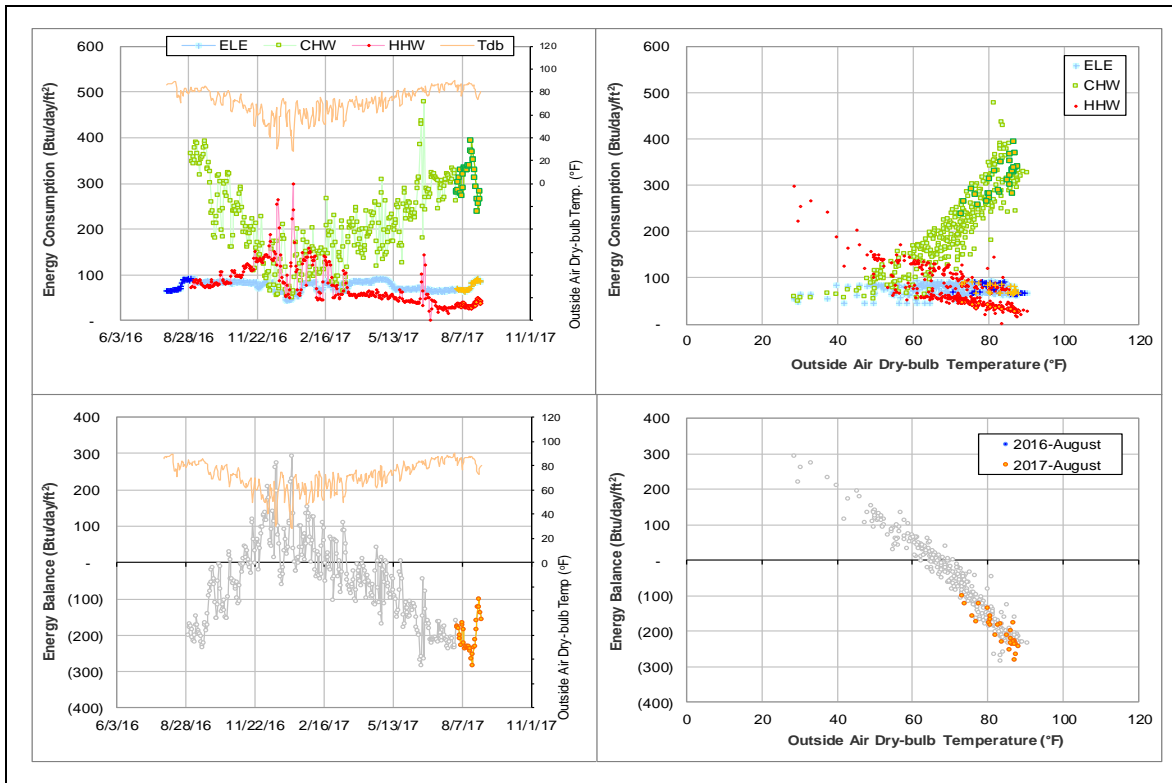

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
CHW	The consumption pattern is unstable.	9/1/2016 - ongoing
HHW	The consumption pattern is unstable.	9/1/2016 - ongoing

### *Comments*

The CHW and HHW consumption has decreased since the data return in September 2016. There seem to be two different patterns forming. More data is needed to see how the pattern develops.

### *Explanatory Figure: 13 months energy balance plot with original data.*

## Langford Architecture Center Building A (TAMU BLDG #398)

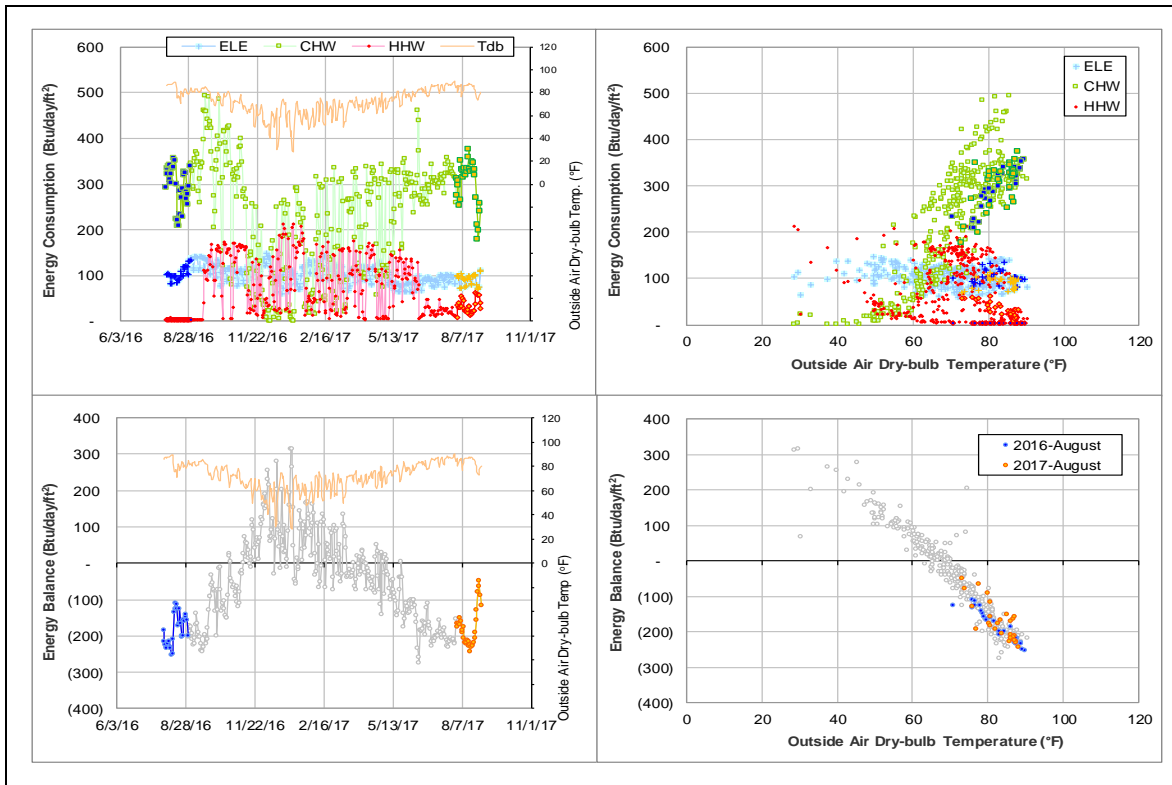

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
CHW and HHW	The consumption has been fluctuating greatly.	For several years

### *Comments*

CHW and HHW consumption has been unstable for several years. HHW flow rate can be seen going up and down between a maximum level and a very low level. The energy balance, however, is not disturbed during these fluctuations.

### *Explanatory Figure: 13 months energy balance plot with original data*

## Legett Residence Hall (TAMU BLDG #419)

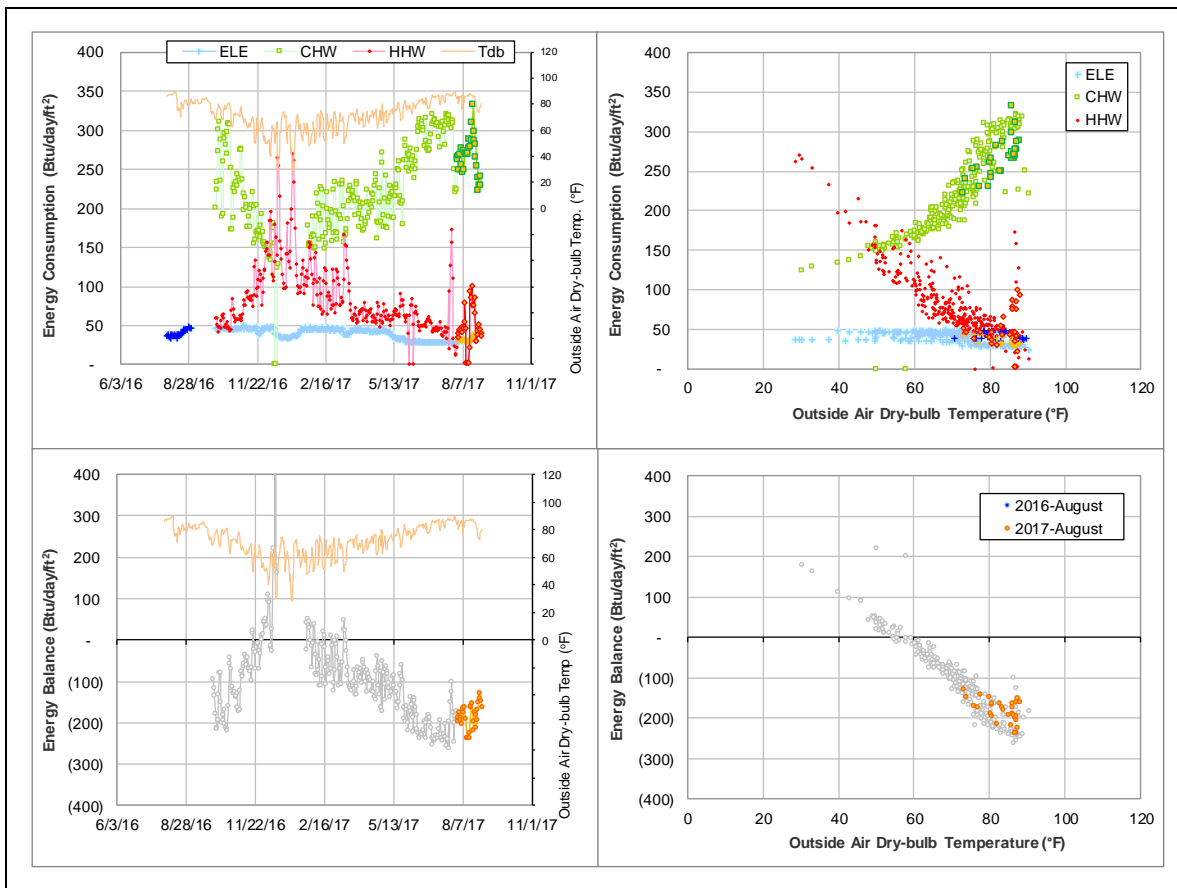

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
ELE	The consumption decreased after the missing period.	Since October 2016
CHW	The consumption increased after the missing period.	Since October 2016
HHW	The consumption decreased after the missing period.	Since October 2016
EB	The cross-point moved from 68°F to 55°F.	Since October 2016

### *Comments*

After the missing period from May to October 2016, ELE and HHW consumption decreased and CHW consumption increased. EB cross-point moved from 68°F to 55°F since then.

### *Explanatory Figure: 13 months energy balance plot with original data (The plot is rescaled to remove the spikes.)*

## Teague Research Center (TAMU Bldg #445)

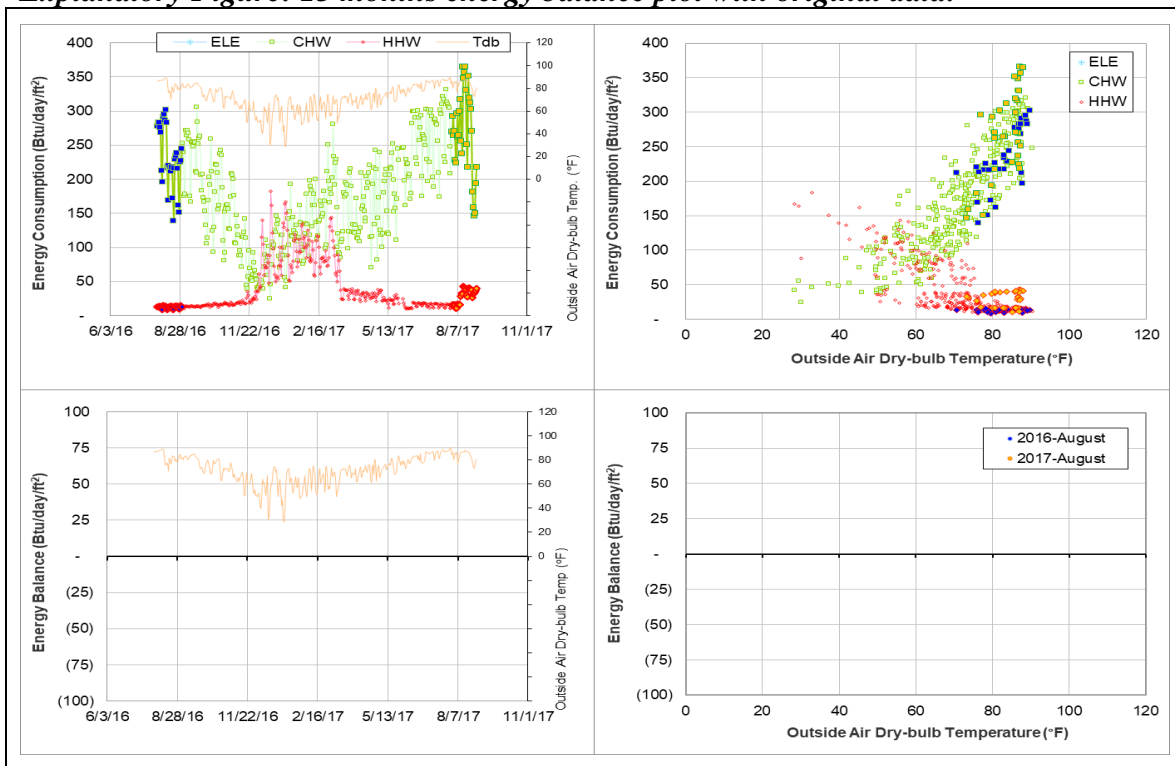

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
HHW	The consumption pattern has changed.	8/12/2017 – Ongoing

### *Comments*

The HHW consumption pattern appears to have changed starting 8/12/2017. The pattern has started to show a weekday/weekend setback. In the higher outside temperatures, the new weekday consumption is twice as much as that of the same month last year (approximately a 20 Btu/day/ft<sup>2</sup> increase) and the weekend consumption level is similar to that of the same month last year.

### *Explanatory Figure: 13 months energy balance plot with original data.*

## Psychology Building (TAMU Bldg #463)

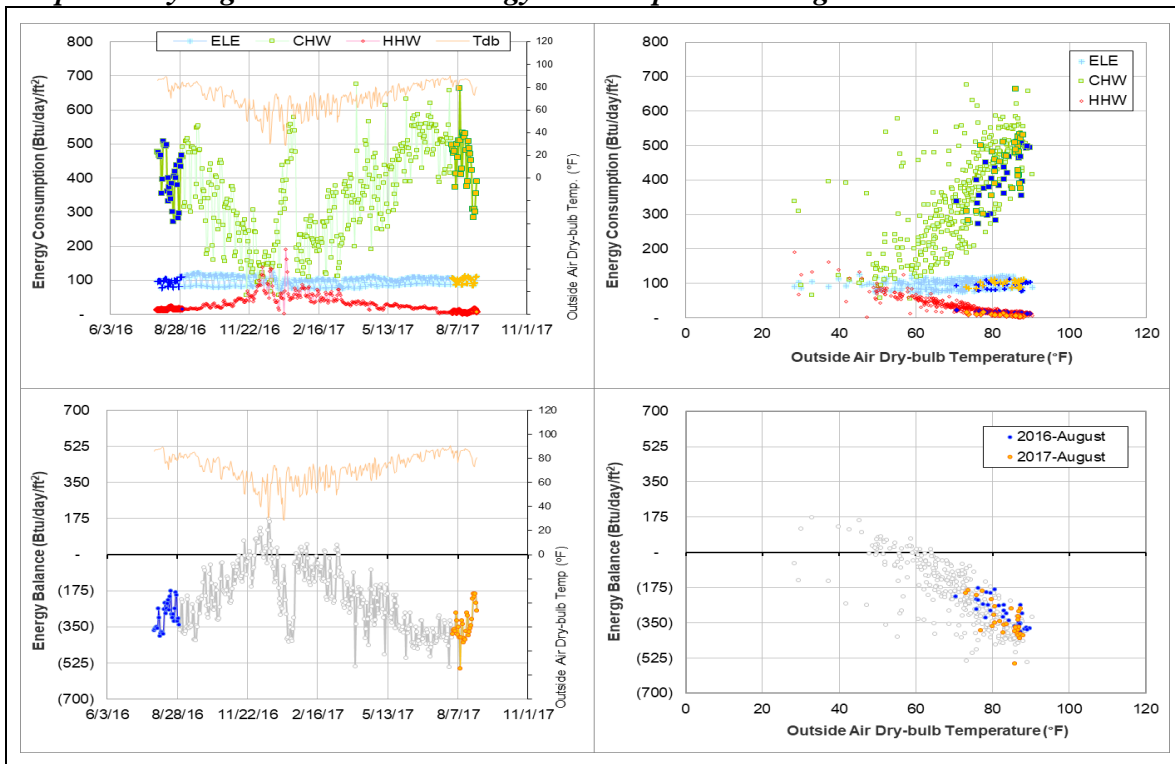

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
CHW	The energy balance cross-point temperature is low.	Starting in 2015
CHW	The consumption pattern versus ambient temperature scatters.	Ongoing after ESCO implementation in 2011

### *Comments*

The CHW consumption pattern versus ambient temperature started to scatter after ESCO implementation in 2011. The scatter started to decrease and a weekday/weekend pattern appeared in 2016. The cross-point temperature for this building over the past three years has been low with a range from 50 – 60 °F. More information is needed to determine the cause of the low temperature range.

### *Explanatory Figure: 13 months energy balance plot with original data.*

## State Chemist Building (TAMU Bldg #464)

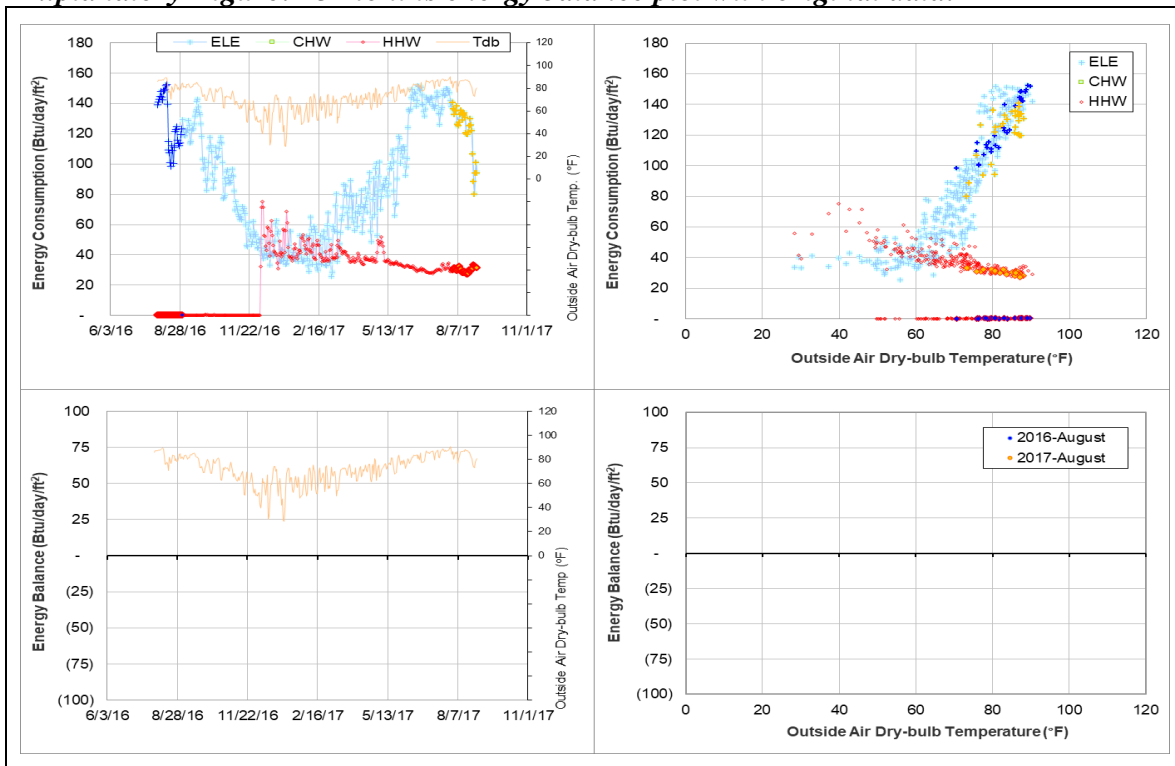

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
ELE #005837	The consumption level decreased especially in low temperature ranges.	11/20/2016 – 6/7/2017
ELE #005837	Scattering data are observed.	6/7/2017 – Ongoing

### *Comments*

There are two ELE meters (#005837 and #005839) for this building. Starting in November 2016, the level for meter #005837 has decreased and the data appears scattered. Compared to April 2016, the average daily kWh for April 2017 has decreased by ~60 kWh. The decrease in this meter can be masked in the 13-month plot that shows the total of the two ELE meters combined. Recently, starting 6/7/2017, the average daily kWh increased by ~100 kWh compared to the consumption pattern before November 2016. Explanatory figures showing the change before and after November 2016 are provided below. Since the combined electric consumption is within the 13-month pattern this month, no estimation was made.

### *Explanatory Figure: 13 months energy balance plot with original data.*

***Explanatory Figure: Scatter plot of daily ELE energy consumption for meter #005837 versus outside dry-bulb temperature.***

***Explanatory Figure: Times series plot of hourly ELE energy consumption for meter #005837. The series in grey represents the recent data from November 2016 through August 2017.***

## Scoates Hall (TAMU Bldg #478)

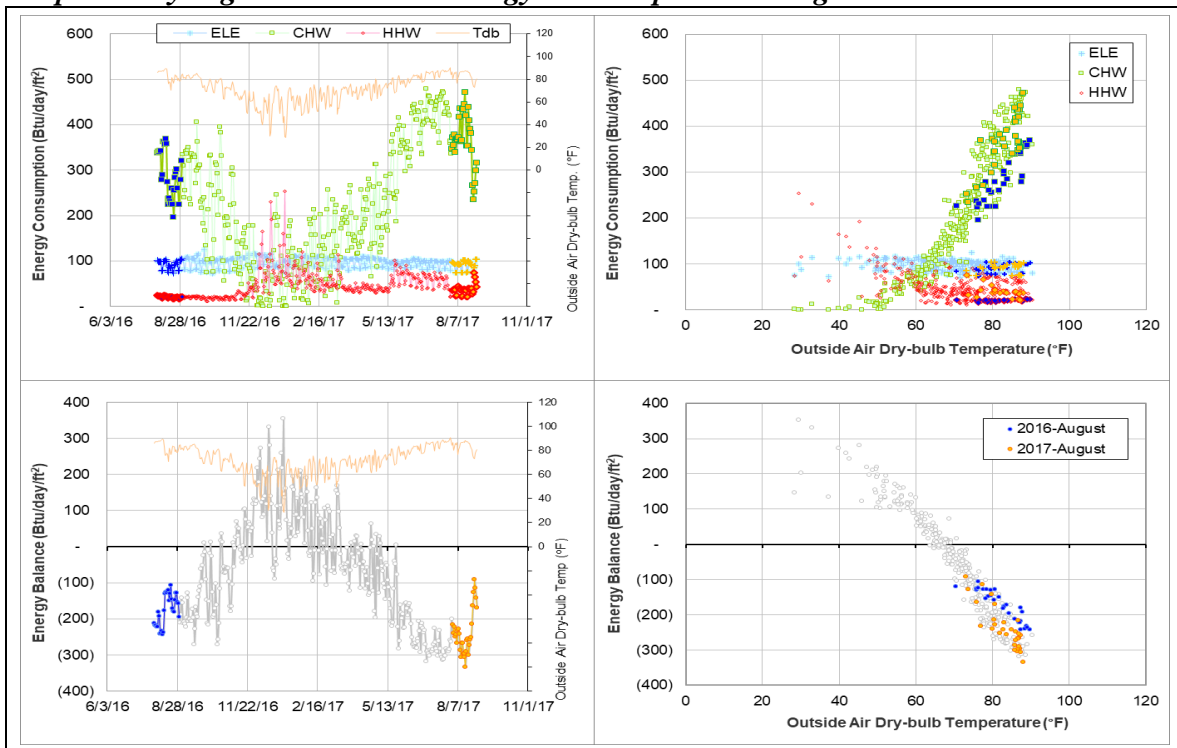

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
CHW	The consumption level is higher than the level during the past year.	5/1/2017 – Ongoing
HHW	The consumption level is higher than the level during the past year.	5/1/2017 – Ongoing

### *Comments*

Starting in May 2017, the CHW and HHW consumption pattern has started to increase in higher outside temperatures. A more distinct HHW weekday/weekend setback has also appeared. The energy balance has also decreased by about 100 Btu/day/ft<sup>2</sup>.

### *Explanatory Figure: 13 months energy balance plot with original data*

## Fermier Hall (TAMU Bldg #482)

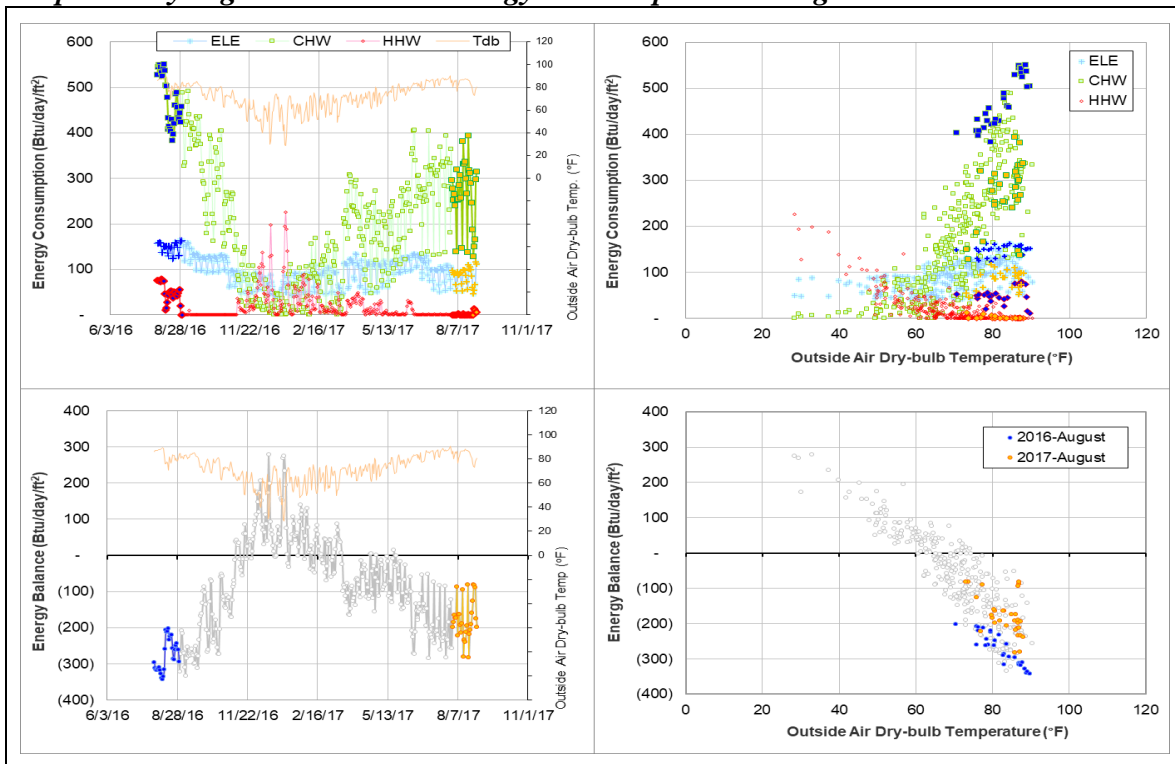

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
CHW/HHW	The consumption level has significantly decreased.	6/24/2016 – Ongoing

### *Comments*

CHW and HHW of this building decreased significantly in steps since 6/24/2016. Since the energy balance plot has retained its pattern up to 12/23/2016, the drop may be due to a decrease in usage. The CHW consumption during winter break (12/23/2016 – 12/31/2016) is lower than the recent pattern but does not appear to be a meter issue. This building is in the ESCO list. The decrease in consumption level could be related to it.

### *Explanatory Figure: 13 months energy balance plot with original data.*

## Chemistry Building (TAMU Bldg #484)

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
ELE #007557	The ELE consumption level has decreased significantly for meter #007557.	6/1/2016 – Ongoing
ELE #007152	The consumption level is increasing gradually for meter #007152.	6/3/2017 – Ongoing

### *Comments*

Two of the four ELE meters for this building experienced a change in energy consumption level. ELE meter #007557 consumption decreased gradually during 6/1/2016 – 8/31/2016 by over 2000 kWh/day and then decreased further on 6/17/2017 by another 500 kWh/day. ELE meter #007152 consumption gradually increased after a missing period (5/10/2017 – 6/2/2017) by about 3000 kWh/day. The total of ELE use for this building increased back to the level before renovation. We would like to know if this building completed renovation and fully occupied now and if there is any change for the area served by these two meters. More data will be needed to see if the consumption level will stable for these two meters.

### *Explanatory Figure: Times series plot for meter #007557*

### *Explanatory Figure: Time series plot of electric meter #007152 from 1/1/2016 – 8/31/2017.*

***Explanatory Figure: Scatter plot of kWh/day versus outside air temperature for electric meter #007152 from 1/1/2016 – 8/31/2017.***

***Explanatory Figure: Times series plot for total of ELE***

## Civil Engineering Building (TAMU Bldg #492)

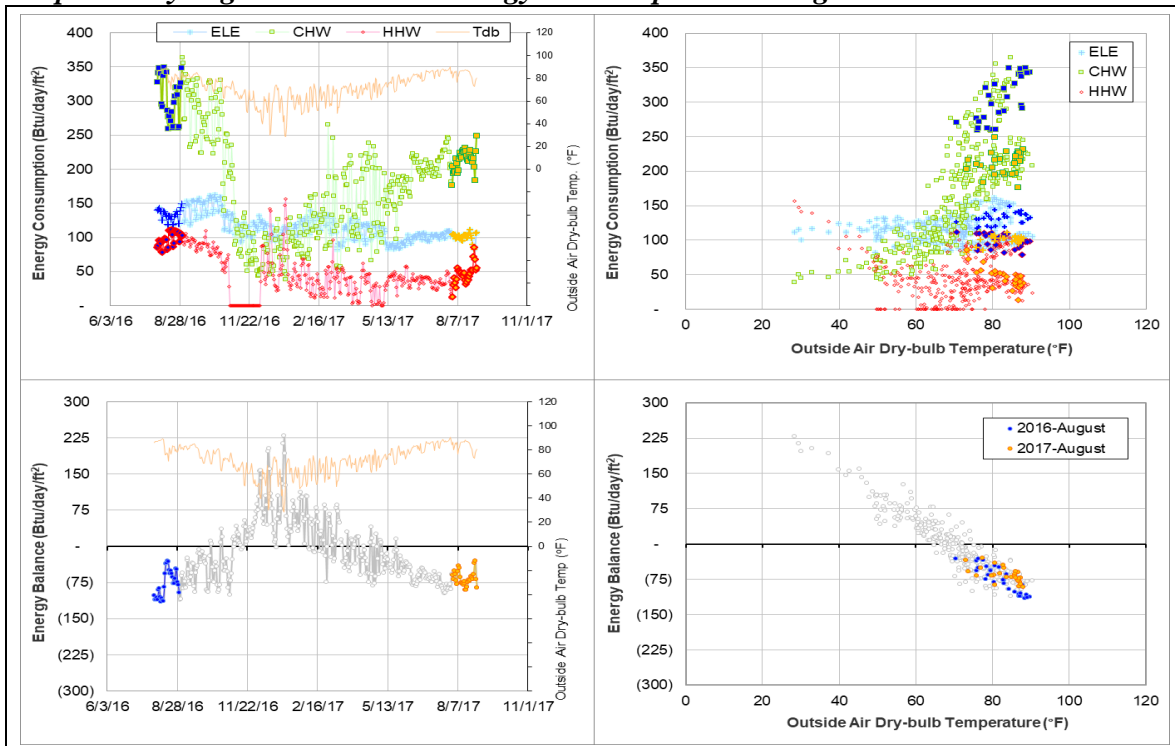

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
CHW/HHW	The consumption level decreased.	10/29/2016 – Ongoing

### *Comments*

Starting 10/29/2016, the CHW and HHW consumption levels decreased and continued to remain low. Excluding HHW meter issue from 10/29/2016 – 12/7/2016 (zero flow rate and near zero delta-T), the lower consumption levels may be due to ESCO.

### *Explanatory Figure: 13 months energy balance plot with original data.*

## DPC Annex (TAMU Bldg #517)

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
HHW	The HHW consumption level decreased.	8/31/2016 – Ongoing

### *Comments*

Starting 8/31/2016, the HHW consumption level decreased dropping clearly below the main pattern until 12/4/2016. The data from 12/5/2016 to 3/31/2017 appears between the main pattern and the lower pattern. However, starting April 2017 the data returned to the lower pattern. This does not appear to be a meter issue. More data is needed to see how the pattern continues.

### *Explanatory Figure: Energy consumption versus outside air dry-bulb temperature.*

## Utilities & Energy Services Central Office (TAMU Bldg #496)

### *Detected issues in the energy balance and/or the consumption data*

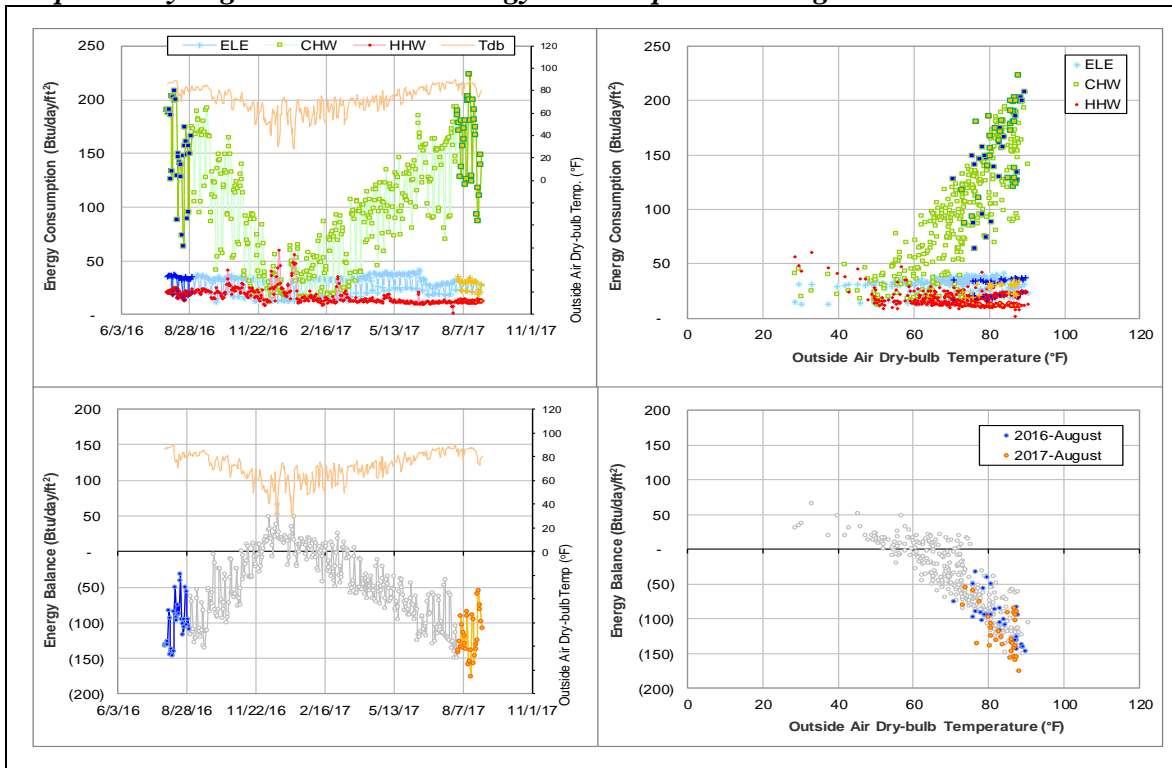

Data Type	Description of data behaviors	Period
ELE, CHW, and HHW	The energy use per unit floor area is low compared to other buildings.	Since the data became available on 7/1/2012

### *Comments*

The peak electric use intensity is around 0.65 W/ft<sup>2</sup>, which is small for an office building on campus. The delta-T for HHW seems to be small for years. The CHW and HHW consumption per unit floor area also seem to be low. It is possible that the GSF on file (46,110 ft<sup>2</sup>) includes substantial unoccupied or unconditioned areas. The CHW consumption during the winter break period (12/23/2016 – 12/31/2016) is lower than previous winter break periods but does not appear to be a meter issue.

The energy balance scatter is due to the consumption level changes for CHW and HHW. The cross-point temperature of the energy balance is in the range of 50 to 75°F.

### *Explanatory Figure: 13 months energy balance plot with original data.*

## Engineering Innovation Center (TAMU Bldg # 499)

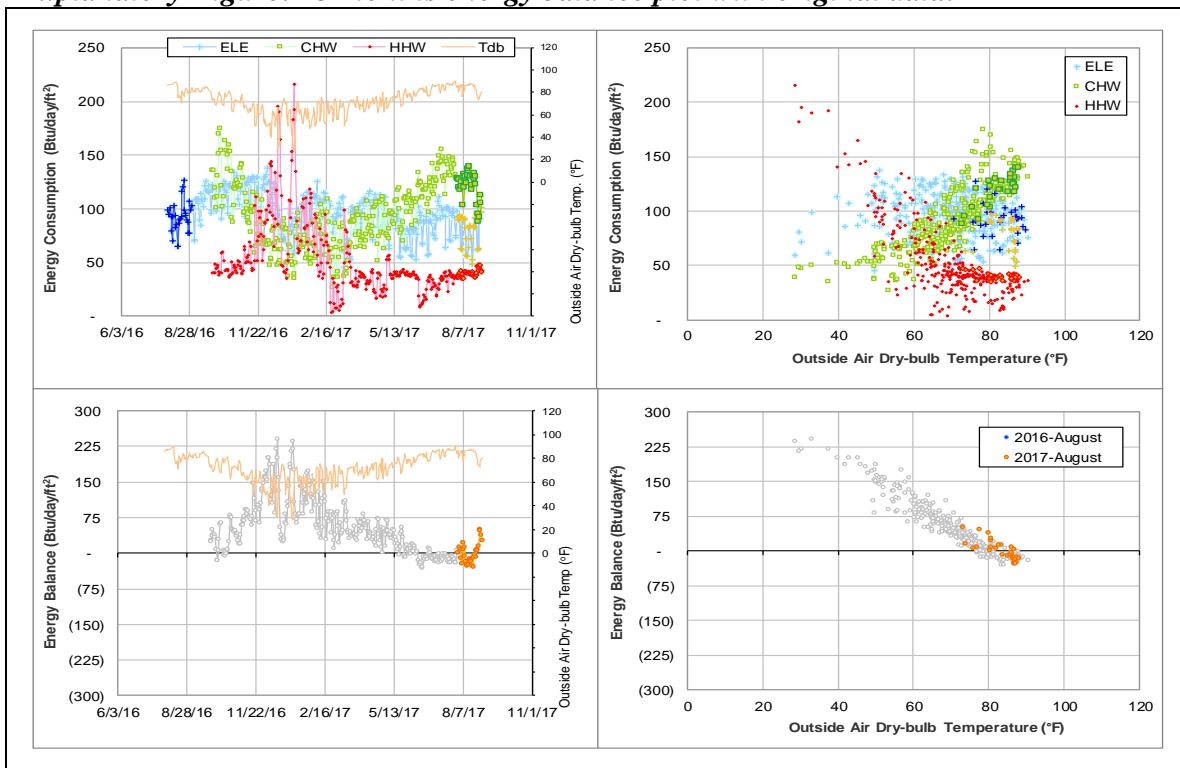

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
Energy Balance	The cross-point temperature is high, around 80°F.	For years
CHW	The consumption level is low compared to the ELE and HHW consumption.	For years

### *Comments*

The cross-point temperature of energy balance for this building is high, around 80°F. The CHW consumption is relatively low when compared to the ELE and HHW consumption and could be the reason for the high cross-point temperature.

### *Explanatory Figure: 13 months energy balance plot with original data.*

## Nagle Hall (TAMU Bldg #506)

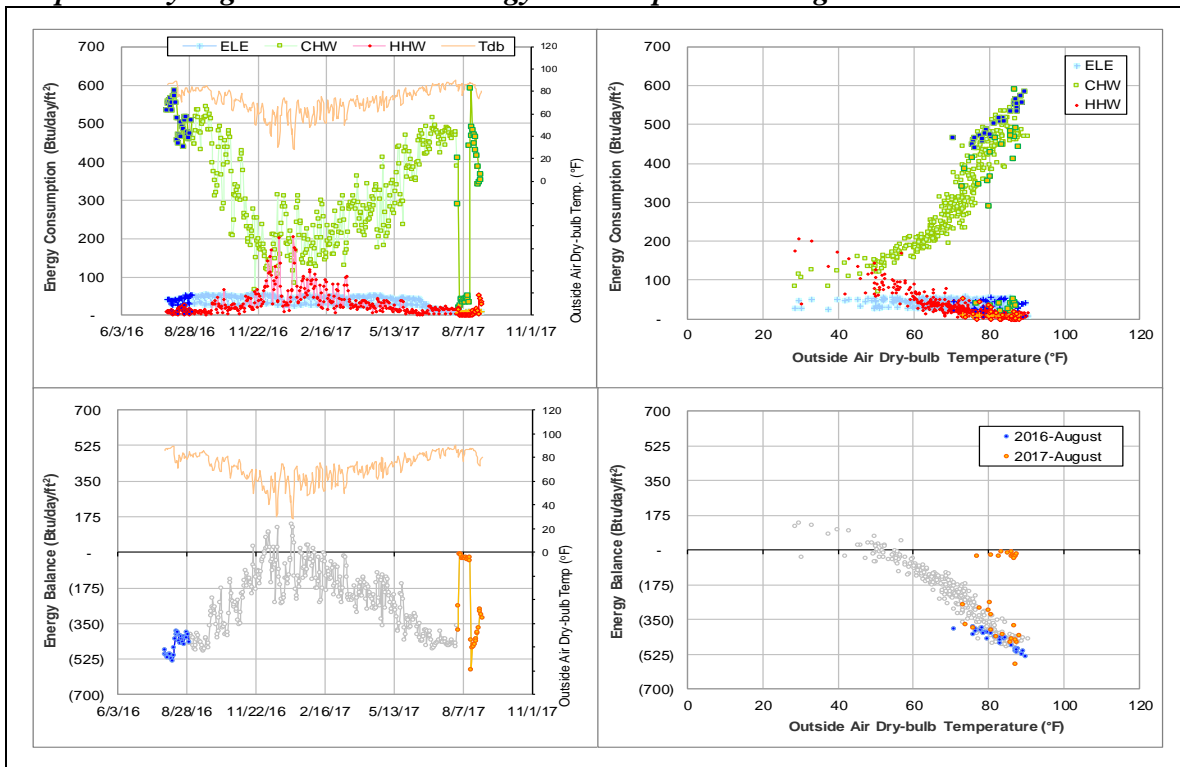

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
Energy Balance	The level was low and the cross-point temperature is around 50°F.	Since the data became available
ELE	The consumption per unit floor area is smaller than those for other similar office buildings, and has been decreasing gradually in the past 4 years.	Since the data became available

### *Comments*

The ELE consumption is lower than 50 Btu/day/ft<sup>2</sup>, lower than the typical level of 100 Btu/day/ft<sup>2</sup> for office buildings on campus. This meter might not cover the whole building or it is erroneously factored. See also II-2.

### *Explanatory Figure: 13 months energy balance plot with original data*

## Heep Laboratory Building (TAMU Bldg #511)

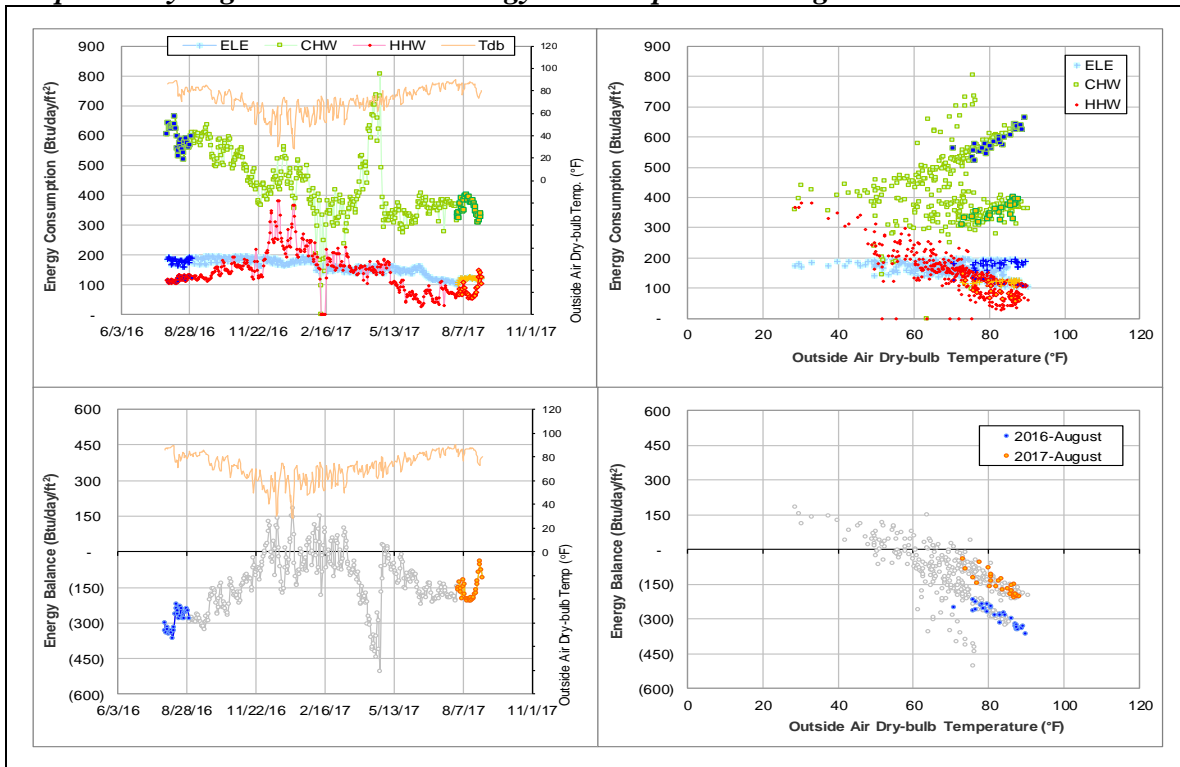

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
ELE	The consumption is decreasing gradually.	Since February 2017

### *Comments*

The ELE consumption gradually slid down from near 200 Btu/day/ft<sup>2</sup> at the beginning of February 2017 to about 160 Btu/day/ft<sup>2</sup> at the beginning of May 2017. The consumption level further dropped to 110 – 120 Btu/day/ft<sup>2</sup> during summer. There is no identified cause of this change. See also II-2.

### *Explanatory Figure: 13 months energy balance plot with original data*

## Blocker Building (TAMU Bldg #524)

### *Detected issues in the energy balance and/or the consumption data*

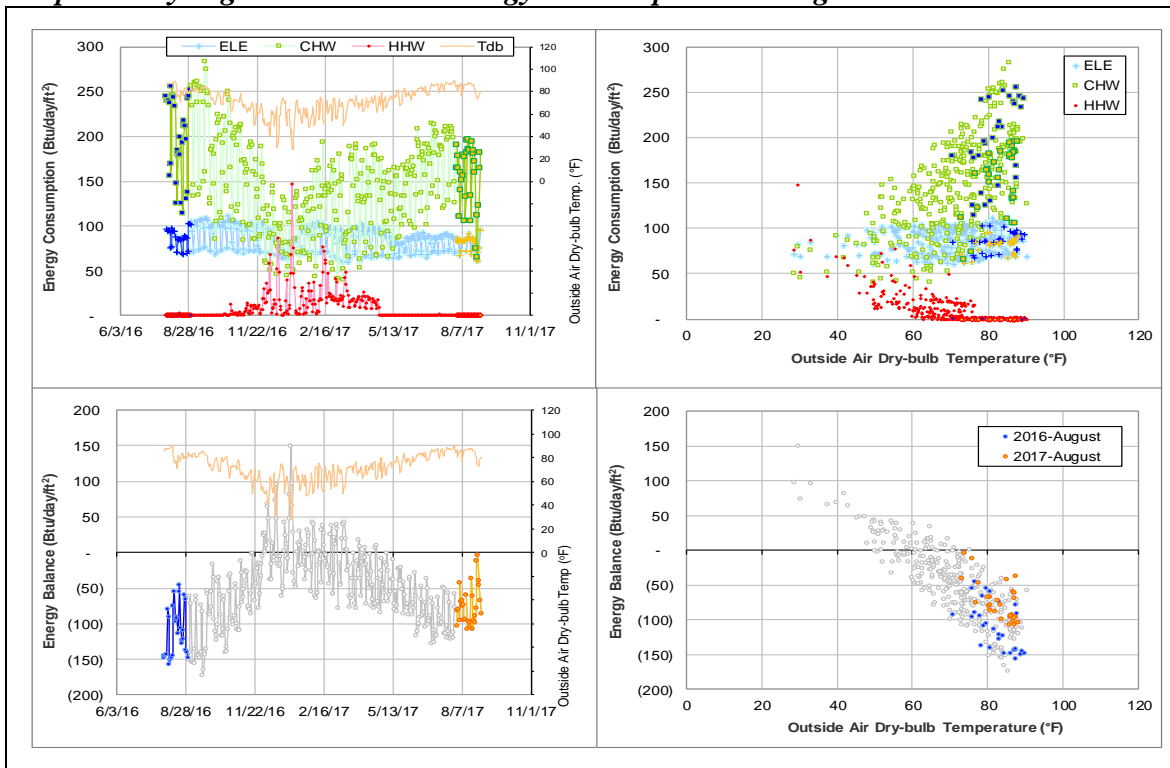

Data Type	Description of data behaviors	Period
CHW	The consumption decreased and is about 50 Btu/day-ft <sup>2</sup> (25%) lower than the level of the past year.	Since May 2017
HHW	The consumption level is low.	Past several years

### *Comments*

The cross-point of temperature of energy balance had been lower than 60°F for years. But the recent decrease of CHW pulled energy balance up and now it crosses between 60 and 70°F.

The delta-T and consumption level for HHW seemed low for the past couple of years and started to change in an unstable fashion in February 2017. The explanatory figures below show the change in Delta-T of April 2016 and April 2017. HHW seemed closed off since the end of April. This increase also contributed to the higher and more reasonable cross-point of energy balance. It continues to seem closed off during the non-heating season.

### *Explanatory Figure: 13 months energy balance plot with original data*

**Explanatory Figure: Time series plots of hourly HHW energy consumption, flow rate, and supply and return temperatures from the utilities office. (Top: April 2016; Bottom: April 2017)**

## McNew Laboratory (TAMU Bldg #740)

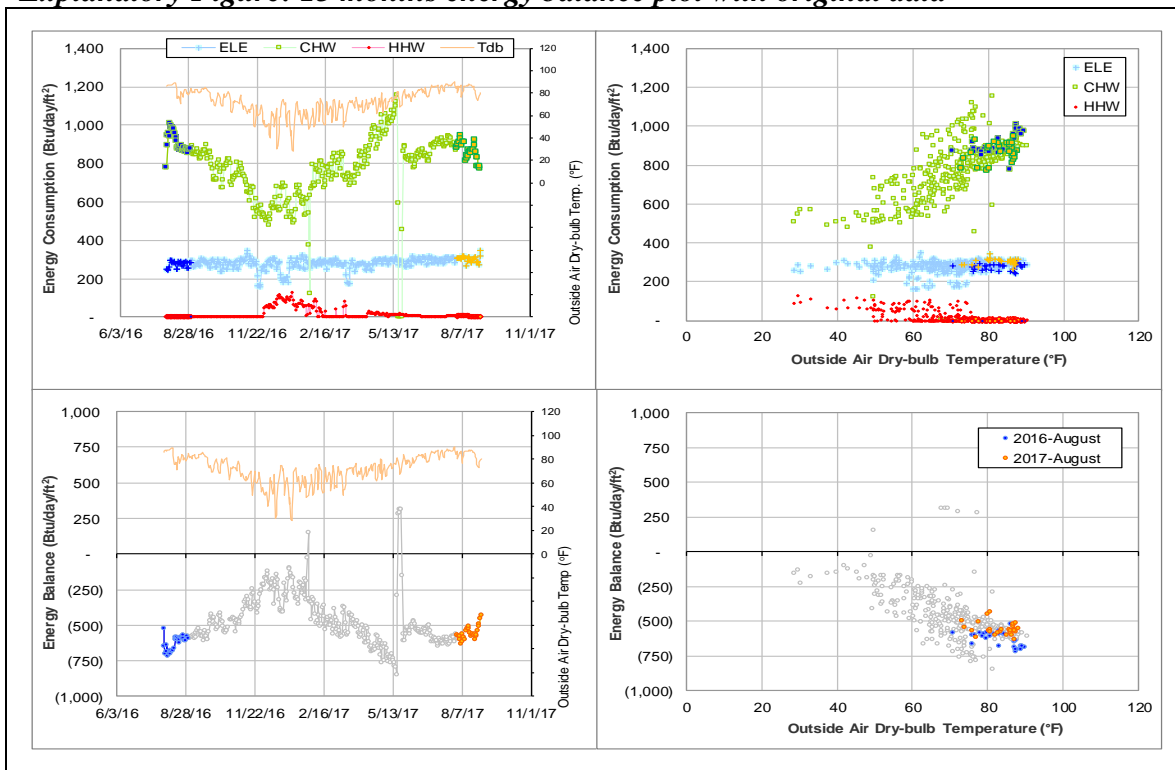

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
Energy Balance	The energy balance pattern level is low.	Past several years
HHW	The consumption level seems low.	Past several years

### *Comments*

The energy balance level has consistently been low and does not even reach a cross-point temperature. Since 2013, there has been a large decrease in HHW use. After that, HHW consumption decreased gradually year by year. Recently, the CHW has increased starting February 2017, causing the energy balance to reduce even more. More information is needed to help identify the reason causing the low energy balance for this building.

### *Explanatory Figure: 13 months energy balance plot with original data*

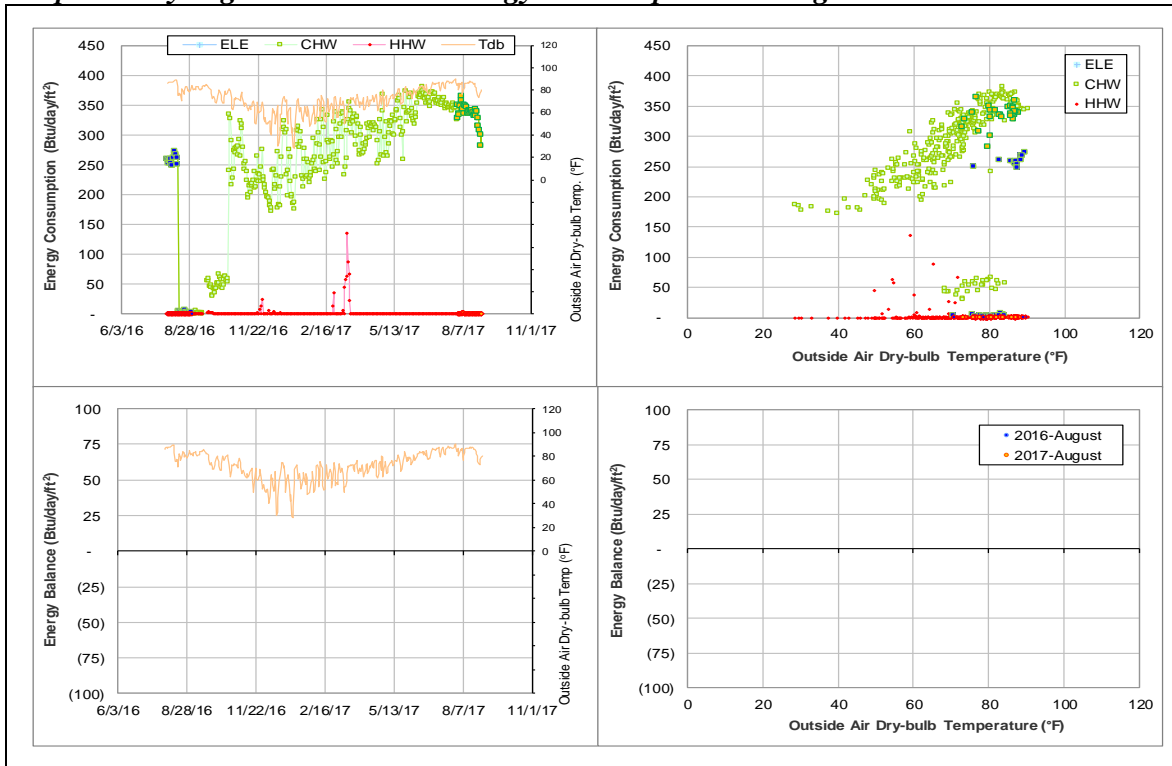

## TVMC-Small Animal Building (TAMU Bldg# 880)

Data Type	Description of data behaviors	Period
HHW	The daily consumption is zero or nearly zero for the majority of the days during the year.	Since the data became available in October 2008

### Comments

The daily HHW consumption pattern is zero or nearly zero for the majority of the days for years. Because the HHW consumption level appears unstable since the data became available, a valid consumption model for this meter has not been created.

### Explanatory Figure: 13 months energy balance plot with original data

## Texas Vet Med Diagnostic Lab (TAMU Bldg# 1041)

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
ELE	Decrease after missing periods	Since May 2017
CHW HHW	Decrease after missing periods	August 2016

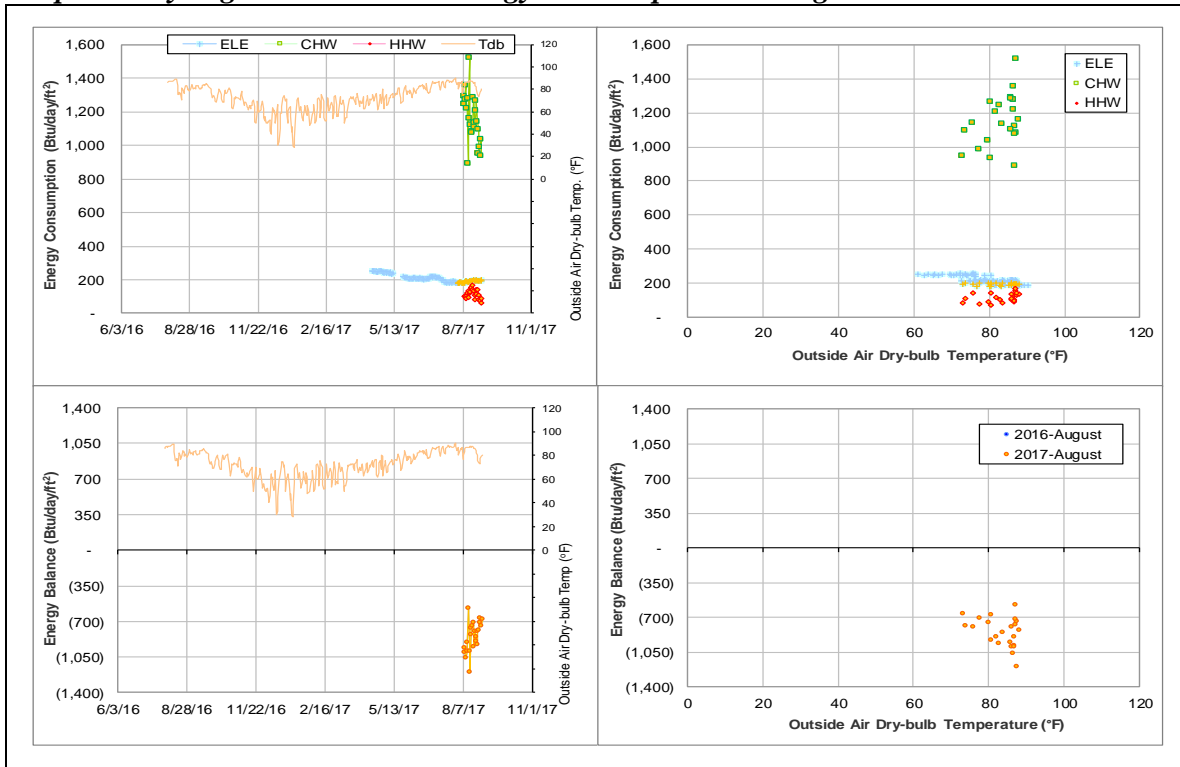

### *Comments*

This building has six MID's in total (two for each utility type) and they had gone missing since 7/14/2016. The two ELE meters restarted taking data on 3/27/2017.

ELE MID 001466 decreased from a level ranging from 110 to 180 kWh/h to a stable 100 kWh/h level. ELE MID 001539 decreased from a level ranging from 100 to 130 kWh/h to 64 – 72 kWh/h level, and decreased further after a short missing period of 5/12/2017 – 5/24/2017 to 45 kWh/h. This building's total ELE consumption decreased by 33% in daily average value.

The continued missing of CHW and HHW consumption was estimated by first using models based on 8/1/2015 – 7/13/2016 data and then scaling down to 66%. This estimation is observed to match the new data that came available.

### *Explanatory Figure: 13 months energy balance plot with original data*

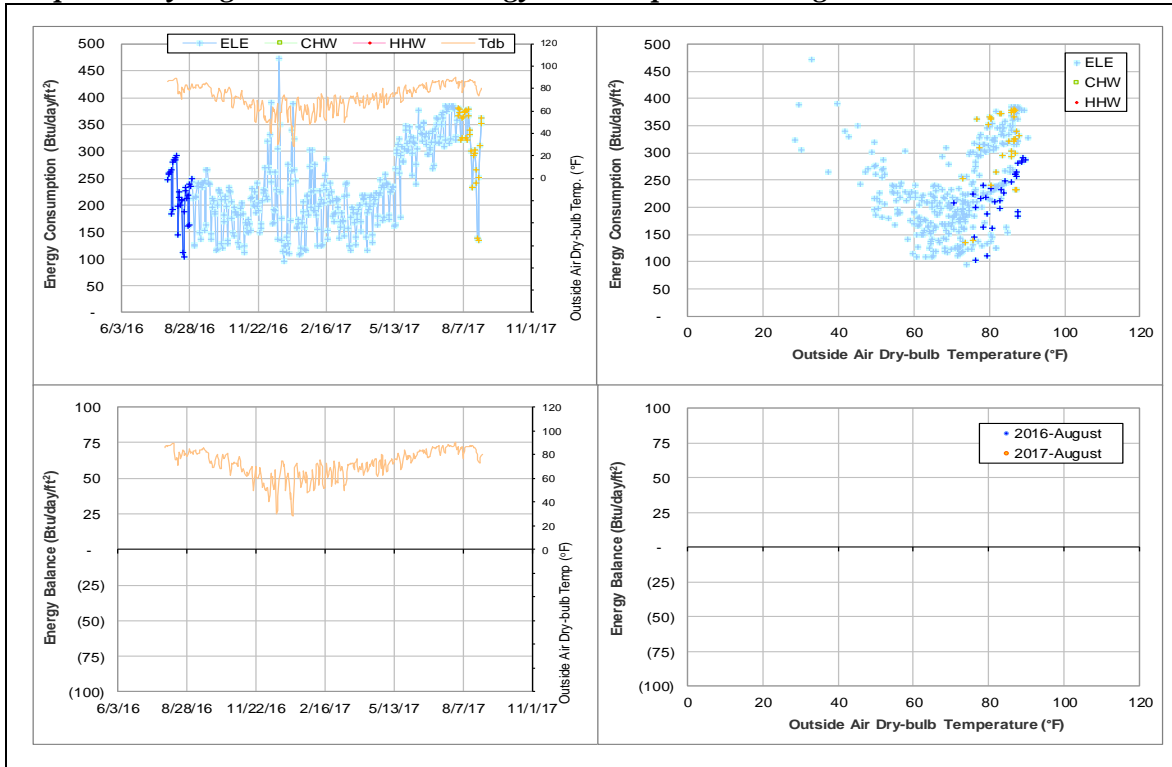

## Utilities Energy Office Annex (TAMU Bldg# 1089)

Data Type	Description of data behaviors	Period
ELE	The consumption increased significantly.	Since 5/15/2017

### Comments

The daily ELE consumption significantly increased since 5/15/2017 by more than 100 Btu/day-ft<sup>2</sup>. There is no obvious faulty meter readings.

### Explanatory Figure: 13 months energy balance plot with original data

## Physical Plant Administration & Shops (TAMU Bldg# 1156)

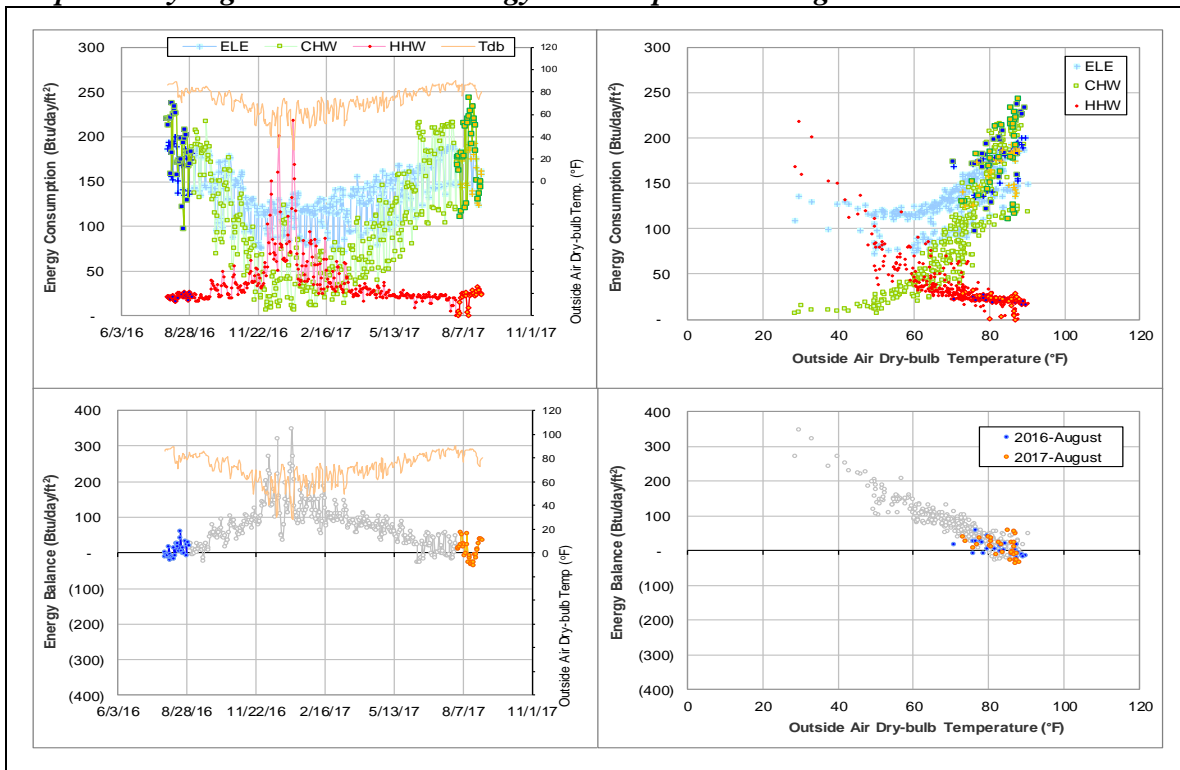

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
Energy Balance	The cross-point temperature is as high as 85°F.	Since 7/1/2014 when ELE became available
CHW	The consumption level seems low compared to the ELE and HHW use level.	Since the data became available on 7/1/2012.
	The weekend level decreased to farther from weekday level.	Since 2017.

### *Comments*

The electricity is not available until 7/1/2014. CHW consumption level seems low compared to the ELE and HHW use level, but the CHW consumption has a clean and stable pattern since the data became available on 7/1/2012. More information is needed to identify which type of utility causes the high cross-point temperature. It is possible that the GSF on file (101,704 ft<sup>2</sup>) includes substantial unoccupied or unconditioned areas. Since 2017, the weekday and weekend separation of CHW consumption patterns have a larger split.

### *Explanatory Figure: 13 months energy balance plot with original data*

## Utilities & Energy Services Business Office (TAMU Bldg #1497)

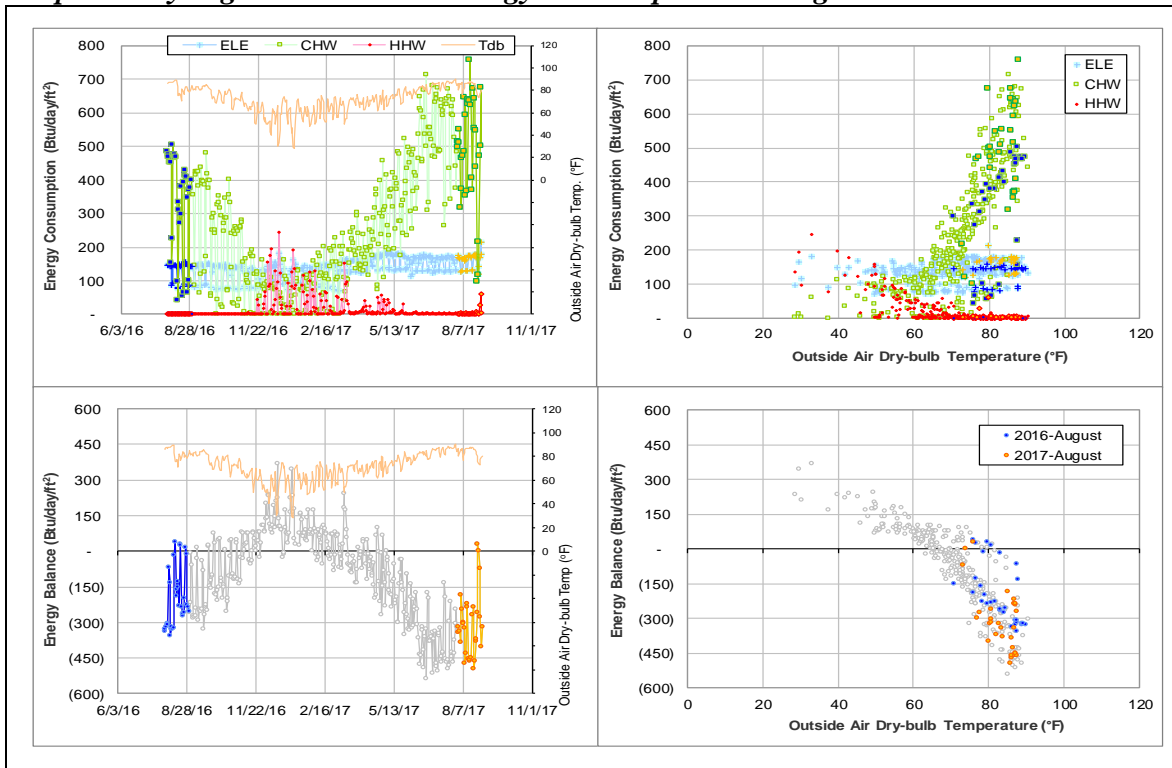

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
CHW	Weekend consumption level decreased	Since July 2017.

### *Comments*

The CHW weekday/weekend pattern has been changing occasionally since 2015. The most recent change is in July 2017 when the weekend level decreased. There is no obvious faulty meter observed.

### *Explanatory Figure: 13 months energy balance plot with original data*

## Rosenthal Meat Science & Technology Center (TAMU Bldg #1505)

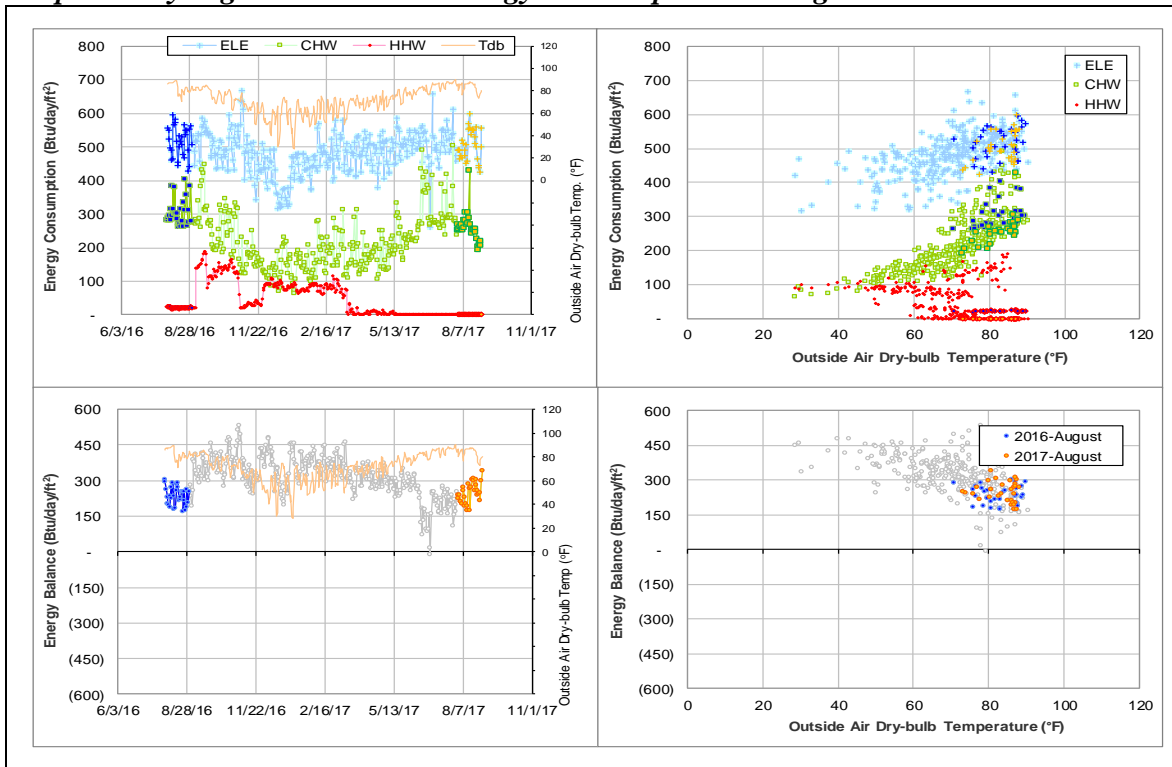

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
HHW	Very low or zero	Since 3/15/2017.

### *Comments*

HHW consumption of this building has been zero or near zero since 3/15/2017. Its hourly flow readings are near zero (less than 0.0060 gpm) and its supply and return temperature readings are close to room temperature. It is suspected to be a close-off but this did not occur in the previous year.

### *Explanatory Figure: 13 months energy balance plot with original data*

## Medical Sciences Library (TAMU Bldg #1509)

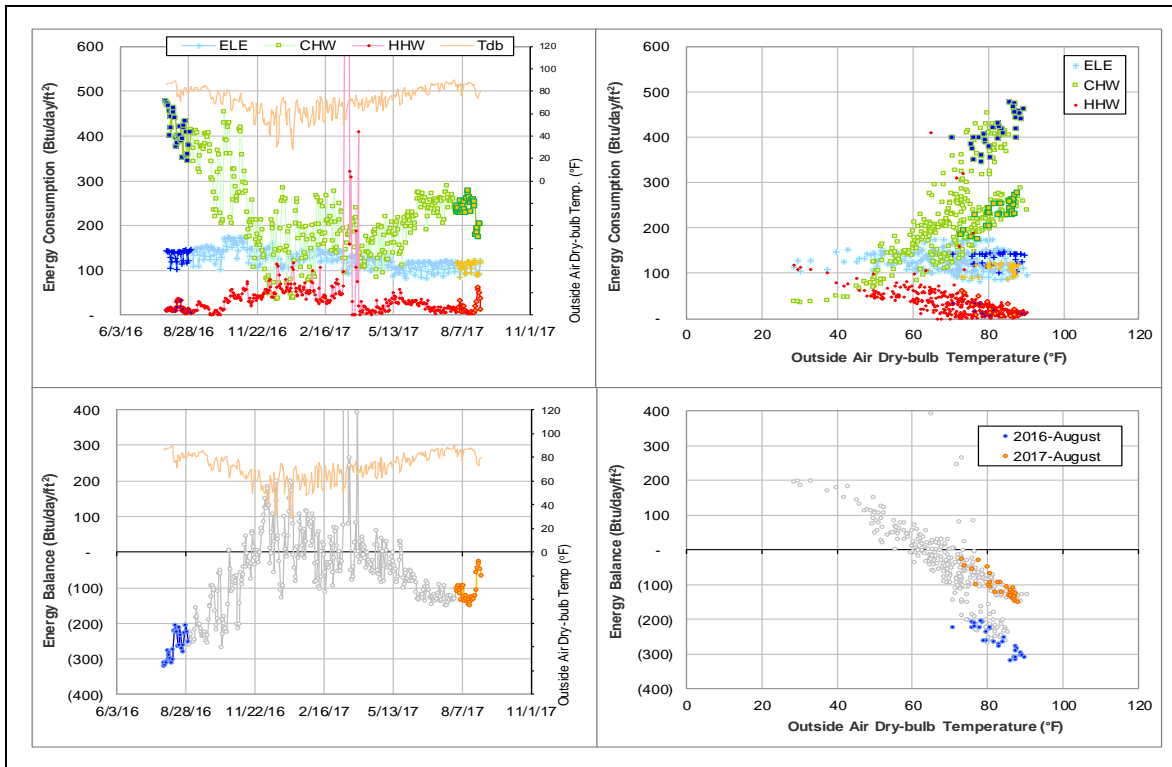

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
ELE/CHW	The consumption level has decreased suddenly.	3/24/2015 – Ongoing

### *Comments*

On 3/24/2017, CHW flow rate of this building suddenly dropped from about 300 gpm to lower than 100 gpm and the return temperature increased from lower than 50°F to higher than 60°F. Both ELE and CHW consumption level decreased significantly since then.

### *Explanatory Figure: 13 months energy balance plot with original data.*

## Cox-McFerrin Center for Aggie Basketball (TAMU Bldg# 1558)

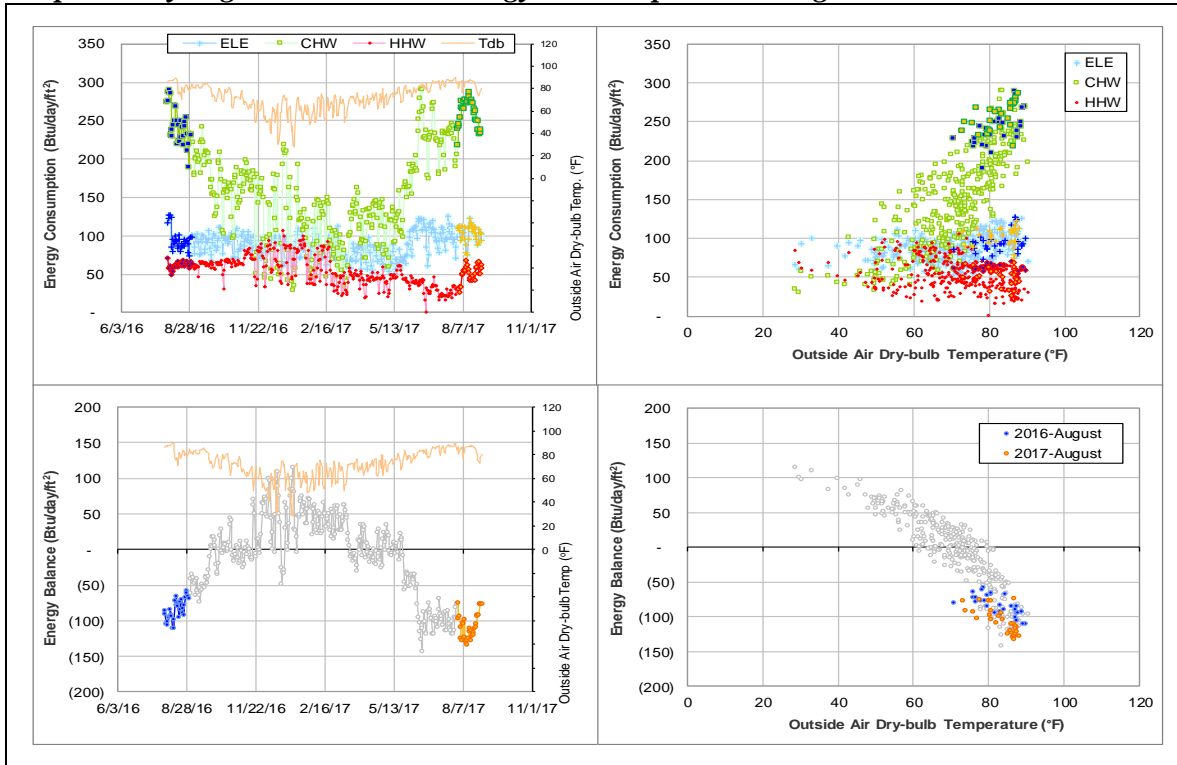

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
HHW	Consumption pattern is not weather dependent.	11/5/2016 – Ongoing

### *Comments*

The HHW pattern remains scattered and does not appear to be weather dependent.

### *Explanatory Figure: 13 months energy balance plot with original data*

## International Ocean Discovery Building (TAMU Bldg# 1601)

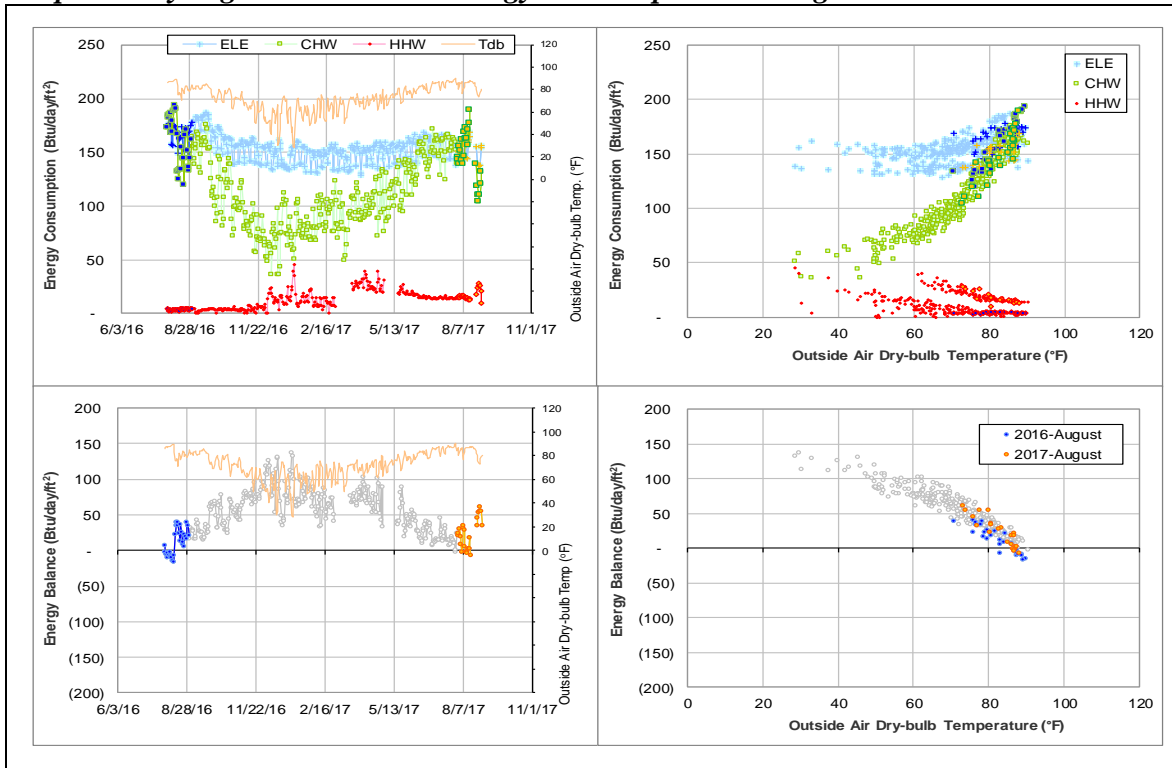

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
Energy Balance	The cross-point is high, around 85°F.	Since data became available in Feb 2015
HHW	A new MID 009829 is discovered.	3/21/2017

### *Comments*

The cross-point temperature is high for this building, around 85°F. The daily CHW consumption for last year is 36 – 200 Btu/day/ft<sup>2</sup>. The CHW consumption level is low compared to ELE and HHW levels and its ELE has strong dependence on temperature. This building might have its own chillers. A new HHW MID 009829 is discovered and has two or three times the consumption of the older HHW MID 008145, resulting a considerable increase in measured HHW consumption.

### *Explanatory Figure: 13 months energy balance plot with original data*

## Offshore Technology Research Center (TAMU Bldg# 1604)

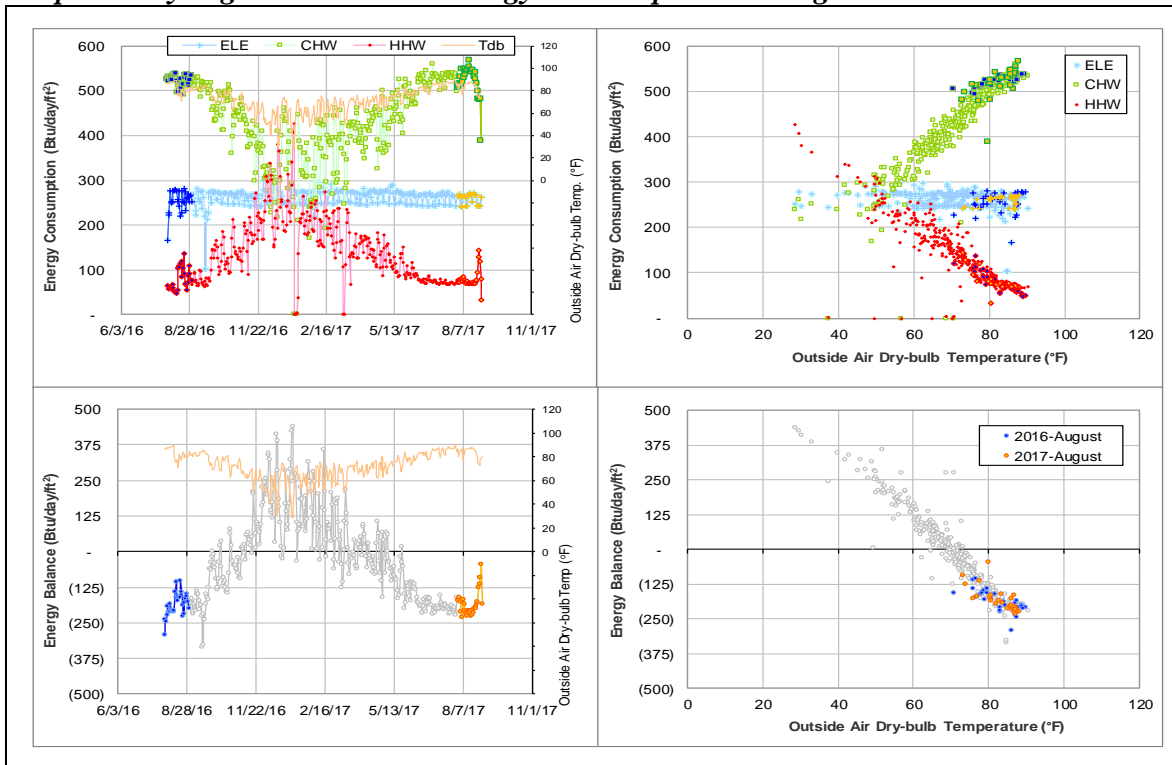

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
ELE MID 006660	Consumption is zero for most of the time.	2/1/2015 – Ongoing

### *Comments*

The electric consumption for MID 006660 has been zero for most of the time it has been available since 2/1/2015. This meter is suspected to measure consumption for a specific piece of equipment that only runs occasionally.

### *Explanatory Figure: 13 months energy balance plot with original data*

## Texas A&M Institute for Preclinical Studies A (TAMU Bldg# 1904)

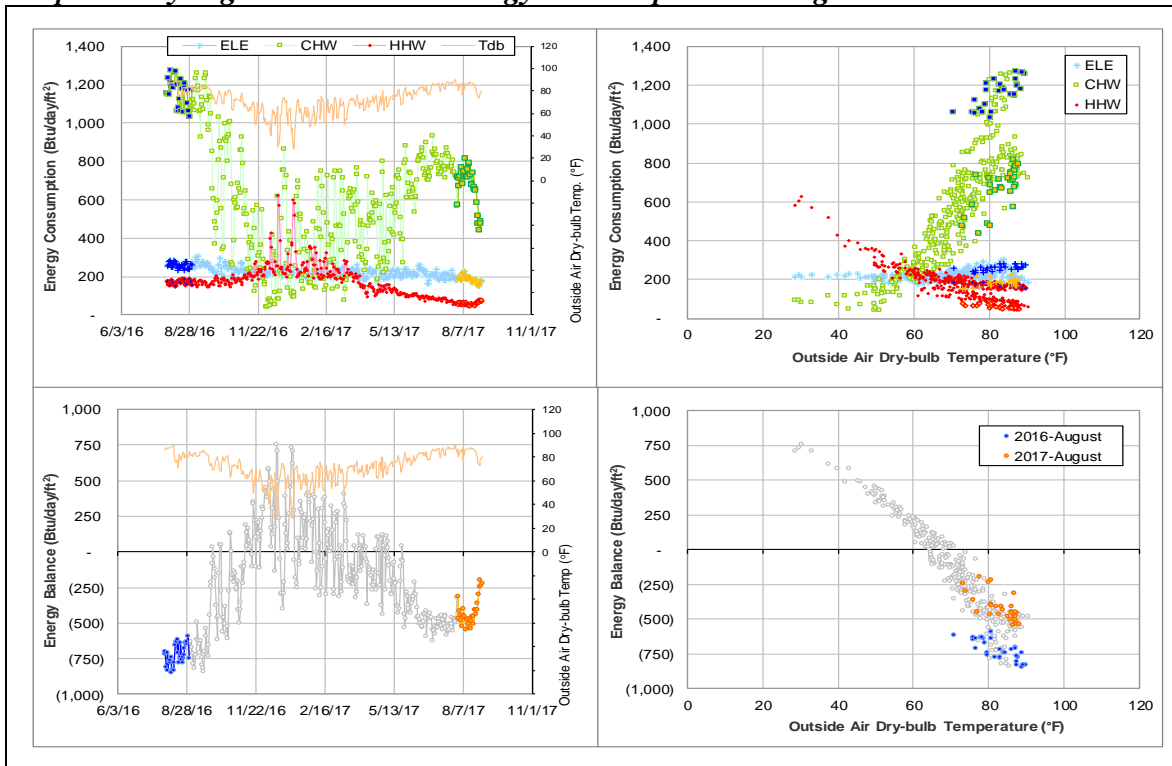

### *Detected issues in the energy balance and/or the consumption data*

Data Type	Description of data behaviors	Period
ELE, CHW and HHW	Consumption is decreasing gradually.	Since April 2017

### *Comments*

All ELE, CHW, and HHW consumption of this building has decreased since April 2017. Respectively, the three utilities are now about 100 Btu/day/ft<sup>2</sup> (35%), 400 Btu/day/ft<sup>2</sup> (35%), and 100 Btu/day/ft<sup>2</sup> (60%) lower than the same month in the previous year. However, the energy balance maintained the same pattern. Changes may have been made to this building.

TAMU / BLDG #: 0513

Figure III-108 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Doherty Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Munnerlyn Astronomy & Space Sciences Engineering T&E / BLDG #: 0514

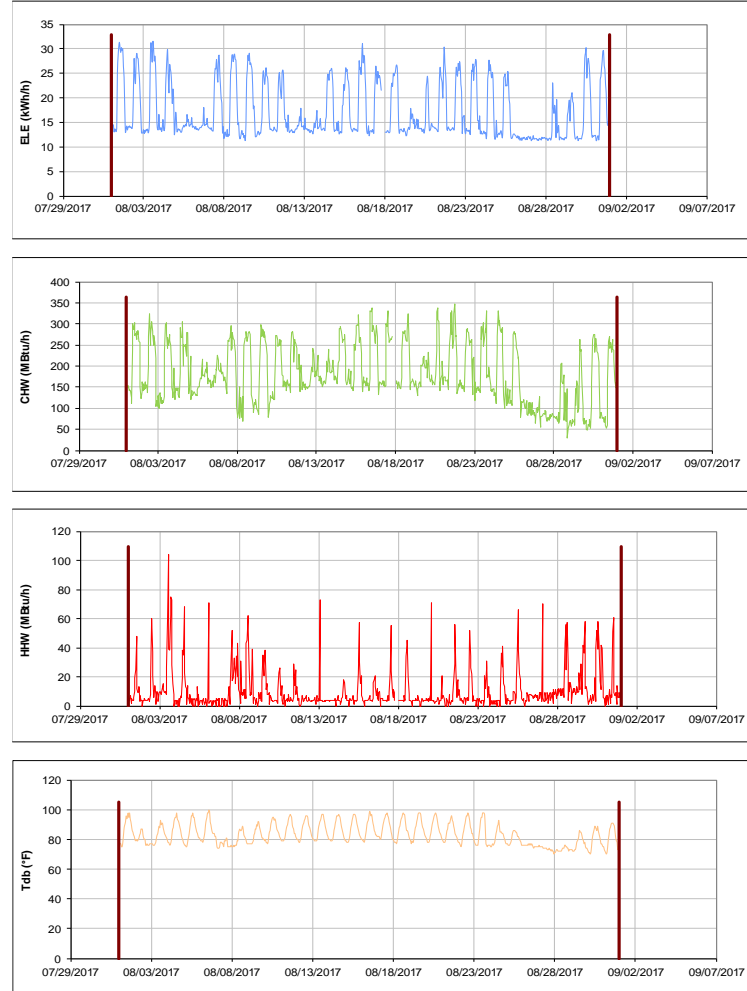

Figure III-109 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Munnerlyn Astronomy & Space Sciences Engineering during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Computing Services Center TAMU / BLDG #: 0516

Figure III-110 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Computing Services Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

DPC Annex

TAMU / BLDG #: 0517

Figure III-111 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for DPC Annex during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Zachry Engineering Education Complex

TAMU / BLDG #: 0518

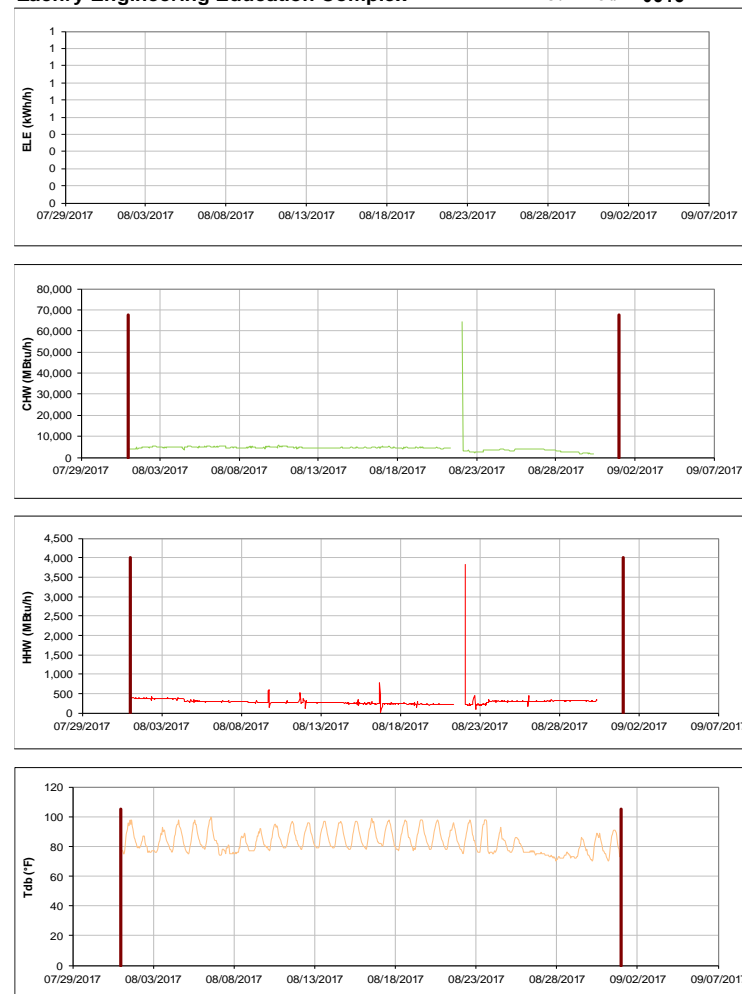

Figure III-112 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Zachry Engineering Education Complex during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

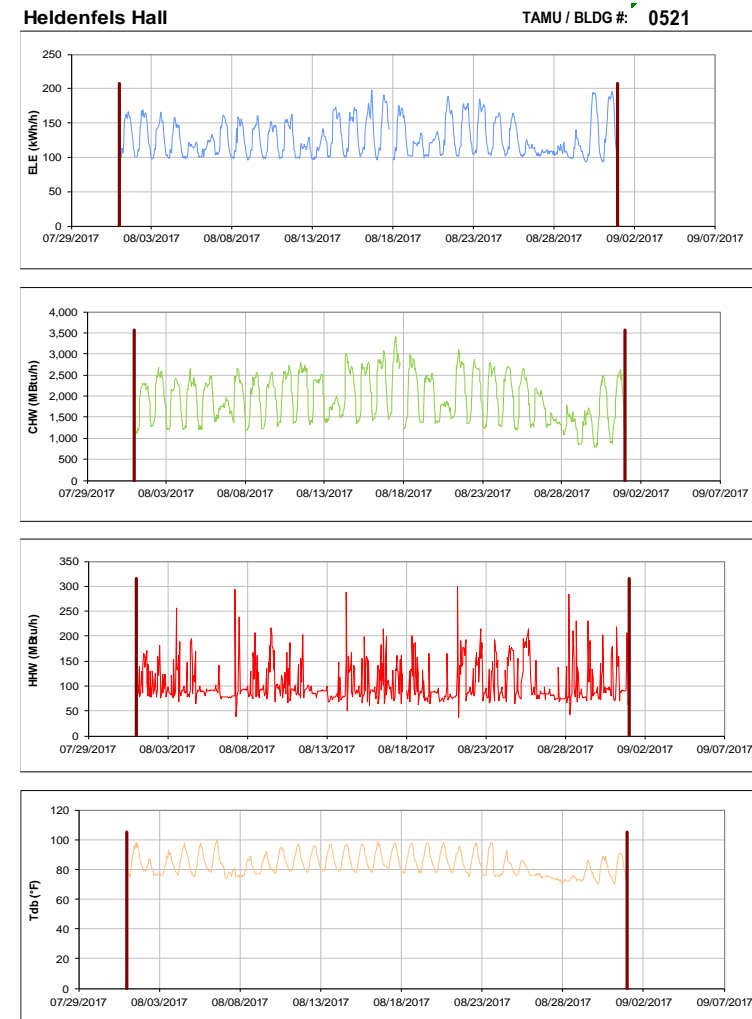

Figure III-113 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Beutel Health Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Figure III-114 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Heldenfels Hall during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

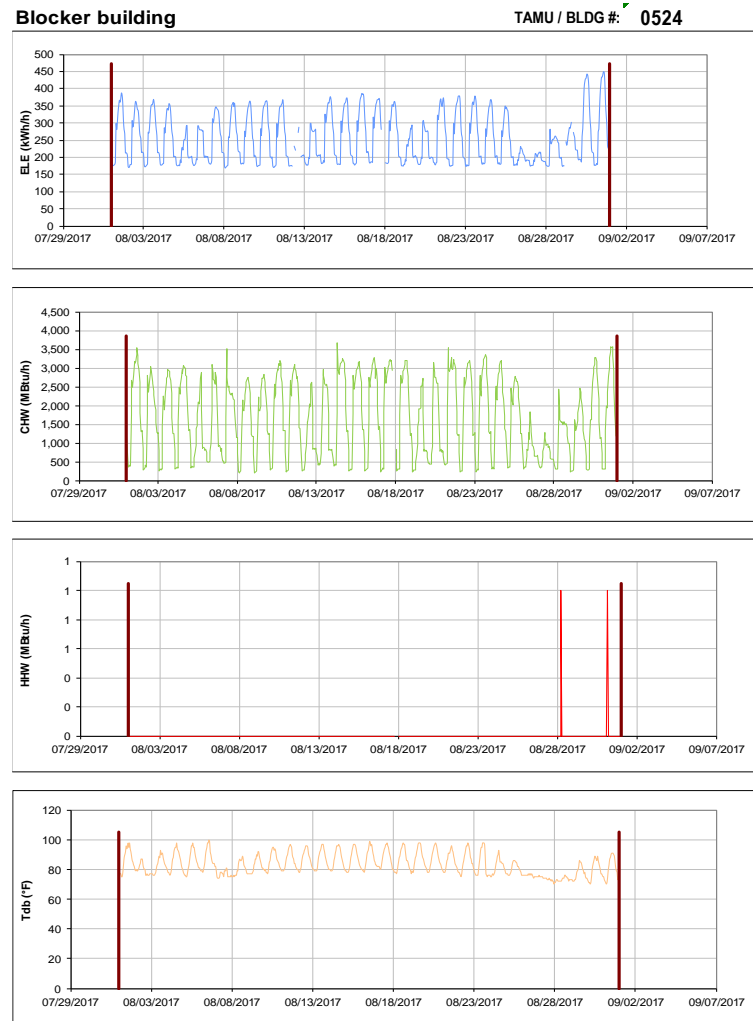

Figure III-115 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Blocker building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Figure III-116 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Clements Residence Hall during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Haas Residence Hall

TAMU / BLDG #: 0549

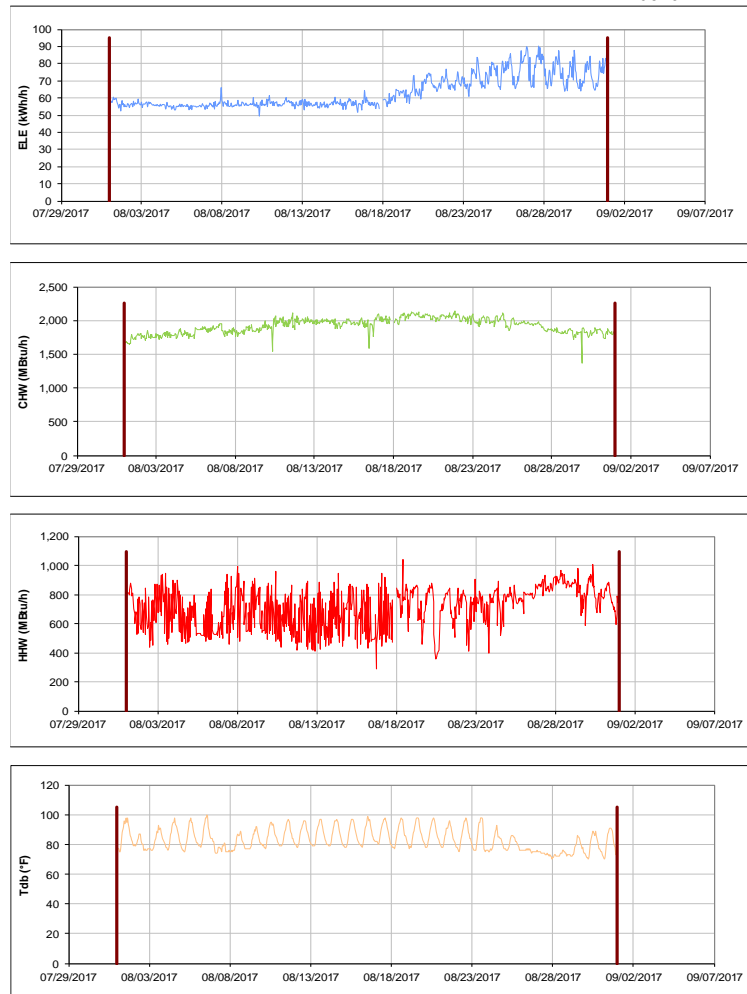

Figure III-117 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Haas Residence Hall during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

McFadden Residence Hall

TAMU / BLDG #: 0550

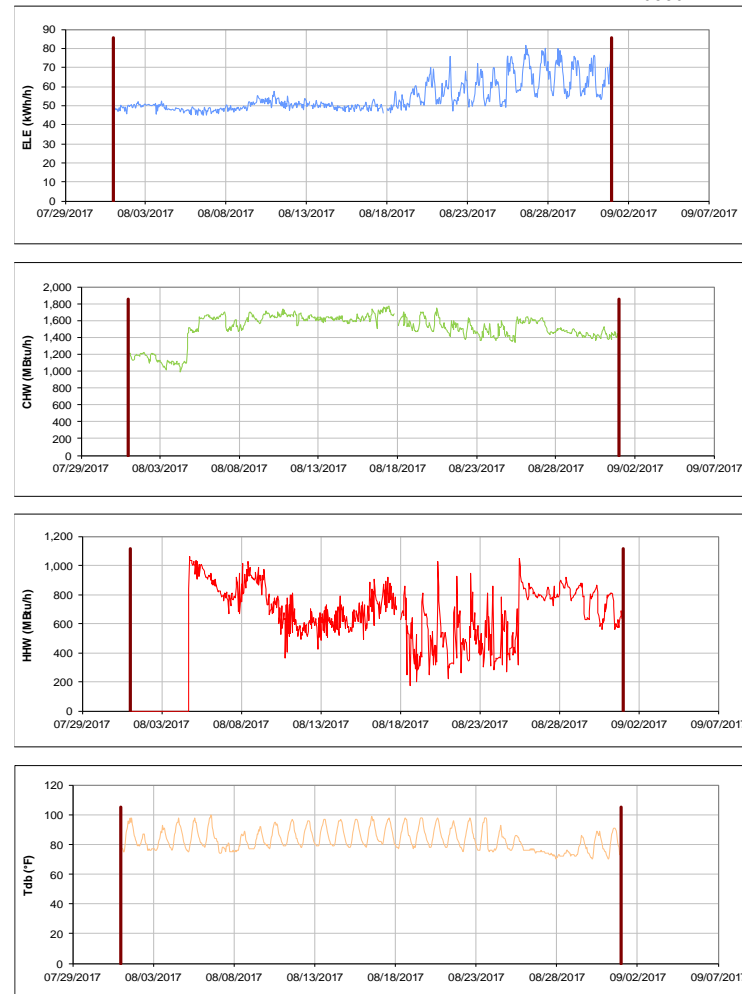

Figure III-118 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for McFadden Residence Hall during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Neeley Residence Hall

TAMU / BLDG #: 0652

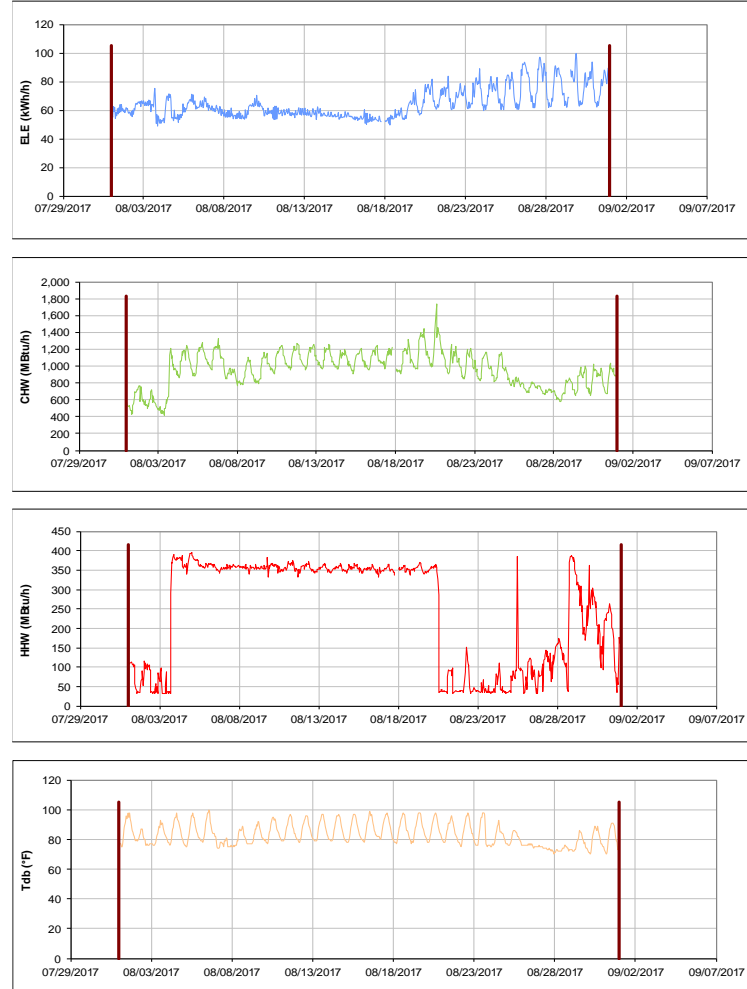

Figure III-119 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Neeley Residence Hall during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Hobby Residence Hall

TAMU / BLDG #: 0653

Figure III-120 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Hobby Residence Hall during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

# Wisembaker Engineering Research Center

TAMU / BLDG #: 0682

Figure III-121 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Wisembaker Engineering Research Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

# McNew Laboratory

TAMU / BLDG #: 0740

Figure III-122 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for McNew Laboratory during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

### Soil Testing Labs

TAMU / BLDG #: 0806

Figure III-123 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Soil Testing Labs during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

### Entomology Research Lab

TAMU / BLDG #: 0815

Figure III-124 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Entomology Research Lab during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**TVMC-Small Animal Building**

TAMU / BLDG #: 0880

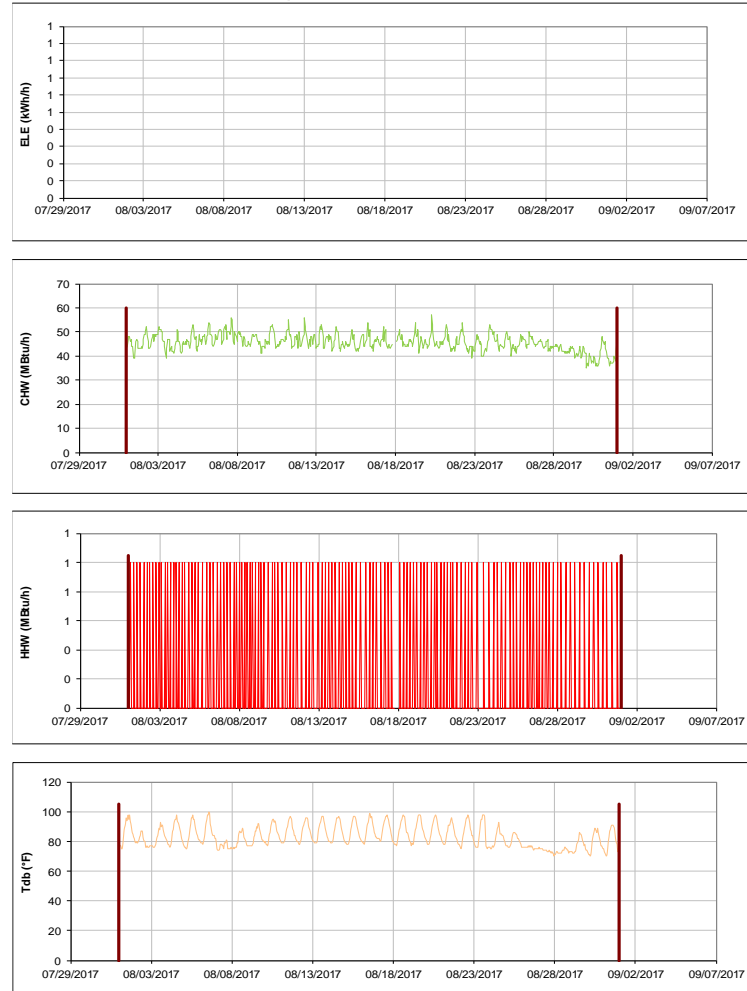

Figure III-125 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for TVMC-Small Animal Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**Dollar Data Center**

TAMU / BLDG #: 0971

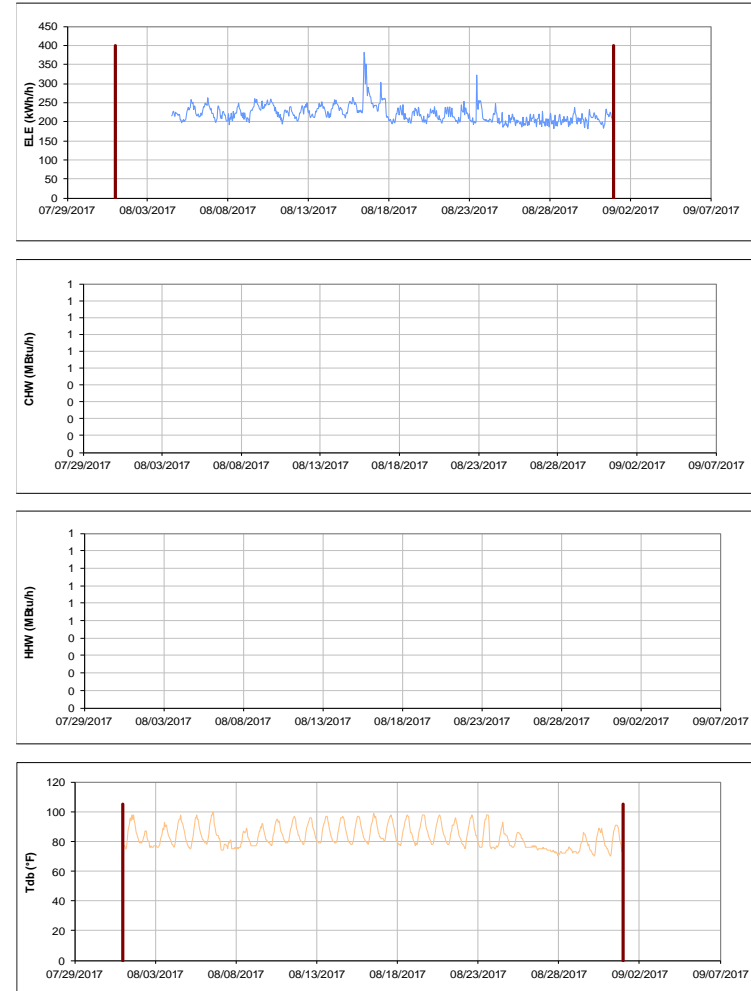

Figure III-126 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Dollar Data Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Figure III-127 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Laboratory Animal Care Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Figure III-128 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Vivarium III during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

# Veterinary Medicine Administration

TAMU / BLDG #: 1026

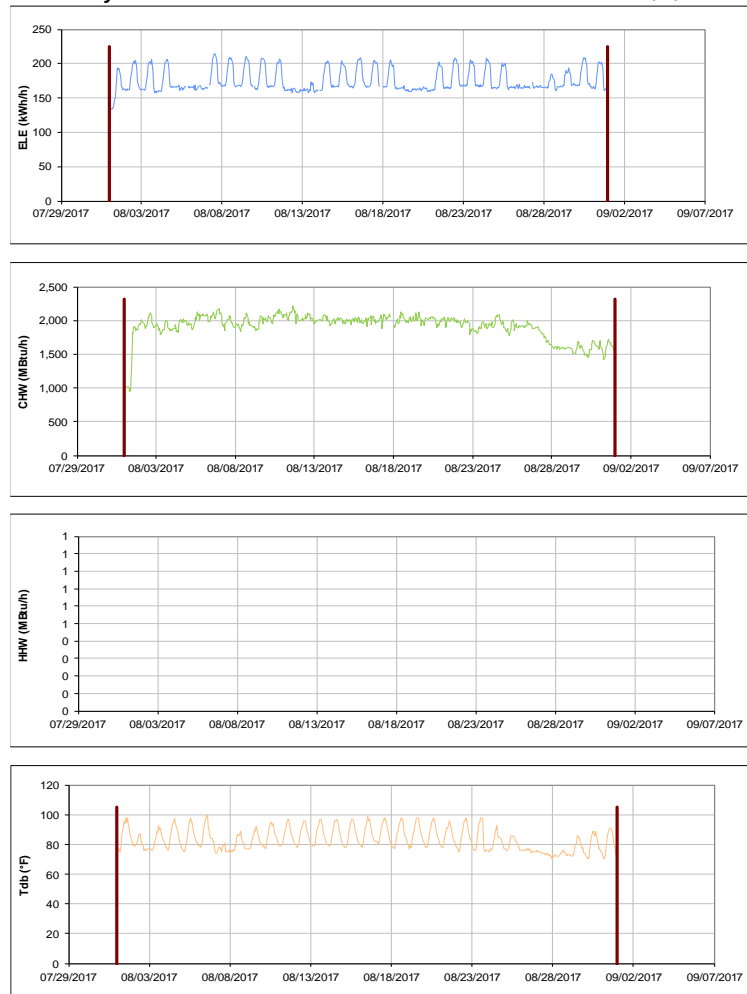

Figure III-129 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Veterinary Medicine Administration during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

# Texas Vet Med Diagnostic Lab

TAMU / BLDG #: 1041

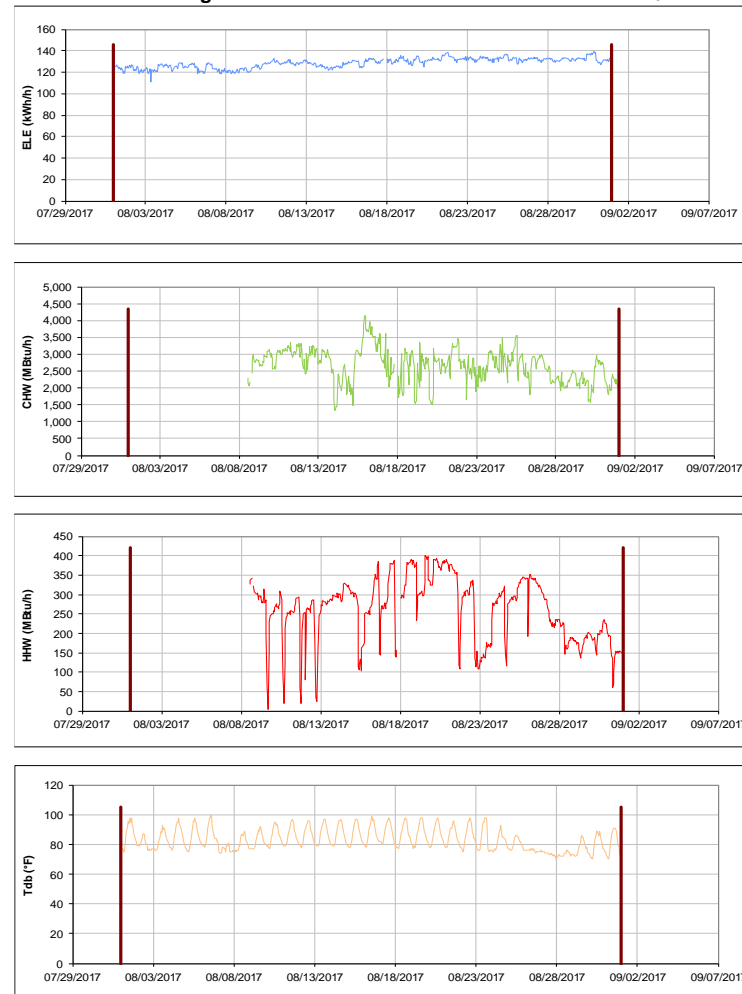

Figure III-130 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Texas Vet Med Diagnostic Lab during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**Forest Science Laboratory Building**

TAMU / BLDG #: 1042

Figure III-131 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Forest Science Laboratory Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**Veterinary Small Animal Hospital**

TAMU / BLDG #: 1085

Figure III-132 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Veterinary Small Animal Hospital during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Utilities Energy Office Annex

TAMU / BLDG #: 1089

Figure III-133 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Utilities Energy Office Annex during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Biological Control Facility

TAMU / BLDG #: 1146

Figure III-134 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Biological Control Facility during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**Physical Plant Administration & Shops**

TAMU / BLDG #: 1156

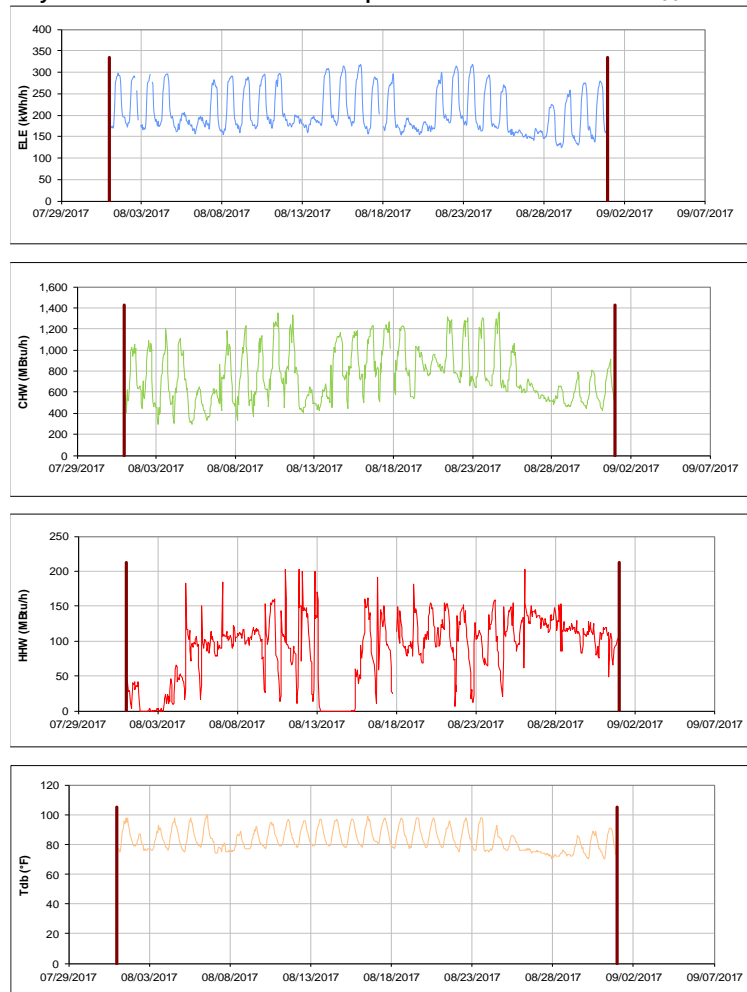

Figure III-135 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Physical Plant Administration & Shops during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**Veterinary Anatomic Pathology**

TAMU / BLDG #: 1184

Figure III-136 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Veterinary Anatomic Pathology during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**Veterinary Large Animal Hospital**

TAMU / BLDG #: 1194

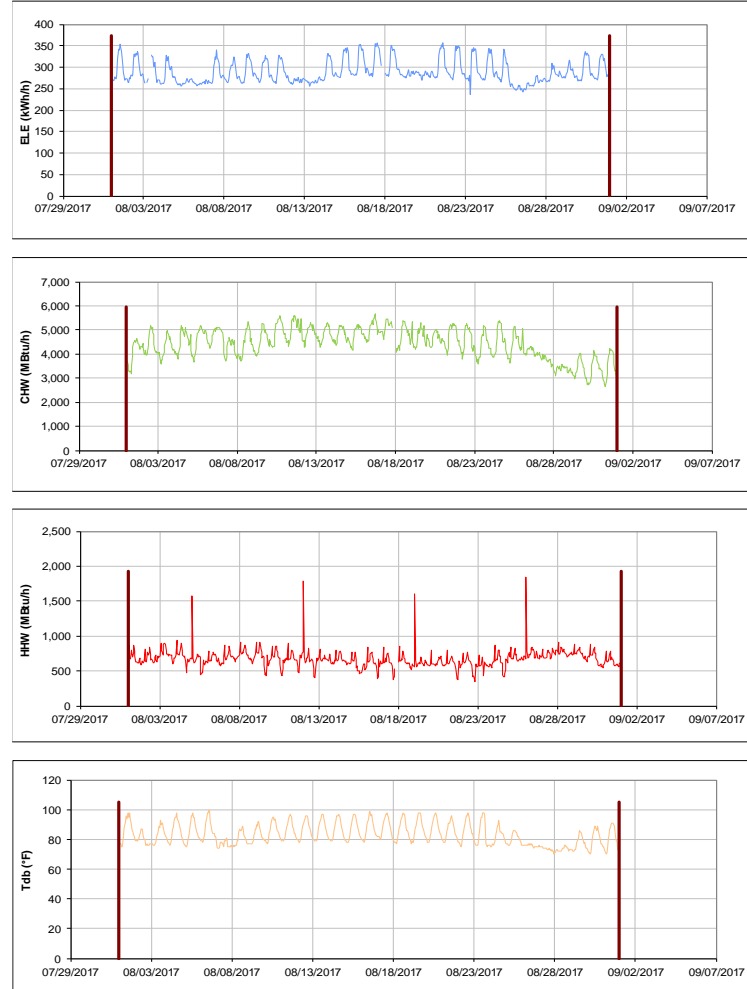

Figure III-137 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Veterinary Large Animal Hospital during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**Veterinary Research Building**

TAMU / BLDG #: 1197

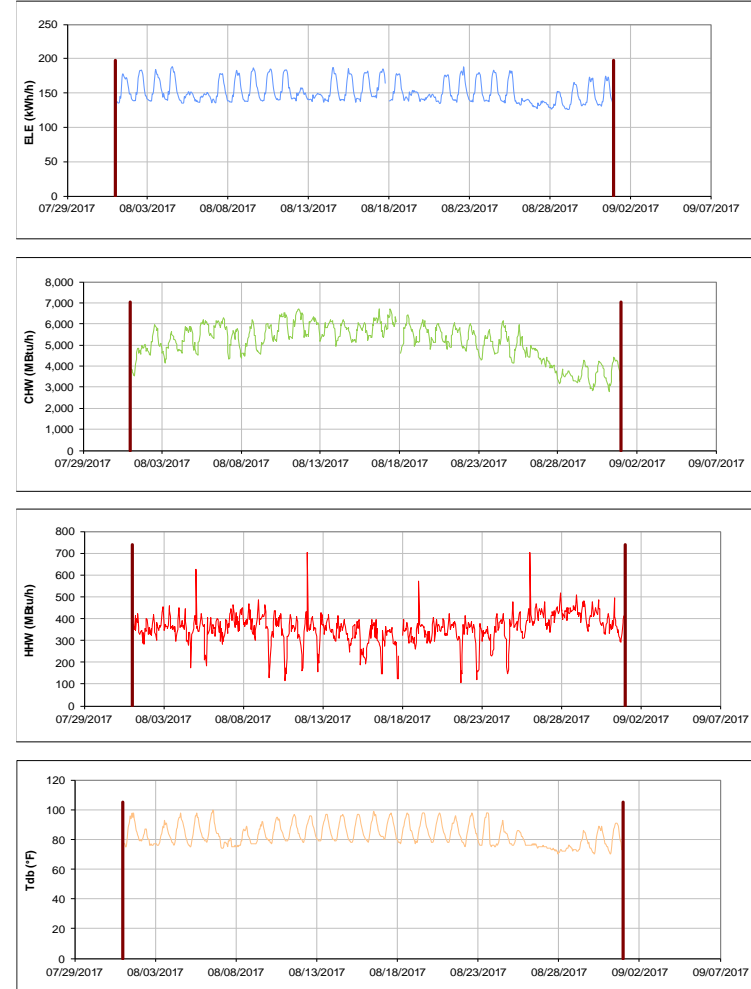

Figure III-138 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Veterinary Research Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Buzbee Leadership Learning Center

TAMU / BLDG #: 1402

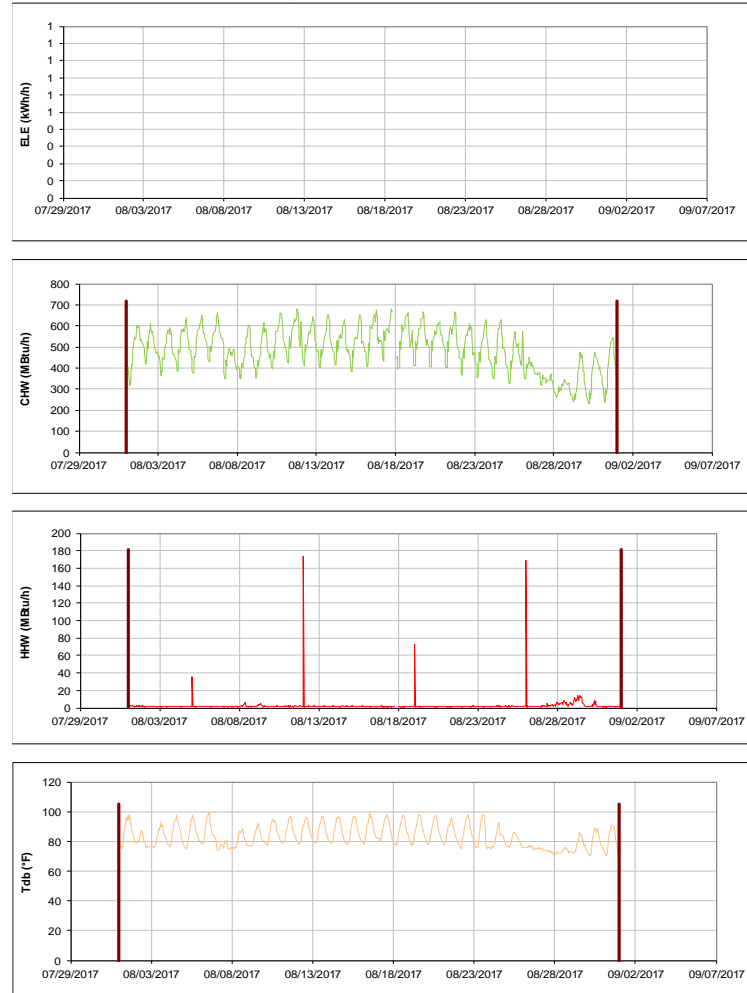

Figure III-139 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Buzbee Leadership Learning Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

H. Grady Ash, Jr. '58 Leadership Learning Center TAMU / BLDG #: 1403

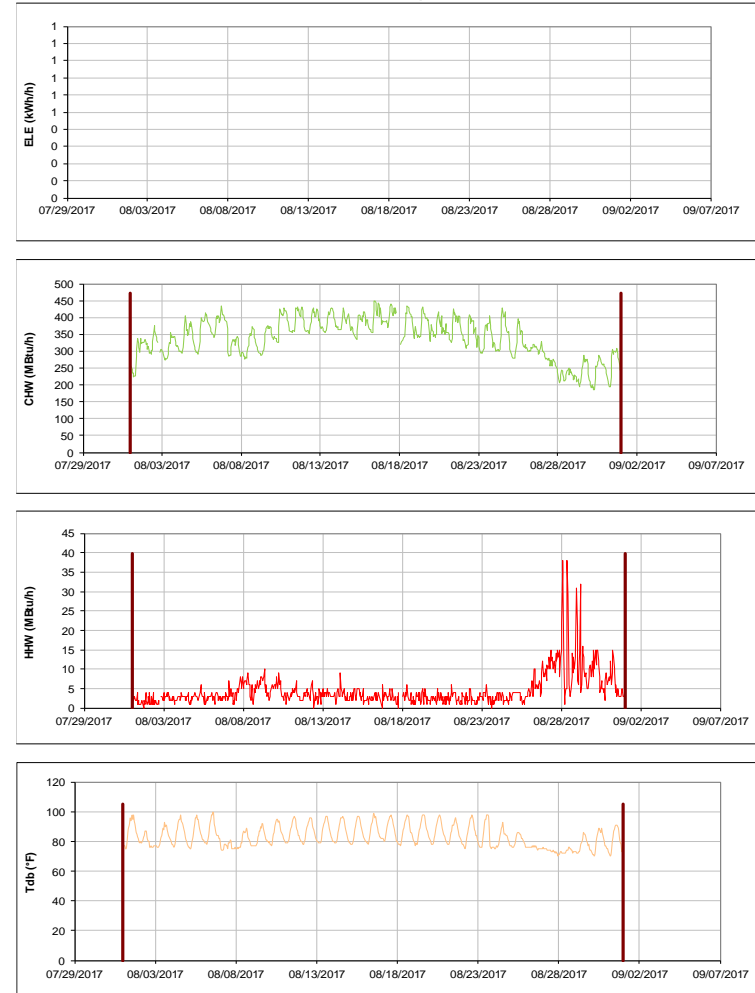

Figure III-140 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for H. Grady Ash, Jr. '58 Leadership Learning Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Plank LLC

TAMU / BLDG #: 1404

Figure III-141 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Plank LLC during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Ash II LLC

TAMU / BLDG #: 1405

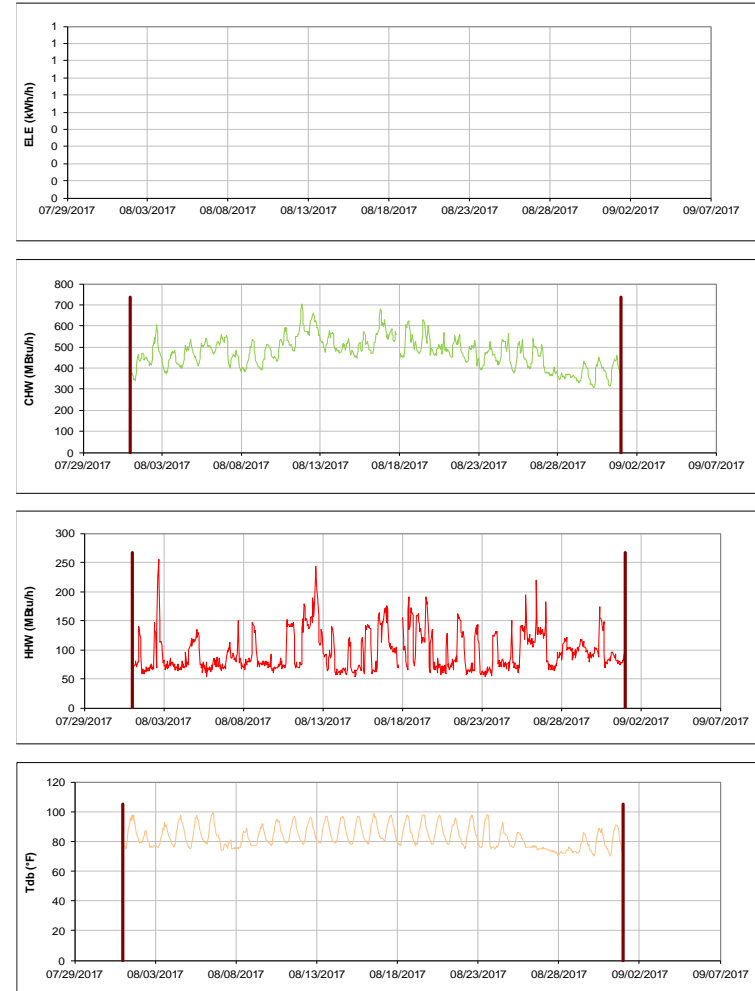

Figure III-142 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Ash II LLC during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Hullabaloo Residence Hall

TAMU / BLDG #: 1416

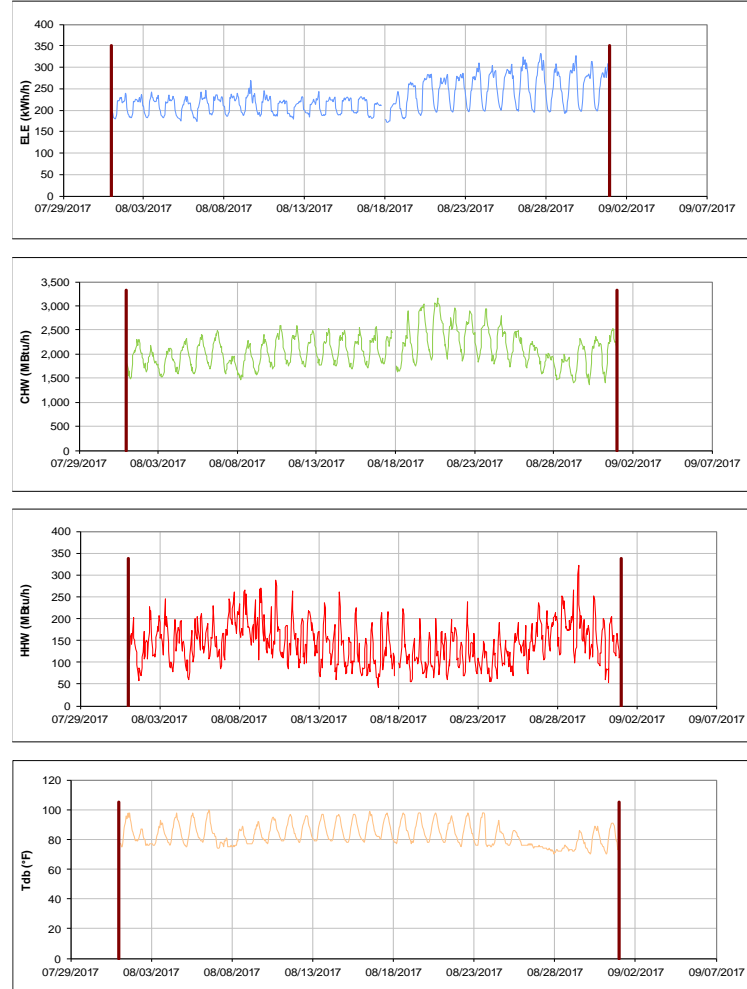

Figure III-143 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Hullabaloo Residence Hall during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

University Apartments - Laundry at the Gardens

TAMU / BLDG #: 1450

Figure III-144 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - Laundry at the Gardens during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Figure III-145 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens J during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

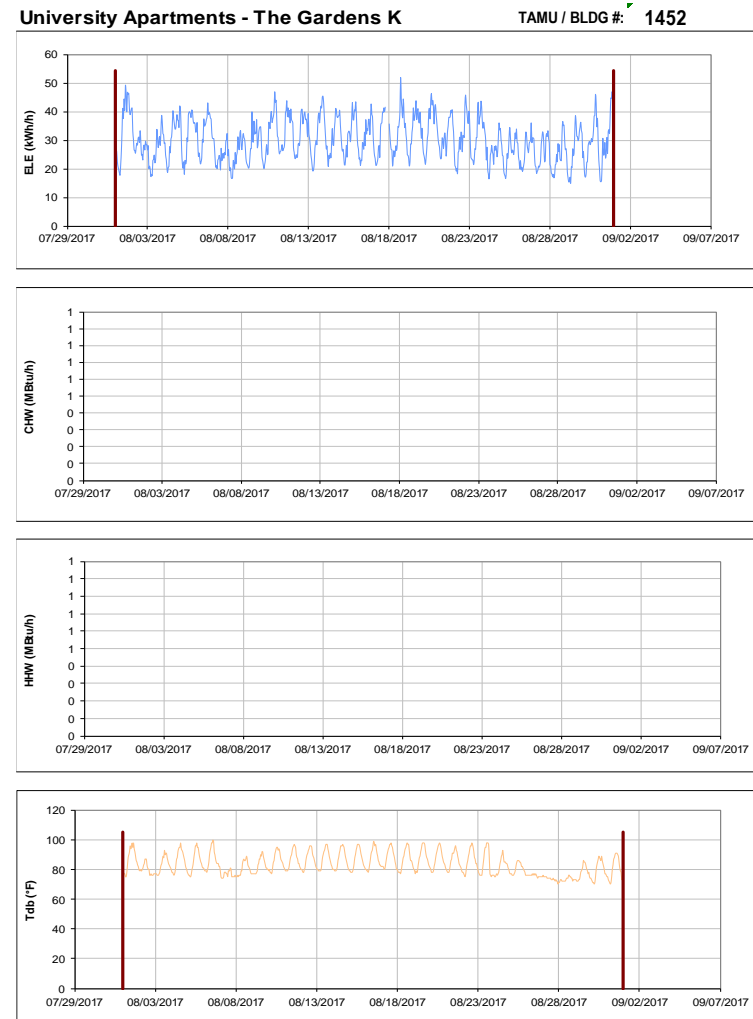

Figure III-146 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens K during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Figure III-147 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens L during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

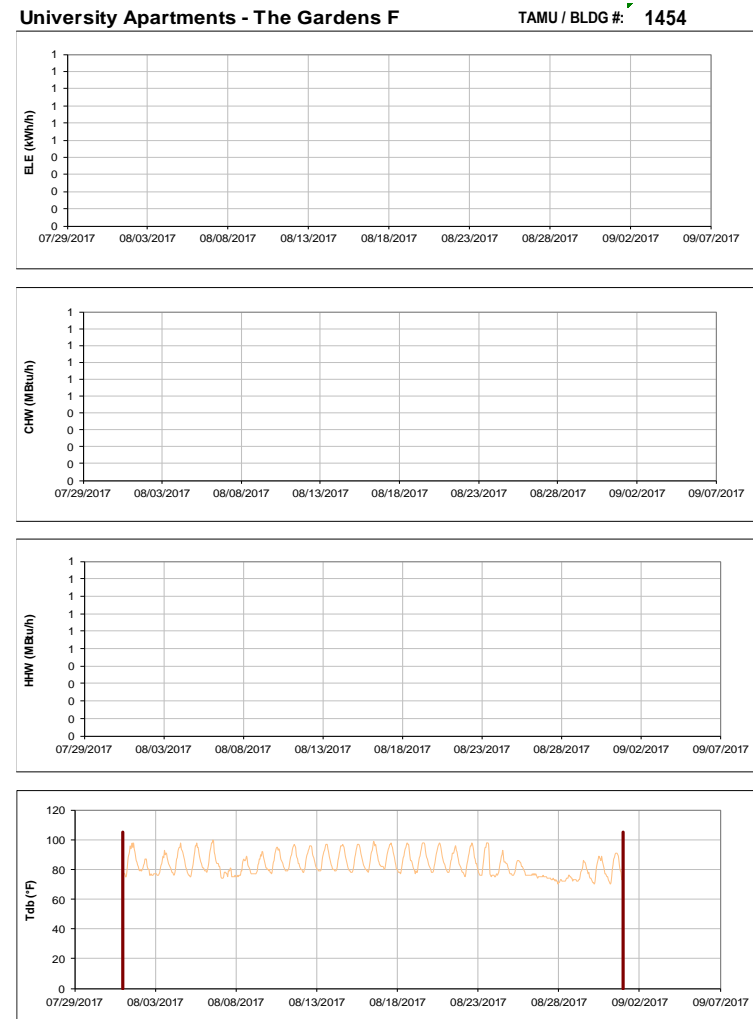

Figure III-148 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens F during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

University Apartments - The Gardens G

TAMU / BLDG #: 1455

Figure III-149 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens G during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

University Apartments - The Gardens H

TAMU / BLDG #: 1456

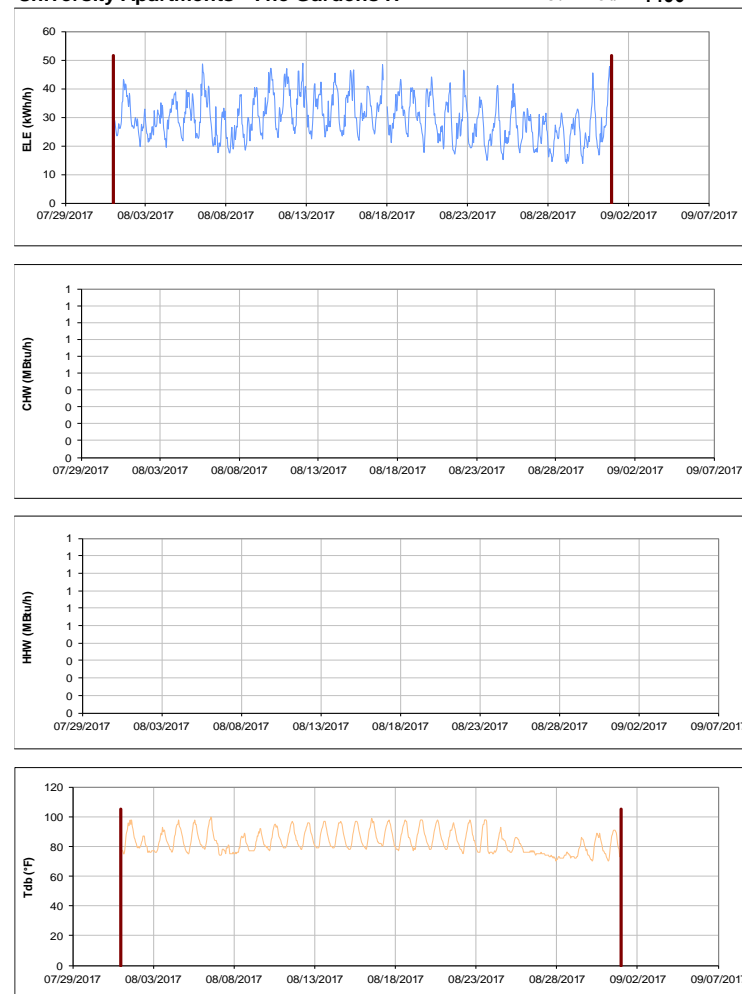

Figure III-150 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens H during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

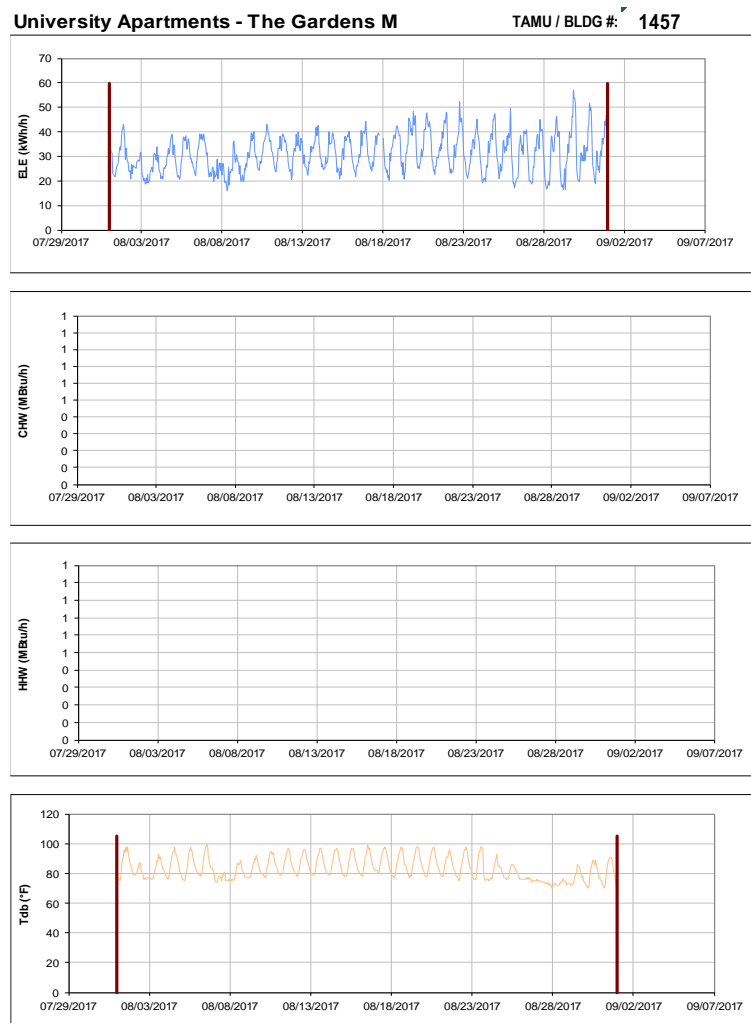

Figure III-151 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens M during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

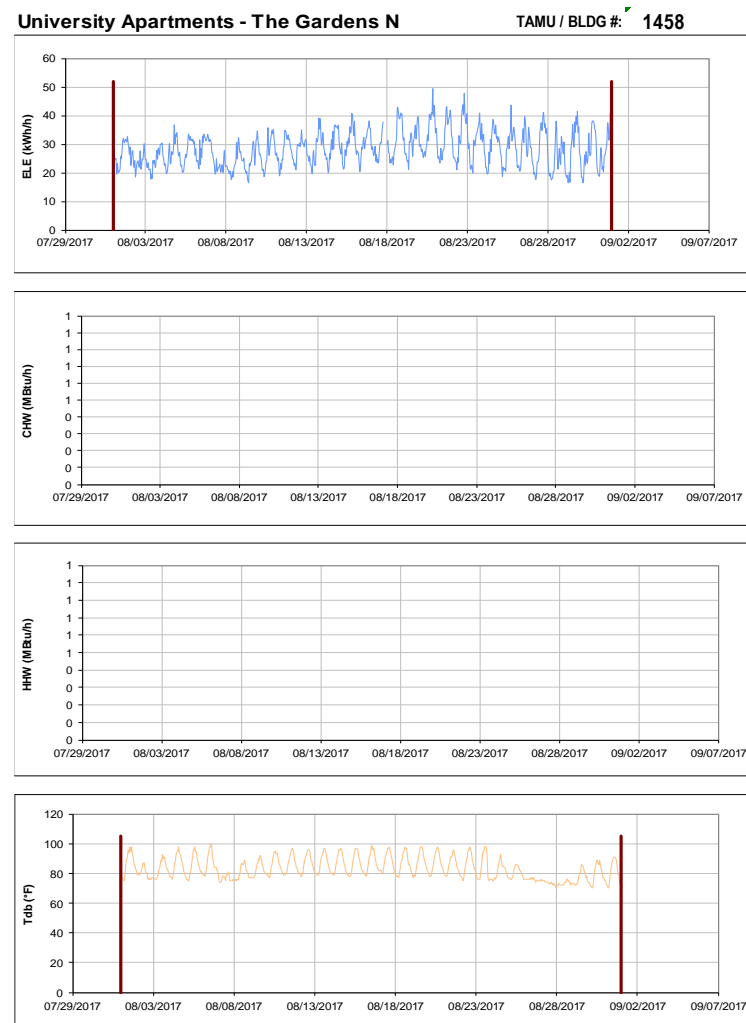

Figure III-152 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens N during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Figure III-153 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens P during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

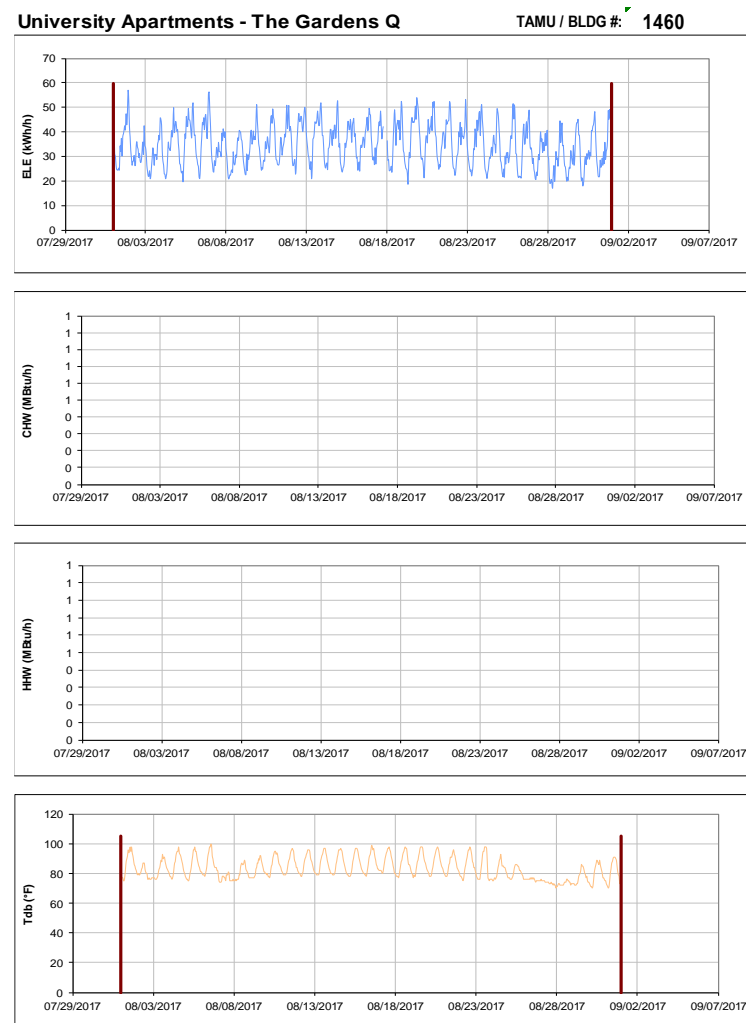

Figure III-154 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for University Apartments - The Gardens Q during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Utilities & Energy Services Business Office

TAMU / BLDG #: 1497

Figure III-155 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Utilities & Energy Services Business Office during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Kleberg Center

TAMU / BLDG #: 1501

Figure III-156 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Kleberg Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Figure III-157 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Heep Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Figure III-158 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Cater-Mattil Hall during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Figure III-159 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Reynolds Medical Sciences Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

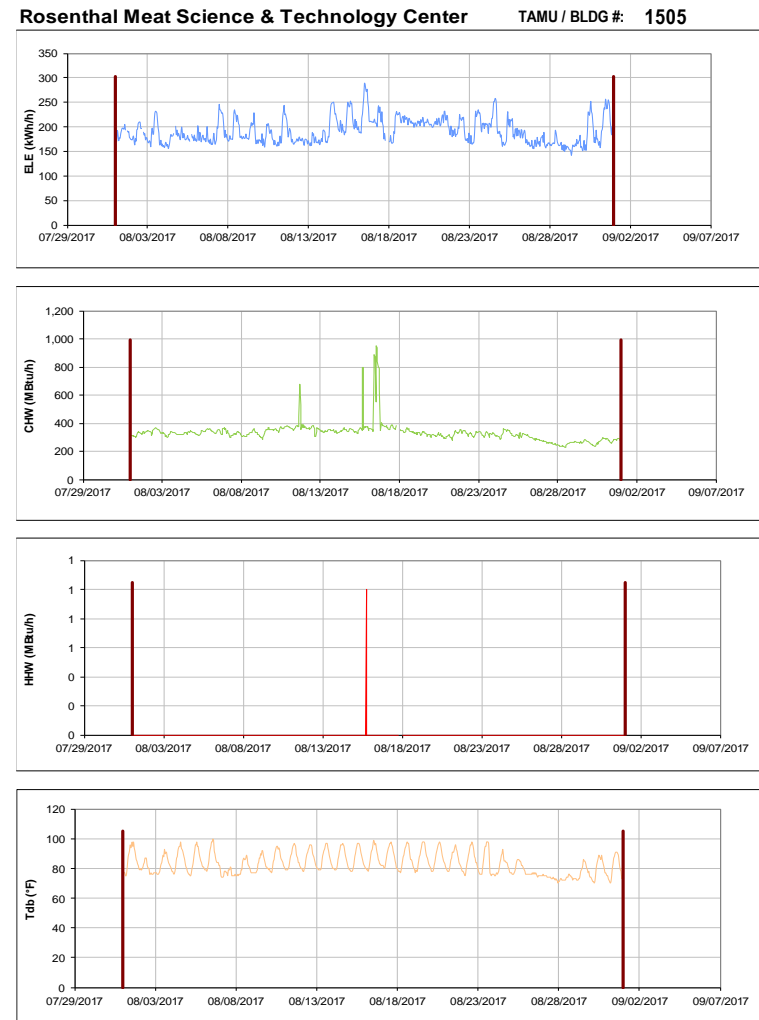

Figure III-160 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Rosenthal Meat Science & Technology Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

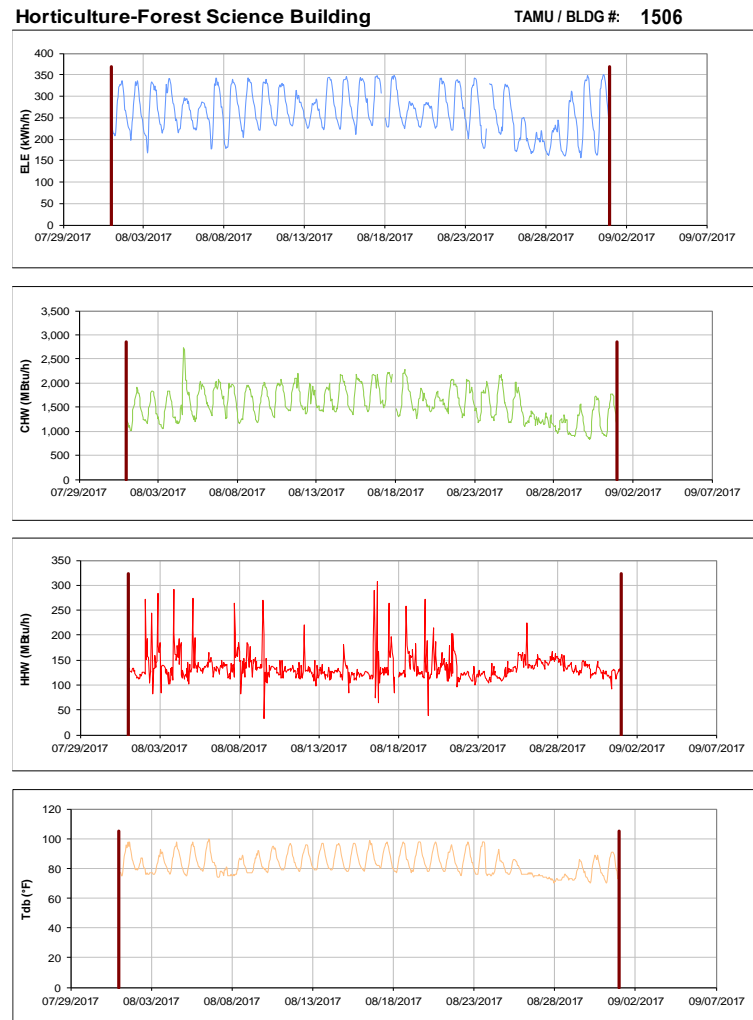

Figure III-161 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Horticulture-Forest Science Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

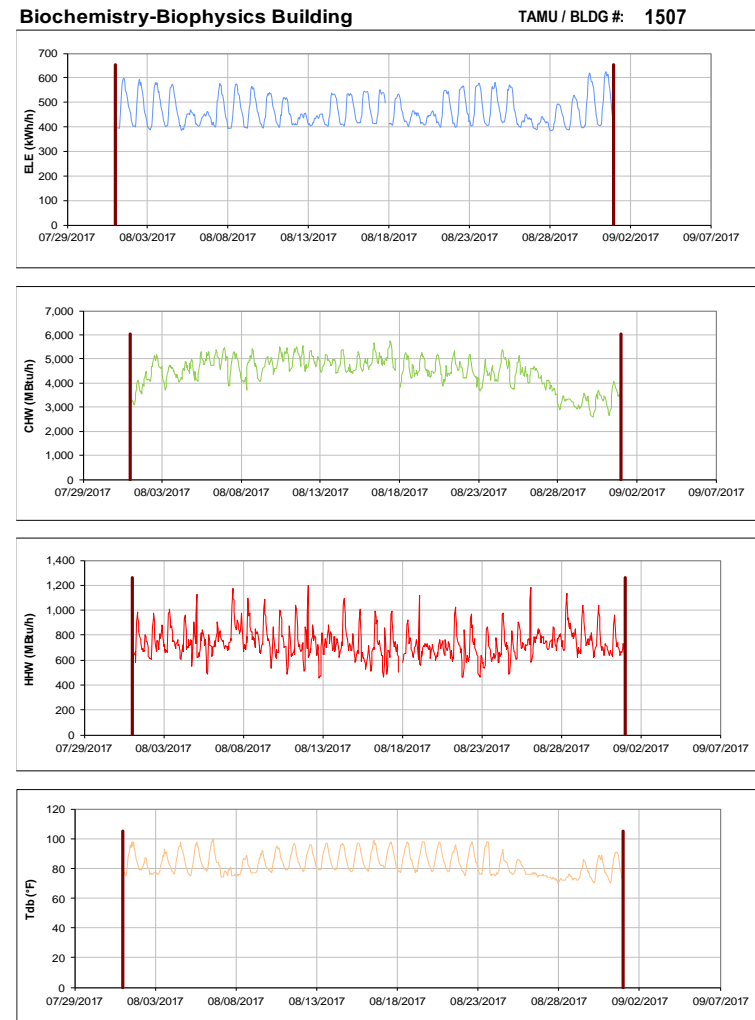

Figure III-162 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Biochemistry-Biophysics Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Price Hobgood Ag. Engineering Research Lab TAMU / BLDG #: 1508

Figure III-163 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Price Hobgood Ag. Engineering Research Lab during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Medical Sciences Library TAMU / BLDG #: 1509

Figure III-164 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Medical Sciences Library during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

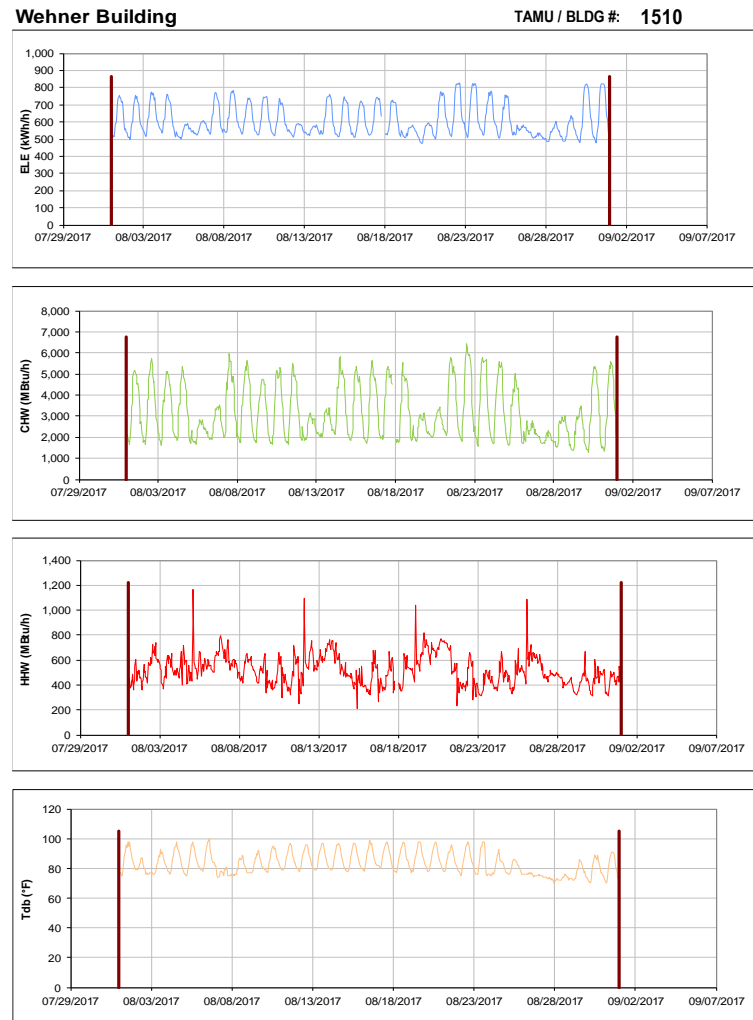

Figure III-165 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Wehner Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

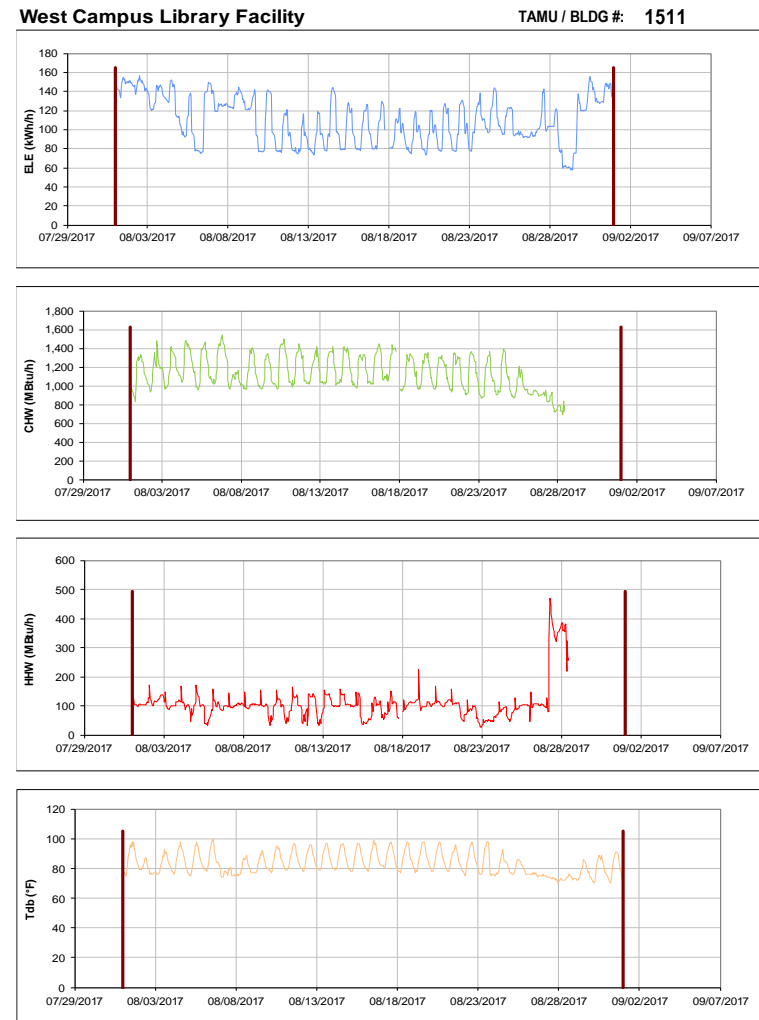

Figure III-166 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for West Campus Library Facility during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

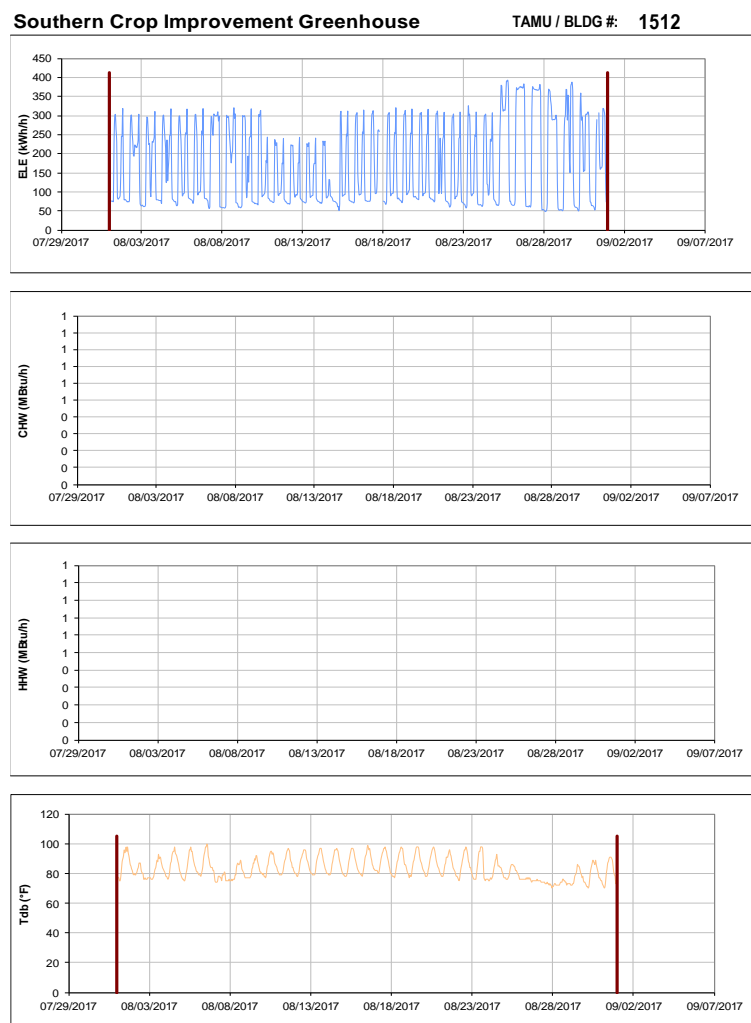

Figure III-167 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Southern Crop Improvement Greenhouse during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

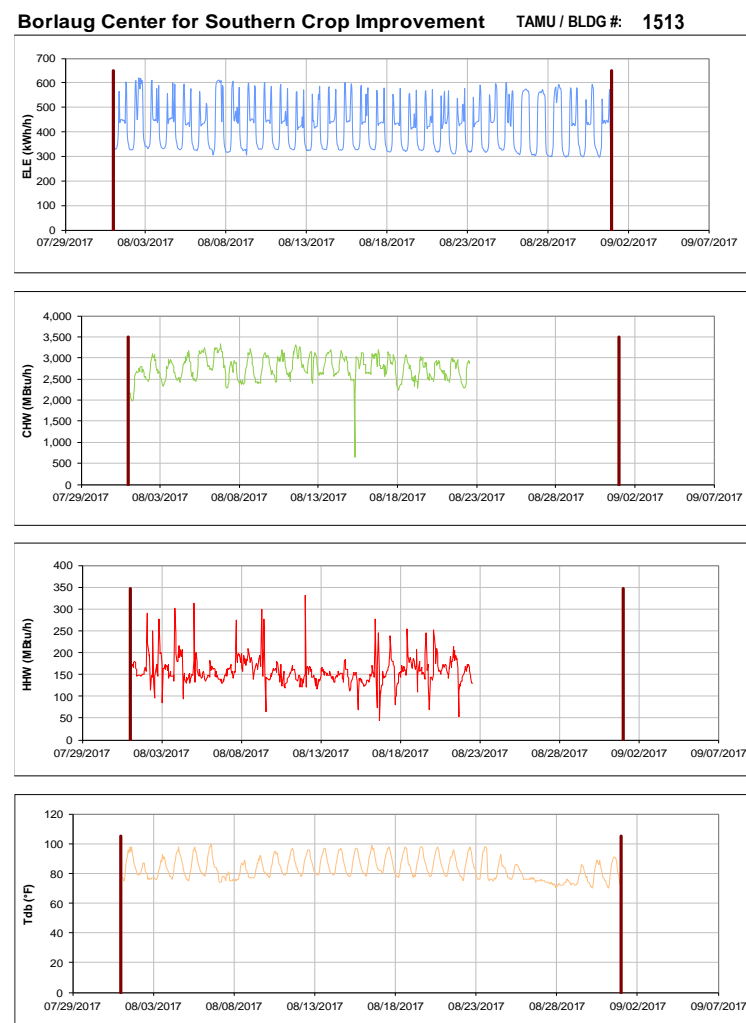

Figure III-168 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Borlaug Center for Southern Crop Improvement during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**TX School of Rural Public Health**

TAMU / BLDG #: 1518

Figure III-169 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for TX School of Rural Public Health during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**Nuclear Magnetic Resonance Facility**

TAMU / BLDG #: 1525

Figure III-170 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Nuclear Magnetic Resonance Facility during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

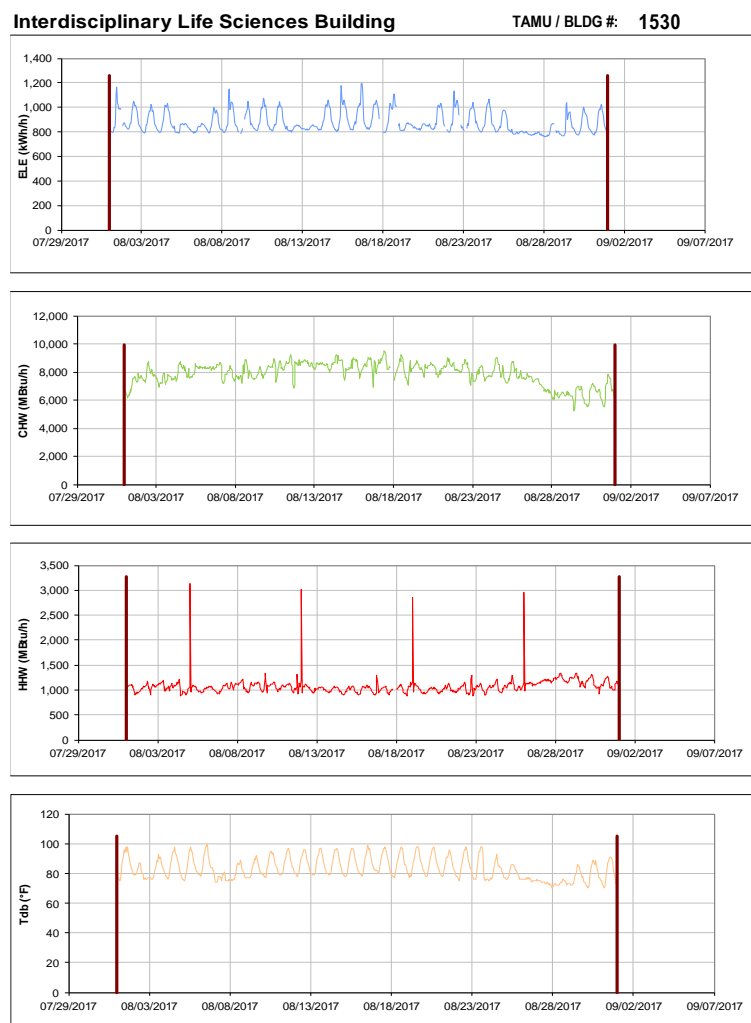

Figure III-171 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Interdisciplinary Life Sciences Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

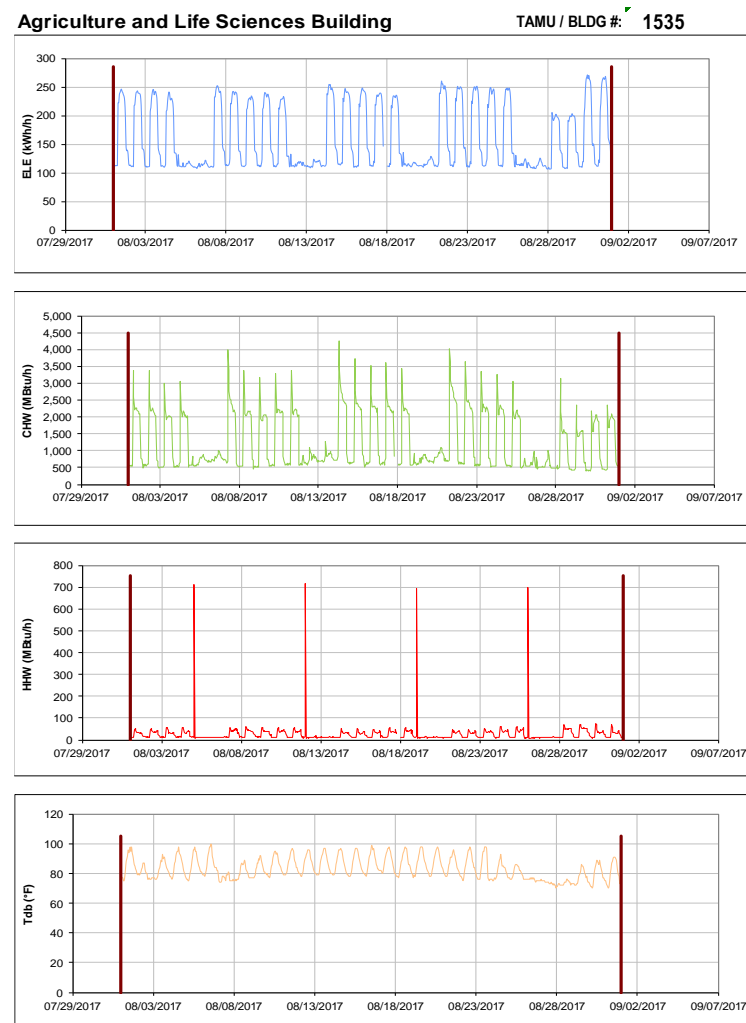

Figure III-172 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Agriculture and Life Sciences Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Figure III-173 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for AgriLife Services Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Figure III-174 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Wildlife Fisheries & Ecological Sciences Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Figure III-175 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Agriculture Program Visitors Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

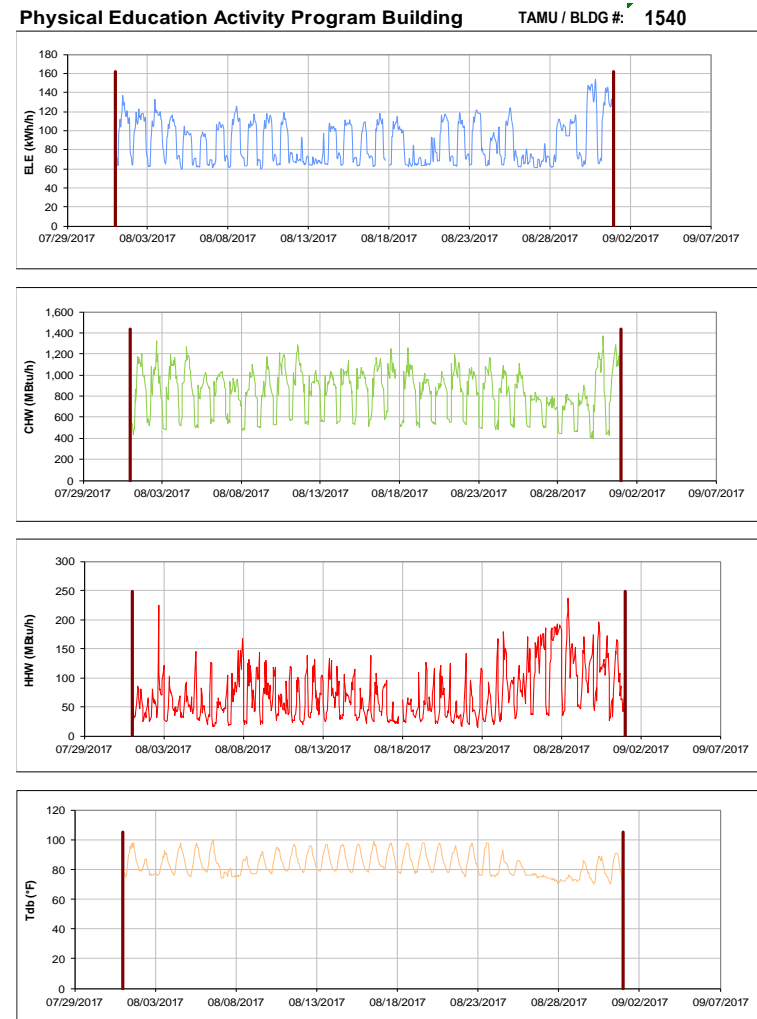

Figure III-176 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Physical Education Activity Program Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Human Clinical Research Building

TAMU / BLDG #: 1542

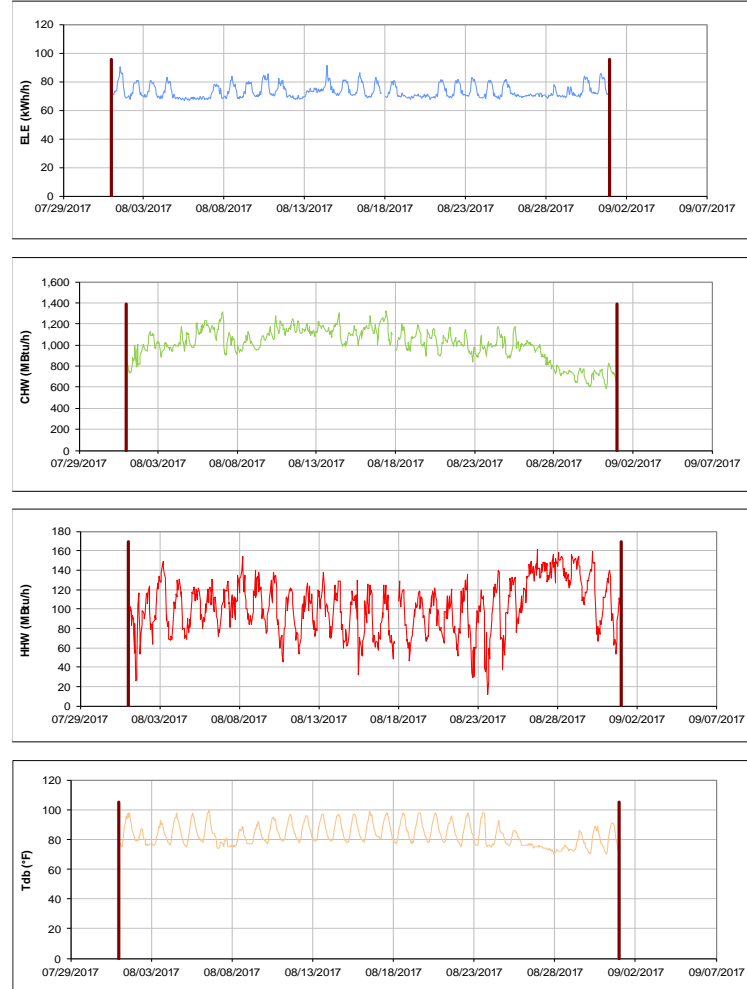

Figure III-177 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Human Clinical Research Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Cain Garage

TAMU / BLDG #: 1544

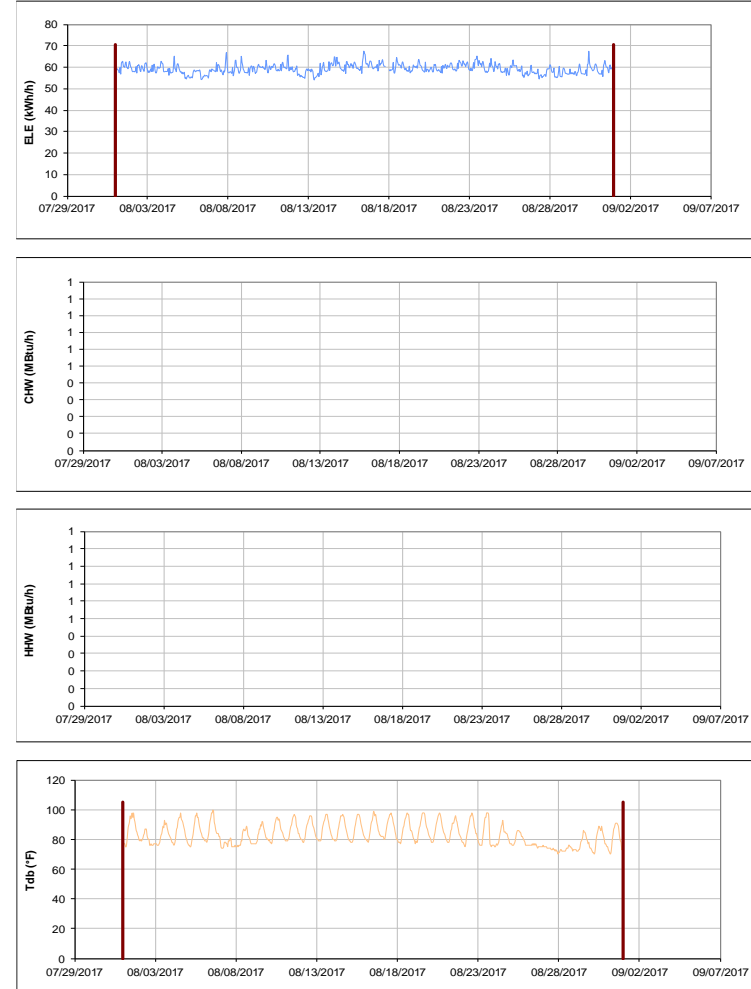

Figure III-178 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Cain Garage during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Olsen Field at Bluebell Park

TAMU / BLDG #: 1550

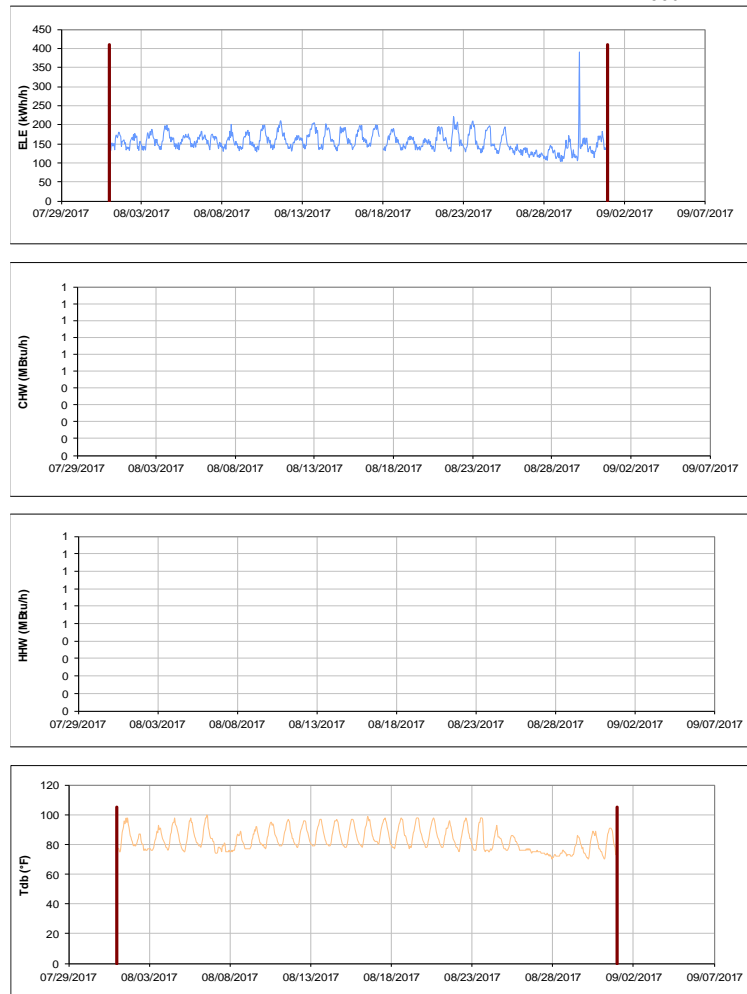

Figure III-179 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Olsen Field at Bluebell Park during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Reed Arena and Cox-McFerrin Center

TAMU / BLDG #: 554-1558

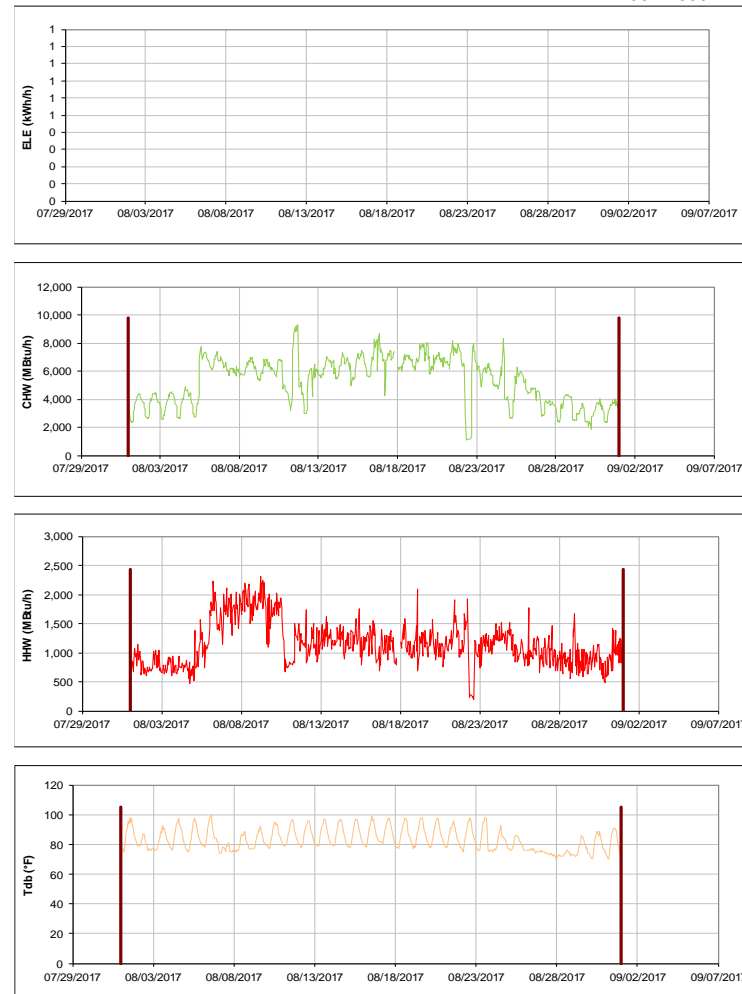

Figure III-180 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Reed Arena and Cox-McFerrin Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

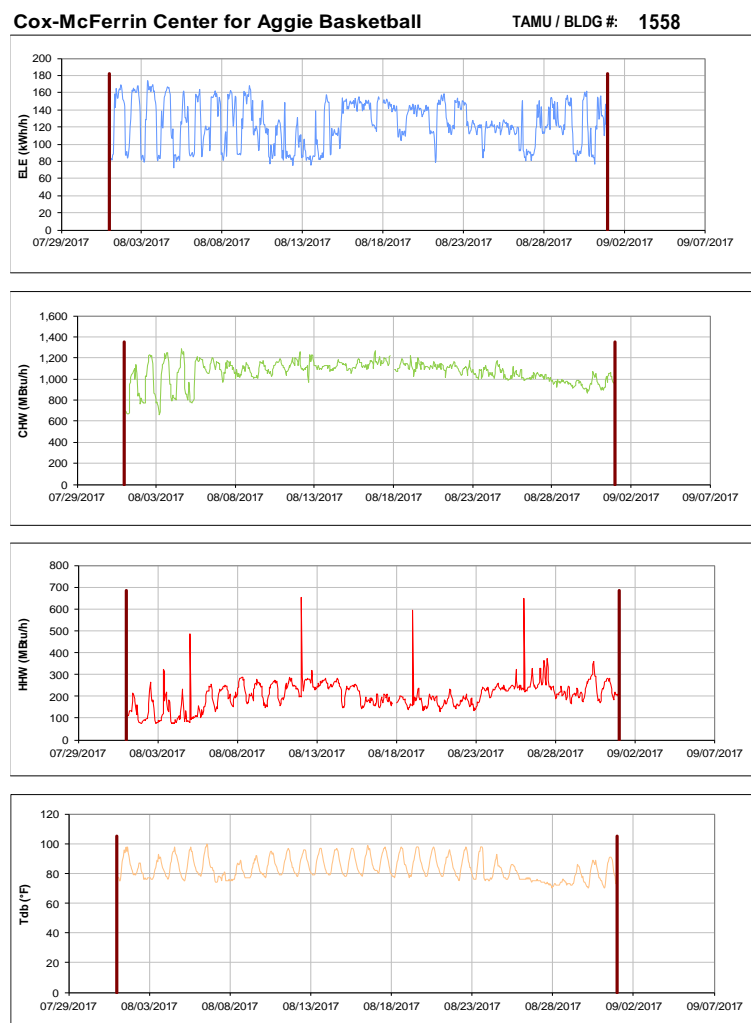

Figure III-181 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Cox-McFerrin Center for Aggie Basketball during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

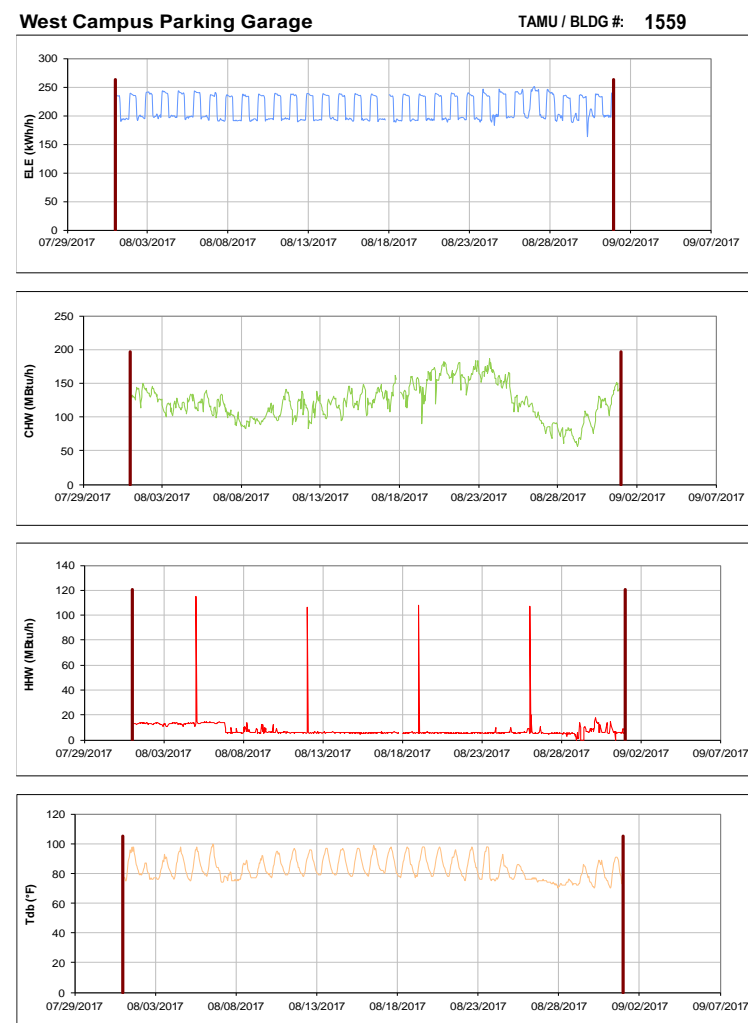

Figure III-182 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for West Campus Parking Garage during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**Student Recreation Center**

TAMU / BLDG #: 1560

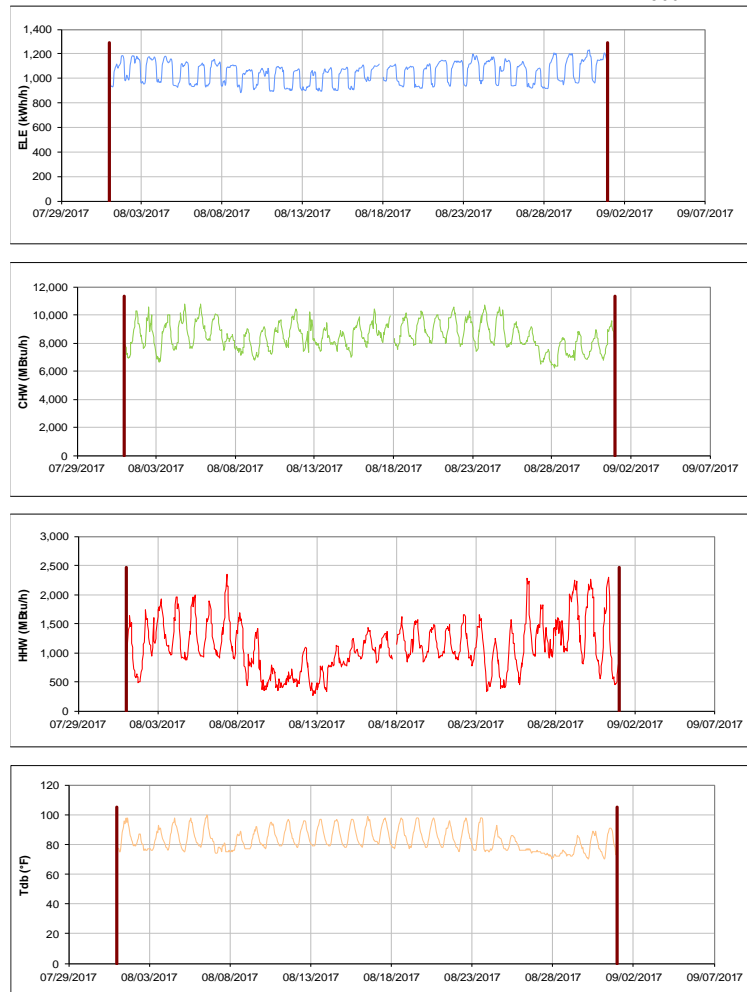

Figure III-183 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Student Recreation Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**White Creek Apartment 1 and White Creek Apts Activity Center**

TAMU / BLDG #: 589-1590

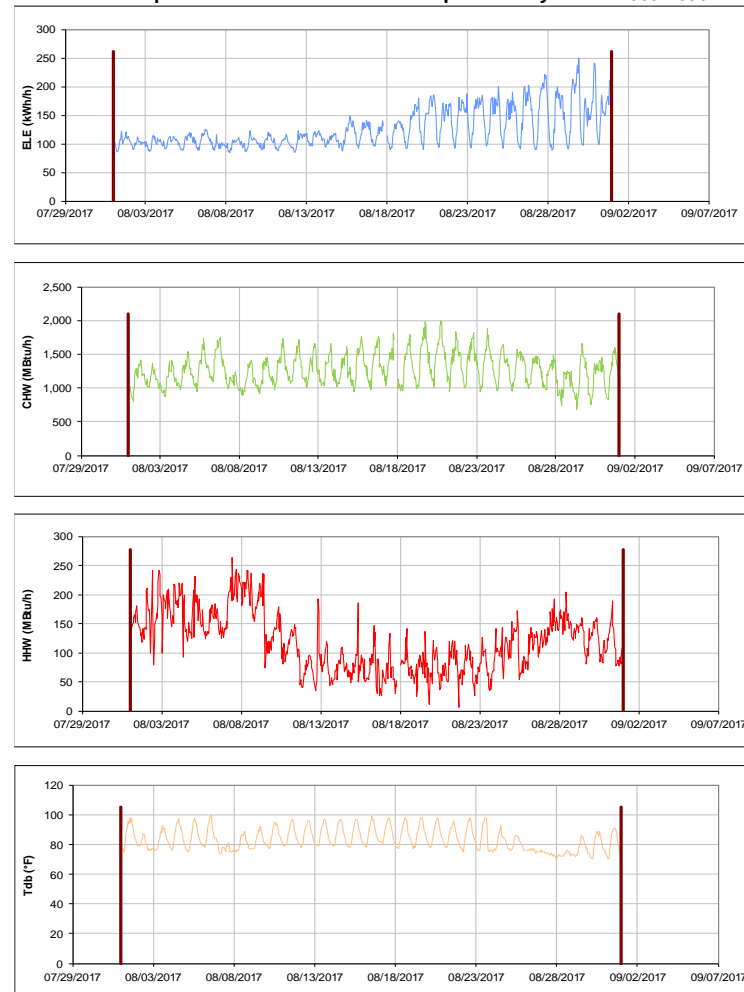

Figure III-184 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for White Creek Apartment 1 and White Creek Apts Activity Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, T

White Creek Apartment 2

TAMU / BLDG #: 1591

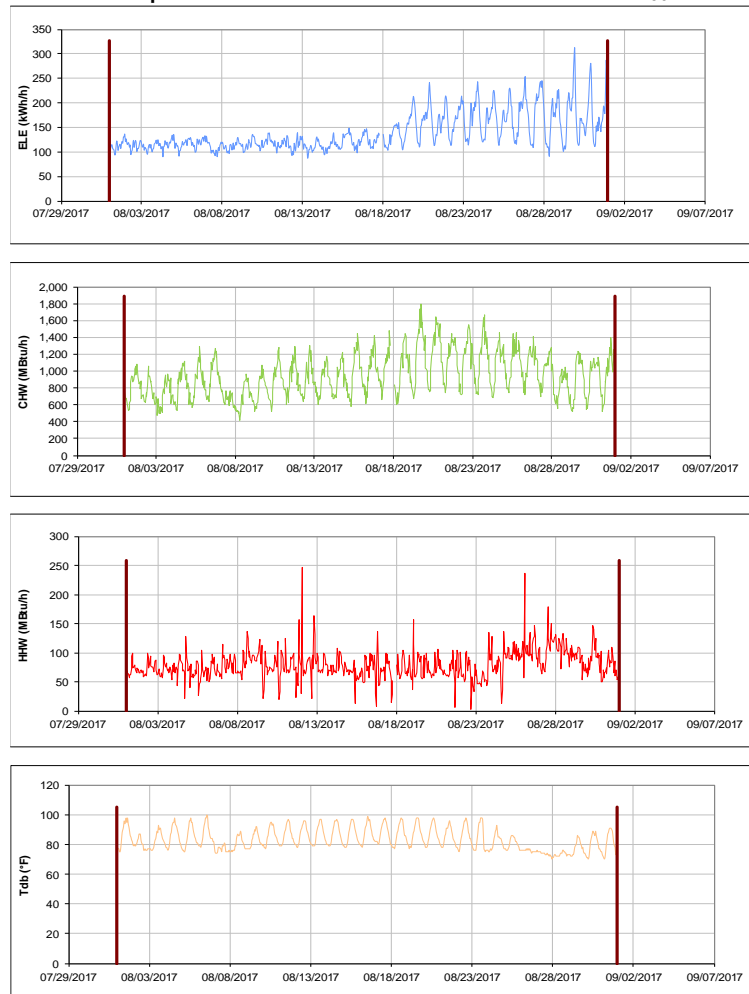

Figure III-185 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for White Creek Apartment 2 during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

White Creek Apartment 3

TAMU / BLDG #: 1592

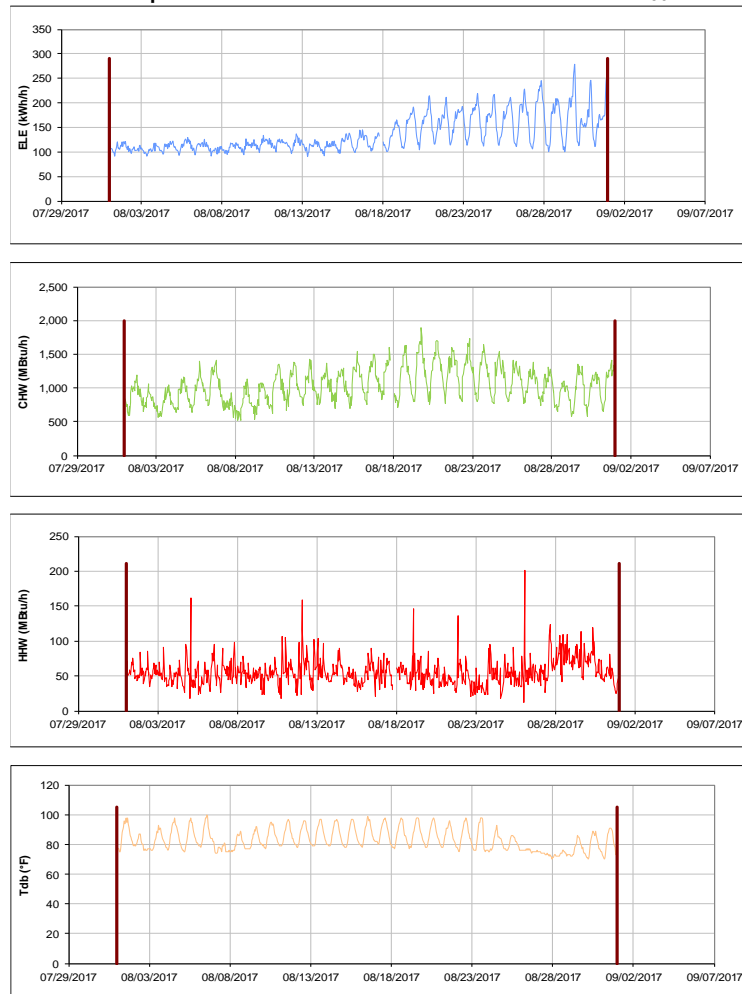

Figure III-186 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for White Creek Apartment 3 during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Figure III-187 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Gilchrist TTI Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Figure III-188 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for International Ocean Discovery Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**Offshore Technology Research Center** TAMU / BLDG #: 1604

Figure III-189 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Offshore Technology Research Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**George Bush Presidential Library & Museum** TAMU / BLDG #: 1606

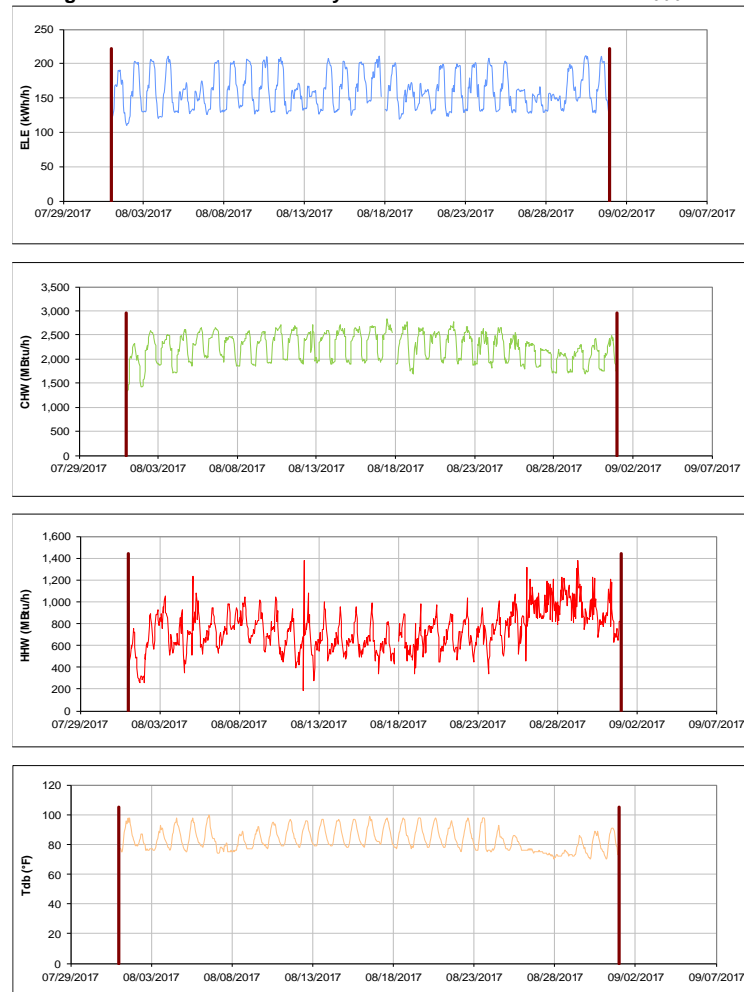

Figure III-190 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for George Bush Presidential Library & Museum during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

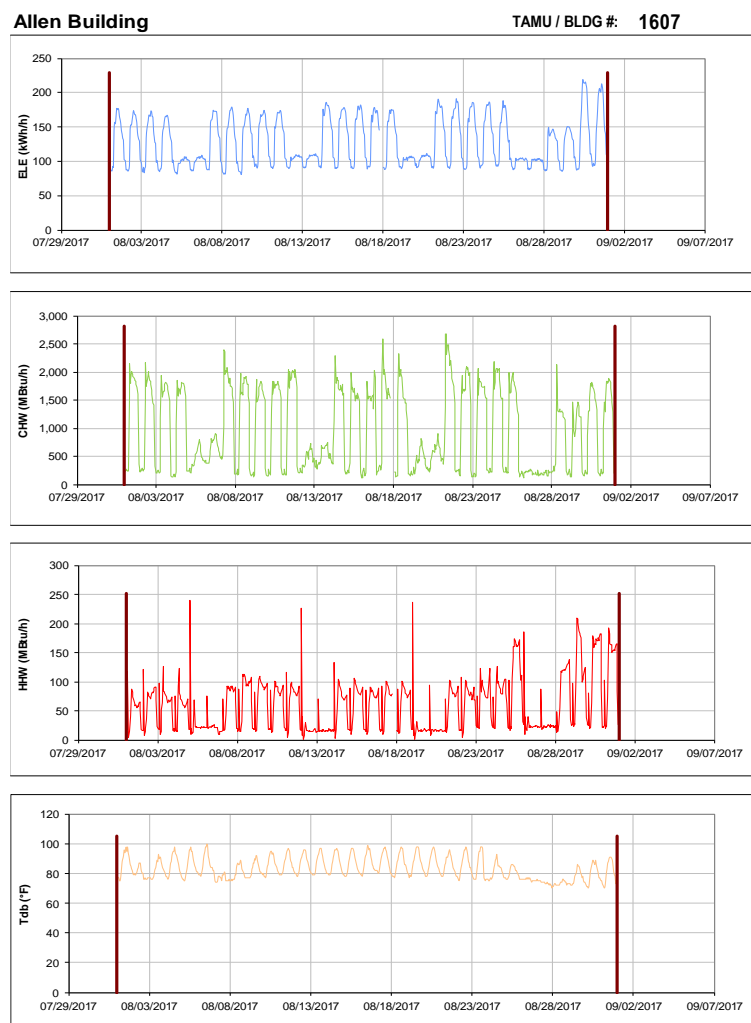

Figure III-191 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Allen Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

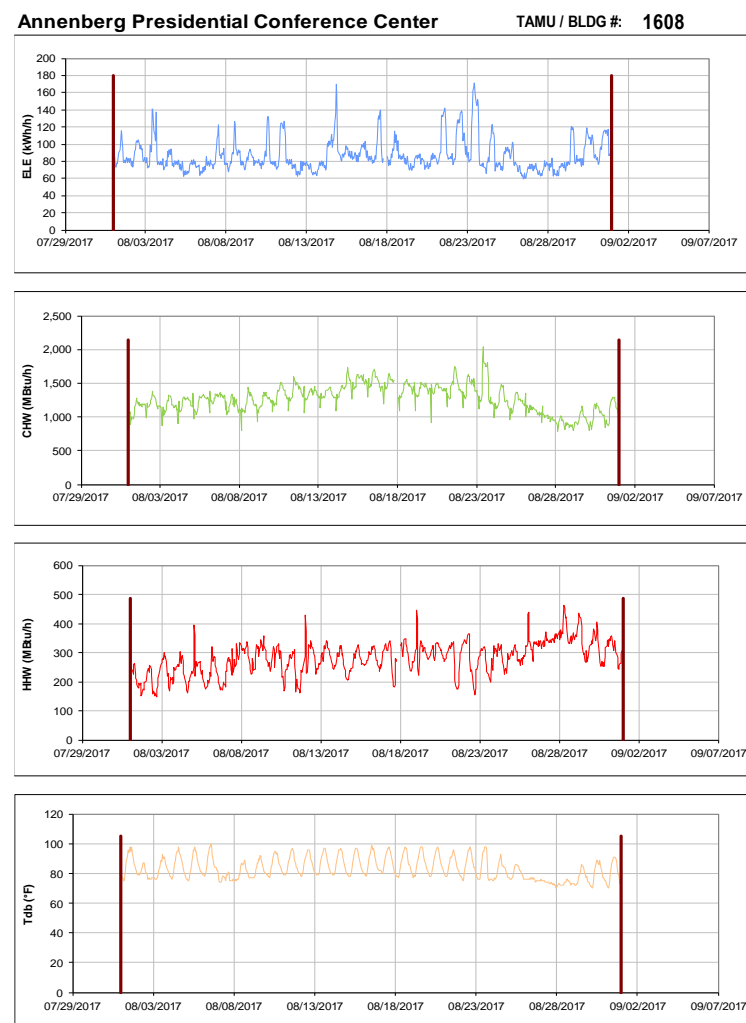

Figure III-192 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Annenberg Presidential Conference Center during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Figure III-193 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for TTI Headquarters during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

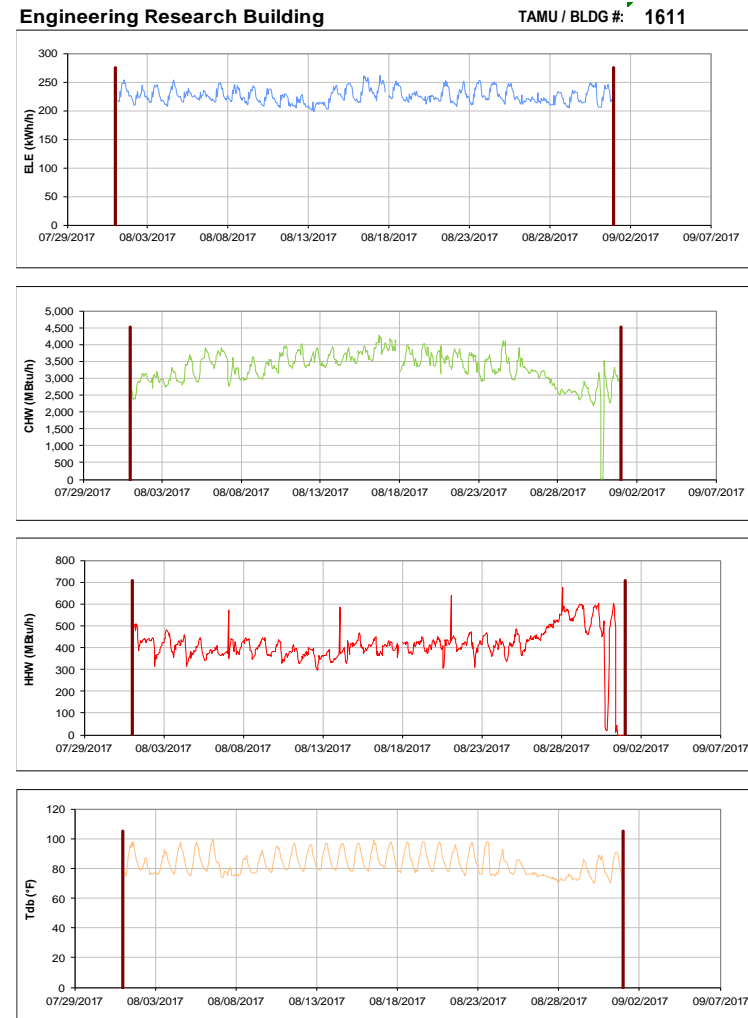

Figure III-194 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Engineering Research Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

General Services Complex

TAMU / BLDG #: 1800

Figure III-195 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for General Services Complex during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

New TVMDL

TAMU / BLDG #: 1809

Figure III-196 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for New TVMDL during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Office of the State Chemist Building

TAMU / BLDG #: 1810

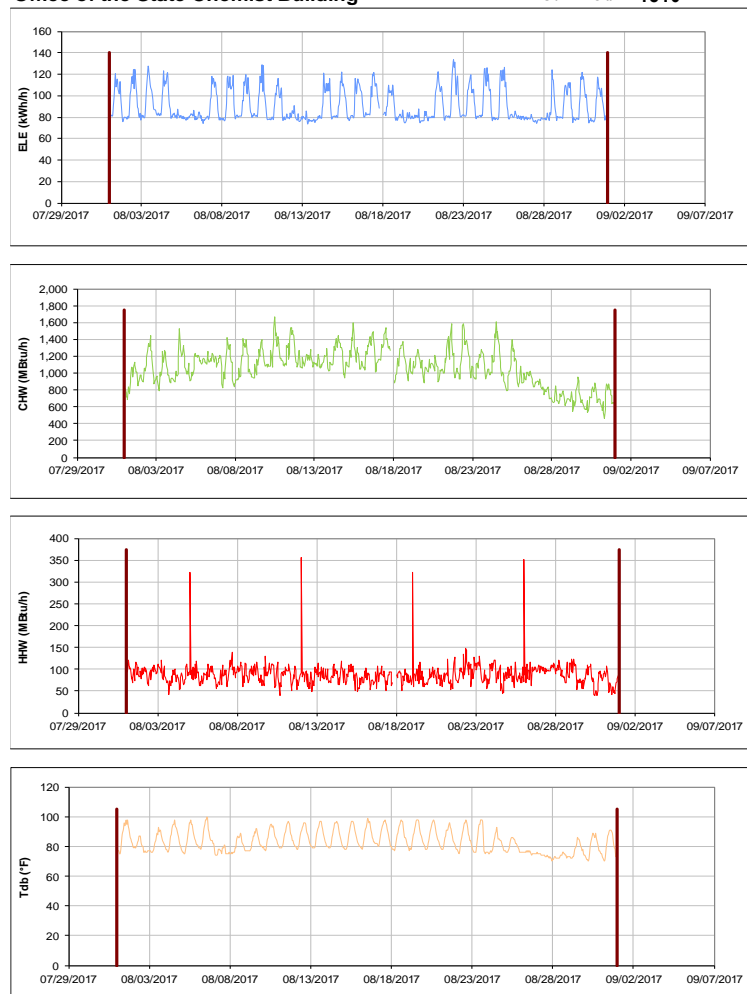

Figure III-197 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Office of the State Chemist Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

Vet Med Research Bldg Addition

TAMU / BLDG #: 1811

Figure III-198 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Vet Med Research Bldg Addition during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**Veterinary Medicine Building 1, 2, and 3**

TAMU / BLDG #: 2-1813-1814

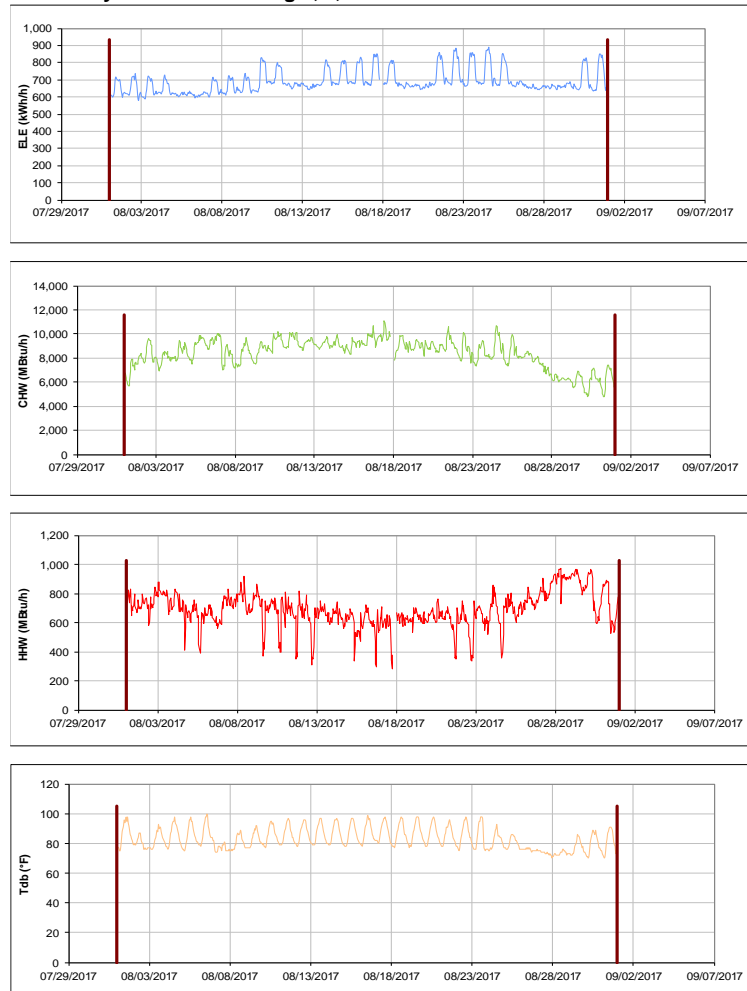

Figure III-199 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Veterinary Medicine Building 1, 2, and 3 during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**Texas Institute for Genomic Medicine**

TAMU / BLDG #: 1900

Figure III-200 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Texas Institute for Genomic Medicine during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**Texas A&M Institute for Preclinical Studies A** TAMU / BLDG #: 1904

Figure III-201 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Texas A&M Institute for Preclinical Studies A during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**National Center for Therapeutics Manufacturing** TAMU / BLDG #: 1910

Figure III-202 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for National Center for Therapeutics Manufacturing during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**Multi-Species Research Building**

TAMU / BLDG #: 1911

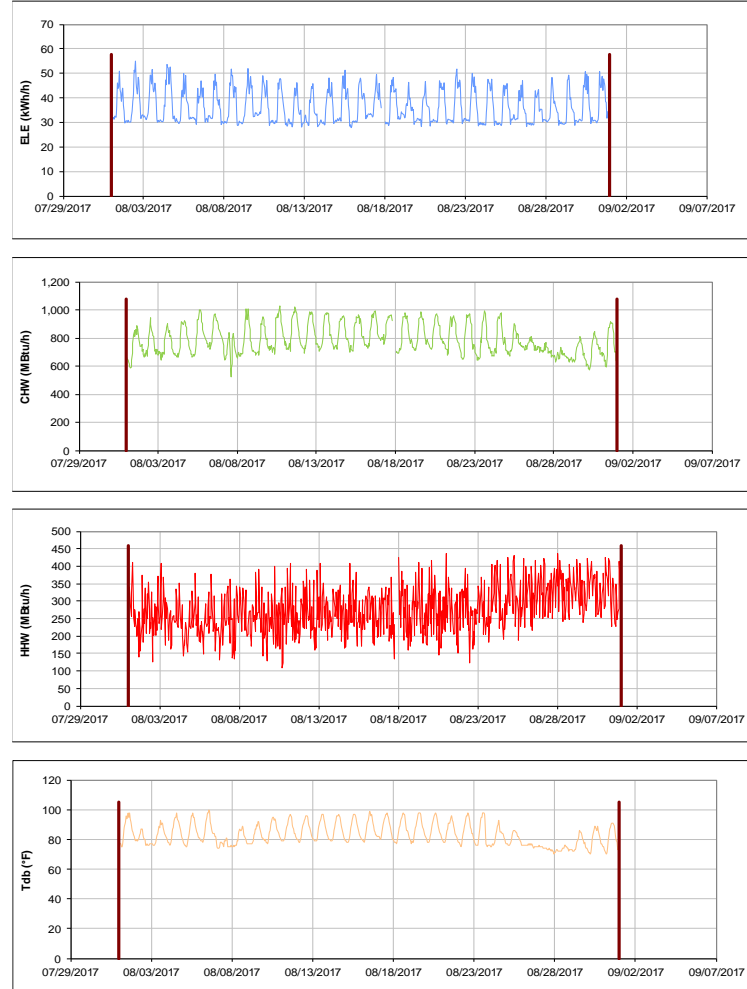

Figure III-203 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for Multi-Species Research Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

**NCTM Manufacturing Building**

TAMU / BLDG #: 10226

Figure III-204 Hourly Whole Building Electricity, Chilled Water, and Hot Water Consumption for NCTM Manufacturing Building during the Month of August 2017 and the Corresponding Hourly Outdoor Dry Bulb Temperature for College Station, TX

## **IV. Energy Balance Plots for August 2017 Consumption**

## **VI. Appendix**

ENERGY ANALYSIS GROUP

**ENERGY SYSTEMS LABORATORY**  
TEXAS A&M ENGINEERING EXPERIMENT STATION

**Project:** TAMU Energy Consumption QC/QA Analysis\*

**Report:** Energy Consumption Data Quality Assurance/Quality Control  
Assessment Report for the Month of August 2017

**Prepared for:**

Utility & Energy Services  
Division of Administration  
Texas A&M University

**Authors:** Xiaoli Li, Kimberly Jones, Hongxiang Fu  
Dr. Juan-Carlos Baltazar, and Dr. David Claridge

**Date:** September 2017

\* For information on this report please contact Dr. Juan-Carlos Baltazar.
